LLOYTRON®

2200W
1.7Ltr CORDLESS KETTLE

Model. E873BK, E873WH, E873RD

OPERATING INSTRUCTIONS
INTRODUCTION

Thank you for the purchase of this quality LLOYTRON product. Used carefully and in accordance with the instructions set out below, it should give you trouble free service over a long period of time. Please keep these instructions for future reference.

FEATURES

- 2200w Power Consumption
- 1.7ltr Capacity
- Dual water level window with gauge
- Power Indicator Light
- Hinged Lid
- Built in safety cut-out against boil dry
- Slide Out washable filter
- Cordless design for convenience of use

⚠️ UK PLUG REWIRING

Your appliance operates on 220-240V~50Hz AC Mains and comes fitted with a 3-pin BSI Approved plug, so that it is ready for use by simply plugging into AC Mains. Should you need to change or refit a plug, proceed as follows:

IMPORTANT:
The wires in the mains lead are coloured in accordance with the following code:

<table>
<thead>
<tr>
<th>COLOR</th>
<th>TERMINAL</th>
</tr>
</thead>
<tbody>
<tr>
<td>BLUE</td>
<td>NEUTRAL (N)</td>
</tr>
<tr>
<td>BROWN</td>
<td>LIVE (L)</td>
</tr>
<tr>
<td>GREEN &amp; YELLOW</td>
<td>EARTH (E)</td>
</tr>
</tbody>
</table>

As the colours of the wires in the mains lead of this appliance may not correspond with the coloured markings identifying the terminals in you plug, proceed as follows:

The wire which is coloured BLUE must be connected to the terminal which is marked with the letter "N" or coloured BLACK.

The wire which is coloured BROWN must be connected to the terminal which is marked with the letter "L" or coloured RED.

The wire which is coloured GREEN & YELLOW must be connected to the terminal which is marked with the letter "E" or coloured GREEN.

DO NOT CONNECT EITHER WIRE TO THE EARTH TERMINAL OF A 3-PIN PLUG

Always ensure that the Mains Cord is located into the Plug through the Cord Guard or Cable Clamp, and that the Cord Guard screws are tightened to clamp the Cord (outer sheath and inner coloured wires) in position in the Plug. Make sure the Plug top is also fitted securely.

This appliance must be protected by a 13-amp fuse in a 13-amp type (BS1363) plug. Should you need to replace the fuse, use only an ASTA approved BS1362 fuse.
**LOCATION OF CONTROLS**

- Lid Handle
- ON/OFF Switch
- Window with Gauge
- Removable Base
- Power Indicator

**SPECIFICATIONS**

Operating Voltage: 220-240v~ 50Hz  
Wattage: 2200w

---

**IMPORTANT SAFEGUARDS AND PRECAUTIONS**

**CAUTION:** This type of kettle operates by allowing hot steam through the handle which triggers the on/off switch. The handle can sometimes become very hot. You should NOT keep hold of the handle when boiling. You should ALLOW up to 15 seconds after boiling to allow the handle to cool. This is not a fault of the kettle. It is designed to operate this way and will not cause injury if used correctly.

**SAVE THESE INSTRUCTIONS**

1. READ ALL INSTRUCTIONS.
2. Before inserting the mains plug into the socket, check whether the supply line voltage and current rating are in compliance with the rated electric parameter shown on the kettle label.
3. Do not use the kettle for any other use than to boil water.
4. To protect against fire, electric shock or personal injury, DO NOT IMMERSE the kettle plug or mains cord in water or in any other liquid.
5. Extreme caution must be used when moving an appliance containing hot water.
6. To prevent damage to the mains cord, do not let it pass over sharp corners, edges or hot surfaces.
7. Do not touch any part of the kettle except the handle when it is fully filled with boiling water.
8. Close supervision is necessary when this or any electrical appliance is used by or near children. Ensure that children cannot pull on the mains cord.
9. Do not operate the kettle with a damaged cord or if it has been dropped or damaged in any way. To avoid electric shock, do not disassemble the kettle. Take it to a qualified engineer for examination and repair.
10. Never switch the kettle on if it is empty.
11. Do NOT open the lid while the kettle is boiling.
12. Only use the kettle with the stand provided.
13. **CAUTION:** Burns can occur from touching hot surfaces, hot water, or steam! Take Care!
HOW TO USE

CAUTION – Before first use, boil the kettle twice and discard the water to remove any dirt left over from production.

