Guidance for Candidates

AHRC Funding Awards

(September/October 2027 entry)

Updated: 23rd November 2026

INTRODUCTION

This guidance is for candidates for the AHRC funding competitions hosted by the Faculty of Humanities, Arts and Social Sciences (FHASS) at Lancaster University.

This guidance sets out the details of the AHRC award, eligibility and the procedures for application.

The deadline to start a funding application is the 11th March 2027 – you must have completed the "Starter Form" by this date.

Following this, the final deadline to submit all documentation and references via the upload links provided by email is the 18th March 2027, 5pm GMT. Any application without all required documentation after this time, will be considered incomplete and will be disqualified.

Please read these notes carefully before making your application.

1. AHRC SCHOLARSHIP – DETAILS

The AHRC provides funding to enable candidates to study at Lancaster University at the doctoral level. The postgraduate awards programme is administered as follows:

Either 3.5 years full-time study or part-time funding on a *pro rata* basis

This scheme provides support for up to three and a half years of full-time study or part-time study *pro rata* for a programme leading to the award of a doctoral degree.

Please be aware that the allocated funds for the AHRC scholarships are shared also with the AHRC Collaborative Doctoral Award (CDA), a funding competition for Lancaster University academic staff. As the overall fund is limited, the number of AHRC scholarships awarded each year may vary in accordance with available funds and the outcome of CDA applications.

2. AHRC SCHOLARSHIP - ELIGIBILITY

It is required that candidates apply to the university for admission for a place on a PhD programme no later than the 5th February 2027.

- Lancaster University is committed to working with candidates from underrepresented communities and those from non-traditional academic backgrounds. You will be able to demonstrate your talent and your experience on the application form, and your referees can also provide additional information that we might need to make our decision. For more information about our commitment to Equality, Diversity and Inclusion (EDI), please visit our website: http://www.nwcdtp.ac.uk/EDI.
- Successful candidates typically have qualifications equivalent to a good honours degree (first or upper second class level) **and / or** professional experience and qualifications **and / or** practical experience. There is a clear outline of how we make our decision in 'Assessment Criteria', below.
- Your proposed project must align to one of the AHRC Pathways (see Appendix 1 for a list of Pathways).
- We consider full-time and part-time applications to be equally important. Applications are assessed on the same basis, regardless of mode of study.
- Degrees gained outside the UK are recognised. For non-UK qualifications, transcripts in English as well as details in the applicant's language must be provided with the application form.
- Lancaster University may offer up to 30% of the AHRC awards to International PhD candidates (definition below). All funded AHRC studentships, whether UK or International, will be eligible for a full award which includes a stipend to support living costs and fees at the standard UK Research and Innovation (UKRI) home fee rate. The university will fund the difference between the Home and Overseas tuition fee for any successful Overseas applicant(s).

- To be classed as a Home candidate you must meet the following criteria:
  - Be a UK National (meeting residency requirements), or
  - Have settled status, or
  - Have pre-settled status (meeting residency requirements), or
  - Have indefinite leave to remain or enter

  If you do not meet the criteria above, you will be classed as an International student. You can refer to UKRI Terms and Conditions for Training Grants for full details: https://www.ukri.org/funding/information-for-award-holders/grant-terms-and-conditions/

- Candidates who are currently undertaking or have gained or completed the requirements for a doctoral degree in any subject, however funded, are not eligible to apply for funding.

- Candidates who will undertake their degree away from the university (i.e. distance learners) are not eligible for AHRC funding.

- International students undertaking a PhD programme at Lancaster University must have their registered home address no more than 1 hour's commute from Lancaster University, Bailrigg Campus, while undertaking their studies.

- Candidates may submit only **ONE** application for AHRC PHD funding to Lancaster University in any given funding cycle. If you are unsuccessful, you may reapply the following year.

3. THE APPLICATION PROCESS

The deadlines for each stage of the application process are strict and non-negotiable. Applicants who are unable to meet these deadlines will unfortunately not be considered for funding.

a. First stage – Submit Institutional programme application

To submit a funding application, it is required that you have **applied** for a place on a PhD programme at Lancaster University no later than the 5th February 2027. This requirement ensures that there is sufficient time for your programme application to be processed and considered before internal funding deadlines are reached. Funding applicants who have not applied for a programme place by the 5th February 2027 will be summarily withdrawn from the process and will not be considered.

b. Second stage – Begin Funding application

Once you have applied to your institution, you can now begin your funding application. You must first complete the online Studentship Application form to start your application. This form closes on the 11th March 2027, 23:55 GMT and no new funding applications can be opened after this date.

