## Information Sheet for Children CoCoNet Survey

Thank you for your interest in the CoCoNet Study.

The CoCoNet study is trying to understand where people go and who they talk to. This is important when thinking about the spread of a disease like coronavirus.

### **Can I take part?**

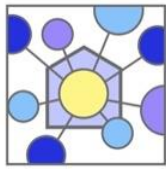

Only if you live in the UK, and you have permission from your parent or the person that looks after you.

### **What do I have to do?**

We will ask you some questions about who you live with, where you go, and who you talk to.

You should answer these questions online with the help of your parent or the person that looks after you.

It will take about 5 to 10 minutes to answer all of the questions.

### **What happens to my answers?**

We will keep hold of your answers on a computer along with everyone else's, to help us with our study. We will not know who you are from your answers. We do not ask for your name or your address.

The adult filling out the survey with you can choose to give us an email address if you would like us to keep in touch. If we have this, we will contact you to ask if you would like to answer the questions again. We will also tell you what we have found so far.

### **Does anything else happen?**

We will publish the results of the survey online once we have studied them. Remember, no one will know which answers are yours.

**If you have any questions, you can contact one of the researchers at any time.**

You can email Jessica Bridgen at [j.bridgen@lancaster.ac.uk](mailto:j.bridgen@lancaster.ac.uk)

or

Dr Jonathan Read at [jonathan.read@lancaster.ac.uk](mailto:jonathan.read@lancaster.ac.uk)

**Thank you for reading this information sheet.**