1. Place the kettle base on a stable flat surface.
   (DO NOT position the kettle/ kettle base near hot surfaces or near open flames).
2. Insert the plug of the mains cord into a wall socket, taking care that the mains cord cannot be accidentally caught by passers-by.
3. Lift the Lid of the kettle and fill with water up to the 'maximum' level shown on the Kettle Water Level Indicator. It should be neither higher than the 'Max' line nor lower than the 'Min' line.
4. Replace the lid, ensuring it falls securely into place.

WARNING: DO NOT OVERFILL – This will cause boiling water to be ejected from the spout.

5. Position the kettle onto the Heating Base.
6. Push the ‘ON/OFF’ switch “ON”. The LED indicator Light will light up, meaning the kettle is heating.
7. The kettle will automatically switch off several seconds after the water has boiled.
8. The ‘ON/OFF’ switch will automatically position itself back “OFF” and the indicator lamp will go out. Boiling can, if desired, be restarted after a short period of time by pushing the switch back “ON”.
9. Pour boiling water slowly and carefully, without tipping the kettle too fast.

SAFETY CUT-OFF
This kettle is equipped with a safety cut-off device, to protect the appliance from inappropriate use. Should the appliance be accidentally operated without water, or if all the water has evaporated, the safety cut-off device will automatically switch off the heating element. If this occurs, unplug the kettle and allow it to cool down for ten minutes before re-filling with cold water.

CLEANING AND CARE

MAINTENANCE:
This appliance has been designed to operate over a long period of time with a minimum of maintenance. Continuous satisfactory operation depends upon proper care and regular cleaning.

Warning! Before performing any maintenance or cleaning of this appliance, disconnect the appliance from the electrical supply. Any ventilation slots should be cleaned occasionally with a clean, dry paint brush.

CLEANING:
The exterior surface of the appliance and the warming base should be cleaned with a clean damp cloth only.

DO NOT USE ABRASIVE CLEANERS ON ANY PART OF THIS APPLIANCE.

HARD WATER AREAS:
In Hard Water areas, a build up of calcium deposits may become visible around the element. This sometimes causes a distaste in the water.

To help keep the kettle in pristine condition, it is recommended to clean the inside of the kettle with a solution of 10% White Vinegar and Water. Boil several times, before rinsing twice with fresh water to remove the calcium build up and the vinegar.
**CAUTION**
**RISK OF ELECTRIC SHOCK**

**DO NOT OPEN**
The Lighting flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user of the presence of uninsulated "dangerous voltage" within the product's enclosure; that may be of sufficient magnitude to constitute a risk of electric shock to person.

**CAUTION!**
This appliance is not intended for use by persons with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance, by a person responsible for their safety.

---

**WEEE / ENVIRONMENTAL PROTECTION**

**Disposal of Electrical and Electronic Equipment**
Do not dispose of this product with household waste. For the proper treatment, recovery and recycling, please take this product to the appropriate waste collection point. If you are unsure where this may be, please contact your local authority.

Improper disposal may be harmful to the environment.

**2 YEAR GUARANTEE**

**NOTE: THESE STATEMENTS DO NOT AFFECT YOUR STATUTORY RIGHTS AS A CONSUMER.**

This product has been manufactured under the strictest of quality control procedures, and using the highest quality of materials, to ensure excellent performance and reliability. It will give very good and long-lasting service, provided it is properly used and maintained.

The product is guaranteed for two years from the date of original purchase. If any defect arises due to faulty materials or poor workmanship, the faulty product must be returned to the original place of purchase. Refunds or replacement is at the discretion of the store.

LLOYTRON plc offer this two year guarantee under the following conditions:
1) The product must be returned to the retailer with original proof of purchase.
2) The product must be installed and used in accordance with the instructions contained in this operating manual.
3) It must be used only for domestic purposes.
4) It does not cover wear and tear, malicious damage, misuse, neglect, inexpert repairs or consumable parts.
5) Lloytron plc has no responsibility for incidental or consequential loss or damage.
6) Lloytron plc are not liable to carry out any type of servicing work, under the guarantee.
7) Valid in the UK and Eire only.