Upon completion of the form, you will automatically receive an email with a link to upload additional documentation as will any nominated referees. Make sure to check any spam folders so the email is not missed.

c. Third Stage – Uploading of Supporting Material

Using the links received after the completion of the online form, upload all required documentation. All documents must be received no later than the 18th March 2027, 17:00 GMT. Any application with missing documents after this date will be considered incomplete and be summarily withdrawn.

You must upload the following using your provided link:

- A completed funding support form
- TWO references of which only ONE can be from your potential supervisory team. There is advice on what to include in reference letters below. These can also be uploaded by your referees.
- A copy of your academic transcripts for your undergraduate and where relevant, postgraduate (e.g. Masters) degrees you have undertaken.

Your application will be judged on the basis of your funding application form, your references, and your academic transcripts. See 'Assessment Criteria' below.

Your supporting documents must be submitted as either .doc, .docx, or .pdf files. File names should be formatted clearly and include your application number, surname, and the type of evidence being submitted; for example: "36789 - Smith – Support Form".

You are able to update your supporting documentation up to the 18th March 2027, 17:00 GMT. Updates to your documentation and your application after this time will not be accepted or communicated to the review panel with the exception of if you choose to withdraw your application. Please make clear if the document you have uploaded is an updated version by including the date in the file name, e.g. "36789 - Smith – Support Form (3rd Feb)".

You must submit all documentation required for your funding application regardless of whether you have previously submitted documents to Lancaster University as part of another application process. This includes references and transcripts.

The FHASS PGR Funding Team will not be able to retrieve documents from other university offices, programme applications, or from other funding competitions.

If you have indicated on the online form that your referee(s) will be uploading the references themselves, a link will be sent to your referee(s) so that they can upload a copy of your reference. We strongly recommend that you inform your referee(s) that an email request will be sent and that they should check any spam or junk folders. They must upload any and all references no later than the 18th March 2027, 5pm GMT. The FHASS PGR Funding Office is not able to chase referees for references. **It is the sole responsibility of the applicant to confirm with their referees that they have uploaded their reference.**

4. ASSESSMENT OF APPLICATIONS - PROCESS

a. The Review Process

Administrative Checks

Following the application deadline, applications will be checked by our administrative team to confirm that all eligibility requirements are met and that all applications are complete with all necessary documents and have an active programme application submitted no later than the 5th February 2027. Any applications that do not meet eligibility requirements or that are incomplete (e.g. missing documents, incomplete forms) will be summarily rejected. The Faculty PGR Funding Office will not chase applicants and referees for missing information/documents including references.

Discipline-Level

Your application will initially be assessed first by a **Discipline-Level PGR Funding Panel**. These groups consist of academics from within the relevant discipline to which your chosen PhD programme belongs (see details in Appendix II). Each application is judged on its own merits based on the information provided in your application form, support form, references and transcripts. The Panel agrees a mark for each application and applications are then ranked. The top-ranked applications are shortlisted for the next stage in the process.

Faculty-Level

The Discipline-Level PGR Panels will shortlist and then forward their top-ranked applications for consideration by the **Faculty-level PGR Funding Committee**. This panel consists of at least the four School PGR leads, the FHASS Associate Dean for Research, and the Lancaster University AHRC Lead and the FHASS Director of Postgraduate Research. Each member of the Committee will review and rank the shortlisted candidates. They will then meet to determine final allocation of awards.

b. Outcome of Application

Following the Faculty-level committee, candidates will be notified of the results of the competition via email. This will likely take place before the end of June. We kindly ask that applicants do not email university staff or the FHASS PGR Funding Office regarding the status of their application before the 30th June 2027 as no new information will be available.

A small number of candidates will be placed on the reserve list (this will be indicated in your results email). In the event a successful candidate chooses to reject their award offer, the award will be offered to the next candidate on the reserve list. The reserve list will close before the beginning of the 2027-28 academic year or when all offers of award have been accepted (whichever is earliest), after which no further offers of award will be made.

