You gave us your feedback and we listened.

You said...

- ‘Switch role’ button hidden
- Interface complicated to use
- Limited search facility
- Cluttered Interface
- Difficulty viewing whole grading table
- Accessibility settings not retained across courses

...we did

- *Switch role* button created on toolbar
- *Simplified interface* for user management of users, groups, filter by activity/non-activity
- *More extensive* search capability e.g. Documents, courses, forums
- ‘*Freeze Frame*’ created for left column/row
- Boost-based interface *less cluttered*
- Accessibility settings are now retained across *all courses*
