Gender, Sexuality and Language in African Contexts:

Bibliography

This Bibliography, compiled by the Editors, is the first (we believe) of its kind (but see Dubbeld et al. (2002), below, on work from South Africa)\(^1\). It includes work which focuses on gender and/or sexuality and Africa (including North Africa) with a linguistic, discourse or literacy focus (but excludes the large body of work on literature). It comprises publications of many kinds, including websites and unpublished PhD theses/dissertations, but not MPhil, MA or BA theses/dissertations, or conference papers. We do not claim that it is comprehensive, and of course more relevant work will follow, which we aim to add. We welcome suggestions for further items to include.

Updated versions of the Bibliography can be found at