In the event that your funding application is unsuccessful, we still hope you will study here at Lancaster and join our thriving community of postgraduate researchers. We recommend getting in touch with your prospective supervisor(s) to discuss next steps. Do note that it will not be possible to share feedback of your application or indicate how far your application was in the process.

c. Taking up an Award

Award holders are normally expected to begin their programme of study in **2027-28 academic year** and no later than January 2028.

Holders of a full award will receive the first instalment of their maintenance grant in the first month of their studies.

In certain circumstances, such as illness, or where there is a need to give a period of notice to an employer, we will consider deferring the start date of a doctoral programme, to no later than January 2028 (with approval from the Faculty PGR office). You should contact fhasspgrfunding@lancaster.ac.uk in advance, including supporting letters from your principal supervisor and any supporting evidence.

If you are unable to take up your award in the year in which it was awarded, it will be withdrawn and you will have to re-apply in the competition in the following year, should an award be available. You will need to inform us of your decision at the earliest possible stage by e-mail. Make sure to include fhasspgrfunding@lancaster.ac.uk in your email.

The continuation of doctoral awards is subject to continuing satisfactory progress, subject to the University and Faculty's standard monitoring and progression processes, and can be withdrawn at any time if progress is deemed to be unsatisfactory.

Further details and terms and condition of the award will be sent to successful students in their results email in June/July 2027.

d. Resubmitting Applications

If you are unsuccessful in one year's competition you are welcome to apply in the next year's competition providing you continue to meet the eligibility criteria for the scheme.

Candidates who are currently undertaking or have gained or completed the requirements for a doctoral degree in any subject, however funded, are not eligible to apply for funding.

e. Appeals Process

The competition is fierce and many highly qualified and strongly supported candidates do not get an award. Each application is carefully scrutinised by the assessors, and their decision is reached in the context of competing applications and an overview of the entire cohort. Individual feedback on applications will not be available nor will we be able to indicate to what stage of the process your application reached.

Lancaster University does have a complaints and appeals procedures, details of which can be found on this web site: https://www.lancaster.ac.uk/strategic-planning-and-governance/student-complaints/

5. ASSESSMENT CRITERIA

Competition for studentships is fierce. At each stage, the relevant panel/committee will score each candidate a mark on a scale of 1-10 (10 being the highest, 1 the lowest) for their **research proposal**, their **preparedness for research**, and their **project fit** (explained below).

a. The Research Proposal

The quality of the **research proposal** (as provided in the Support Form) is judged in terms of:

(i) Robust and convincing argument;
(ii) structure and rigour;
(iii) originality;
(iv) design of the research and its feasibility

The assessors will look for evidence of an ability to articulate a research project, a coherent plan for doctoral study, and a good awareness of the place of the research within the current field.

Grade	Descriptor
9-10	Outstanding proposal in terms of both plausibility and originality. The research questions are excellent, there is strong engagement with the wider field, the methodology is appropriate and perhaps innovative. The intellectual importance of the project is clear and the proposal outlines in detail the contribution that the project will make to the field. A high priority for funding.
7-8	A very strong proposal outlined clearly. Research questions are clear and well outlined, there is an understanding of the wider field and the methodology is appropriate. The candidate makes a good case for the intellectual importance of the project. The research is likely to be feasible within the period of study. Worthy of considering for funding.
3-6	A promising proposal with some limited weaknesses that need to be addressed. Research questions are clear, and there is some understanding of the wider field. The methodology is solid and the candidate has some awareness of the intervention that the project makes in the discipline or field. The project will probably be feasible within the period of study. In the context of the funding competition this will not be possible to be considered for funding.
1-2	Problematic proposal – would need further work before it could be firmly supported.

b. Preparedness for research

Panels will assess the candidate's **preparedness for research** based on the following:

(i) career information provided in the application (including information on marks achieved so far as reported in the references and/or transcripts), as well as any relevant practical or professional achievement;
(ii) references;
(iii) relevant previous experience (academic and professional) including technical competence such as language skills;
(iv) how the programme of study will contribute to their long-term career plans.

Grade	Descriptor

9-10	An outstanding candidate with strong evidence of exceptional academic, practical, or professional achievement. Candidates in this zone would typically have achieved a high first/ Distinction, predominantly in the range 75-80, and in some cases at 80+ (or clear evidence that they have the potential to reach that level). Candidates in this zone will often have been awarded academic, artistic, professional or other prizes. If appropriate impressive professional or practical experience is outlined in detail. Excellent references discuss in detail the candidate's high-calibre intellectual background, suitability for research, and research skills. Candidate demonstrates excellent potential for original independent research and a strong sense of the importance of doctoral study to their career development. To be funded as a matter of priority.
7-8	A very strong candidate with excellent academic, practical, or professional achievement. Candidates in this zone would typically have achieved a first class/ Distinction, predominantly in the range 70-75 (or clear evidence that they have the potential to reach that level). If appropriate good professional or practical experience is outlined. References are strong and discuss the candidate's ability and suitability for research. Candidate shows good potential for original independent research and a sense of the importance of doctoral study to their career development. Worth considering for funding.
3-6	A solid candidate with evidence of good academic, practical or professional achievement. Candidates in this zone would typically have achieved a 2:1/ Merit (or there is clear evidence that the candidate has the potential to reach that level). If appropriate there is some evidence of professional or practical experience. References are solid and discuss the candidate's background. The candidate is reasonably well prepared for doctoral study but in the context of the funding competition not to be considered for funding.
1-2	Candidate is significantly below the expected standards. Candidates would have achieved a pass at MA level and comparatively low marks in their first degree (marks in the 50s). If appropriate there is little evidence of professional or practical experience. References are brief. We are very unlikely to support candidates with 2:2s, unless the first degree result was an aberration explained by the referees, or if they have a high-graded masters to enhance this.

Candidates may wish to discuss issues related to disability or extenuating circumstances with their referees and, if necessary, grant permission to include relevant information in the reference letter. It is the student's responsibility to contact and chase up relevant references in this case. The relevant School PGR Funding Panel can take the relevant information provided by the referees into consideration when accessing the application.

c. Project Fit

The quality of **Project Fit** is judged in terms of:

(i) fit of the project with supervisory team
(ii) fit of the project within the university, the faculty and the relevant pathways/disciplines (AHRC pathways, FHASS disciplines).

Grade	Descriptor
9-10	The supervisory team is excellent. The project fits very well within Lancaster University, the faculty and AHRC pathways.
7-8	The supervisory team is well matched to the project. The project fits within Lancaster University, the faculty and AHRC pathways.
3-6	The supervisory team is good.

1-2	Proposed supervisory team is not suitable or no supervisory team with expertise available.

6. APPLICATION TIMETABLE

Friday 5th February 2027	You are required to have submitted your application for a PhD programme place at Lancaster University no later than this date.
Thursday 11th March 2027, 5pm	Deadline to start a funding application. You must have completed the starter form by this date. After this date, the start form will close, and no new funding applications will be allowed to open.
Thursday 18th March 2027, 5pm	Deadline to upload all required documentation via the provided links. Close of application process.
March through to May 2027	Applications are reviewed at various stages as explained in this document. Please do not contact staff for updates on your application during this time as no new information will be available until early June at the earliest.
Approx. early-June 2027	Results released. Successful, reserve and unsuccessful candidates to all be notified of the outcome via email, normally on the same day.
Approx. mid-June 2027	Deadline for successful candidates to confirm acceptance of the award. A specific deadline will be given in letter of award, but applicants will typically have at least 2 weeks to make their decision following offer of financial award. Reserve candidates are contacted if a place is made available by the FHASS PGR Funding Office.
October 2027	Commencement of studies.

9. APPLICATION GUIDANCE

Studentship Starter Form

These notes will help you fill in the Studentship Application Form which must be completed not later than the **11th March 2027**.

Please note that any inaccurate or incomplete information may cause delays in your application and may result in withdrawal of your application is this is not addressed promptly. **It is the responsibility of the applicant to identify incomplete or inaccurate information and correct as required by the deadline.**

APPLICANT DETAILS

1. **Applicant Name**

   Please provide your name as it appears in on your programme application form.

2. **Confirmation of programme application**

   Please confirm whether you have applied for a PhD programme at Lancaster University.

3. **Date of application**

Please provide the date you submitted your programme application (not your funding application).

4. **Lancaster University Programme Application Number:**

   Please provide your Programme Application Number – it is eight digits and should begin with the number 3. It is typically found on the Admissions Portal and in any emails (including offer emails) that Admissions have sent you.

5. **Email Address**

   This email is where any upload link requests for documents will be sent. Make sure it is correct.

6. **Studentships available:**

   Please tick the studentships/scholarships you wish to apply for. You can apply for one or both funding competitions where eligible.

7. **Fee Status**

   Please confirm whether you are a UK fees paying student or an International fees paying student. To be eligible for UK (Home) fees, you must:
   - Be a UK National (meeting residency requirements), or
   - Have settled status, or
   - Have pre-settled status (meeting residency requirements), or
   - Have indefinite leave to remain or enter

8. **Attendance Status**

   Please indicate if you have applied to study at the university (e.g. at Lancaster campus) or away from the university (e.g. distance learning). Do note that distance learning applicants are not eligible for this funding competition.

9. **External Funding**

   We ask that students provide details of any other funding they apply for. List the name of the funding competition and provide any further details as you wish.

10. **Current PhD**

    Please confirm whether you have already started your PhD. This funding competition is only open to applicants who have not yet started a PhD programme.

11. **Previous PhD**

    Please confirm whether you have previously undertaken a PhD at any institution. This funding competition is only open to applicants who have not studied for a PhD.

PROGRAMME AND SUPERVISORS

12. **FHASS PhD Programme**

    Select the programme you have applied for from the provided drop-down. If you are applying for a non-FHASS programme, you will need to type the answer.

13. FHASS Disciplines:

Please name the FHASS discipline to which your chosen PhD programme belongs. Most of the time this is obvious but if you are unsure, see Appendix II. If your chosen PhD programme is from outside of FHASS, please indicate as such.

14. AHRC Pathway

Please name the AHRC pathway to which your proposed project best aligns to. If you are unsure, we recommend contacting your potential supervisory team.

15. First/Second/Third Supervisor Name

Please provide the name(s) of your prospective supervisor(s).

16. First/Second/Third Supervisor Email

Please provide the email(s) of your prospective supervisor(s).

SUPPORTING DOCUMENTATION

17. Confirmation of Requirements

You are required to acknowledge what documents are required to complete this funding application and that you understand that it is your (the applicant's) responsibility to submit these documents on time.

18. Origin of Transcript

As part of the application process, you are required to submit a copy of your undergraduate (and postgraduate) transcripts. If these are from a non-UK university, please indicate so our admissions team can provide guidance to the funding panels on international degree equivalencies.

19. First/Second Referee Name

Provide the full name of each referee, including any academic titles e.g. "Dr Jane Smith"

20. First/Second Referee Organisation

Provide the current organisation or institution of each referee

21. How is First/Second Referee related/known to you?

Indicate how you know your referee. A reminder that only ONE of your referees may be part of your prospective supervisory team.

22. First/Second Referee Email

Please provide the email address of each referee. Make sure this is completely accurate as it is to this email that we will send an automated request for a reference.

23. First/Second Referee Submission Method

Please indicate how each reference will be submitted to us. It can either be uploaded by the applicant via a link or uploaded by the referee via a link.

EQUALITY, DIVERSITY AND INCLUSION

This section is completely optional. This section is collected for monitoring purposes so that the AHRC and Lancaster University can better understand how we are reaching candidates from underrepresented groups or backgrounds. Please be assured that the form will be anonymised and separated from your application form before the assessment stage process.

ADDITIONAL INFORMATION

The information requested here is again optional but helps us improve our services and ability to reach candidates. This section is anonymised and will not affect your application.

24. Acknowledgement

The statement provided must be read and confirmed in order to submit the form.

Once the starter form is submitted (no later than the 11th March 2027), you will receive an email with a link that you can use to upload all other necessary documents. If indicated, your referees will also receive an email so they can upload their supporting statements. All documents and references must be uploaded no later than the 18th March 2027, 5pm GMT.

Support Form

These notes will help you fill in the LU Support form that can be found here

1. **Name**

   Please provide your full name. Make sure it matches how your name is given on the main application form.

2. **Lancaster University Application Reference Number**

   Please provide your Programme Application Number – it is eight digits and should begin with the number 3. It is typically found on the Admissions Portal and in any emails (including offer emails) that Admissions have sent you. You will have also used this number when you completed your starter form.

3. **Name of Programme**

   Please provide the name of the PhD programme you have applied for.

4. **FHASS Department and/or School**

   Please provide the department/school which your PhD programme belongs. If your programme is from a faculty other than FHASS, please enter “Non-FHASS”.

5. **Project Title**

   The title of the PhD project should be entered.

6. **Proposed Supervisor(s)**

   Please give the names of your proposed supervisors if known.

7. **PhD/Project Proposal (max. 1500 words)**

Please give details of your PhD proposal in up to 1500 words. This limit includes bibliography, tables, figures, table/ figure captions and footnotes. Applications which do not follow this limit will be disqualified. Please provide a word count at the end of the proposal. If you are including footnotes they will count towards the final word count. Be careful if you are pasting tables or other illustrations as they will also contribute to word count and may disrupt your formatting.

8. **Qualifications**

Please enter your relevant qualifications, awarding institution, and class or Grade Point Average (GPA) awarded. This should include any relevant professional qualifications. If you are currently undertaking a programme of any kind, please indicate what this is and indicate 'pending' under results.

9. **Details of Career or Education Break (max. 150 words)**

Please feel free to provide details of any significant break(s) in your career or education.

10. **Details of Relevant Professional/Practical Experience (max. 400 words)**

The assessors will use this information to establish any research, practice-based, or professional experience you have gained that might contribute to the intended research topic. What makes your experience distinctive and contribute to the unique aspect of your project? Please supply the kind and extent of any experience relevant to your proposed research. If you do not have relevant information, you can leave this section blank and you will not be penalised.

11. **Research Training and Resources needs (max. 150 words)**

Please give details of any identified training needs for your doctoral programme and state whether or not this has been discussed with your supervisors. Please also state whether your research project will require you to undertake research abroad or require additional resources (e.g. research/study abroad, language training, use of specialist equipment/facilities etc).

12. **Statement and Signature**

The provided statement must be read and confirmed with your signature for this form to be accepted. A typed signature is acceptable.

Once completed, this form should be uploaded using the links provided to you no later than the 18th March 2027, 5pm GMT.

References and transcripts

Your application will be judged on the basis of your application form, your references, and your academic transcripts. These must be uploaded by the submission deadline. You can either use copies of the references and transcripts submitted in support of your application for a place, or can supply updated documents if appropriate. This is advised if your new documents are able to provide new information, for instance regarding your performance on a master's degree currently in progress. It is your responsibility to contact and chase up relevant references in this case.

Guidance for references:

- Only ONE potential supervisor may be a referee.
- Referees should comment on the academic ability of the candidate or their professional or practical experience.

- Referees should discuss the candidate's intellectual ability. They should comment on the candidate's suitability for postgraduate training in general and for the research they propose to undertake.
- Where possible, the referees should comment on the research project in relation to the candidate, the supervisors, and the research environment.
- Referees should avoid generalisations, repetitions, and 'lukewarm' statements in references.
- Details of relevant extracurricular activities that in which the candidate has participated can also be highlighted in references to demonstrate candidate's experience and suitability for an extended research project e.g. outreach, publications, collaborative research, research events, conferences, etc.
- If the candidate is not from a UK institution it will be useful for the references to discuss their qualifications and underline whether they are particularly exceptional.
- Referees might wish to raise anything that might have prevented the candidate from achieving their maximum potential, if this is appropriate.
- Referees should look at the Assessment Criteria when preparing their references.

Once completed, references should be uploaded using the links provided to you/your referees no later than the 18th March 2027, 5pm GMT

APPENDICES

APPENDIX 1 – LIST OF AHRC PATHWAYS

Pathway
Classics
Creative Writing
Dance, Drama and Performing Arts
English
Heritage
History
Language Based Area Studies
Law
Linguistics
Media and Cultural Studies
Music
Philosophy
Religions and Theology
Visual Arts: Arts and Design

APPENDIX II – LIST OF FHASS SCHOOLS and DISCIPLINES

The Faculty of Humanities, Arts and Social Sciences at Lancaster is divided into four schools under which sit a variety of disciplines.

School of Arts
- Architecture
- Contemporary Arts
- Creative Writing
- Design
- English Literature
- Film & Media
- Fine Art
- Theatre Studies

School of Global Affairs
- History
- Politics
- Philosophy
- Religious Studies
- Languages and Global Cultures
- International Relations

School of Law
- Law

School of Social Sciences
- Educational Research
- Linguistics and English Language
- Sociology
- Criminology
- Social Work
