Please read these instructions carefully before attempting to install or use this appliance. It is advisable to keep these instructions in a safe place for future reference.
Introduction

Thank you for choosing this In-Cuisine branded appliance. It has been designed to give years of trouble-free use provided it is installed and maintained correctly.

Please read these instructions carefully before installing or using your appliance. It is advisable to keep your purchase and installation receipts with these instructions in a safe place for future reference. Included is some important safety information in addition to guidelines and recommendations that will enable you to take full advantage of all the functions available.

This quality appliance has been tested and certified to meet all applicable UK electrical and safety standards.

This appliance must be installed and connected in accordance with current regulations.

After unpacking the appliance ensure that there is no visible damage. If the appliance has been damaged during transit, do not use it, contact your retailer immediately.

Description Of The Appliance

1. Door & Viewing Window
2. Timer Control Dial
3. Power Control Dial
4. Push Button Door Control

Section 1. Installation

- Remove all packaging, plastic film and securing tape from the appliance.
- Wash the interior of the appliance with warm soapy water.
- Position the appliance in a dry atmosphere.
- To ensure sufficient ventilation, the distance from the back of microwave to the wall should be above 10cm, the side to the wall above 5cm, the top to the ceiling above 20 cm.
- Position the appliance so that the rear side is facing the wall, but ensure that there is a gap of 10cm minimum. To keep the microwave oven at the correct distance from the wall, ensure the distance limiter is fitted (see Fig.1. below).
- Do not place any objects on the top of the microwave oven.
- Keep the microwave oven away from the TV, Radio or antenna as picture disturbance or noise may occur.
- The microwave oven is intended to be used freestanding and must not be placed inside a cabinet.
- Do not position next to a cooker or other sources of heat, i.e. gas or electric hob.
- Please note that certain parts of this appliance have been protected with a light film of oil. During initial use you may see light smoke coming from the oven as the oil is burnt off. This is quite normal.
- Do not place or store heavy items on the top of this appliance.
- Ensure that the appliance is positioned on a firm flat surface.
- Connect the plug to an adjacent 'easily accessible' 13amp socket outlet and ensure that the appliance is not standing on the supply cable.
- Never operate this oven without food or liquids inside!

Section 2. Safety Advice

- Please read this booklet thoroughly before installing and switching on the appliance. The manufacturer accepts no responsibility for incorrect installation and usage.
- This appliance has been designed for Domestic Use Only.
- Do not allow children to play with the appliance.
- This appliance must only be used for cooking/heating foods and liquids. Do not use it for any other purpose.
- If using an adaptor, this must be used in accordance with the manufacturer's instructions and ensure that the electrical circuit is not overloaded as this could cause overheating.
- Do not twist or bend the cables, and keep them away from hot surfaces.
- Do not plug in or unplug this appliance with wet hands.
- Following installation make sure that the power cable is not trapped underneath the appliance.
- Remove all twist-ties from food bags before placing them in the oven.
- Do not heat oil or fat inside the oven.
- Do not over cook food inside the oven.
- Do not heat sealed containers or try to cook eggs (inside their shells) in this oven – they may explode.
- Potatoes, sausages and items such as chestnuts must be peeled or pierced before placing them in the oven.
- After liquids have been heated in the oven wait a few moments before removing the container – handle with care as the container may be hot – use protective gloves.
- Liquids and foods should be stirred and the temperature checked prior to consumption.
- If you cover a container with cling film, remove it very carefully after the cooking process has finished – steam will escape and may burn your hands.
- Always let the turntable cool down before washing it.
- Never cook foods directly on the turntable.
- Make sure that plates/dishes do not touch the walls when the turntable rotates.
- Keep the interior surfaces clean. Failure to do this could lead to the appliance malfunctioning.
Section 3. Operating the Appliance

3.1. Switching on the Appliance
- Plug in the appliance and switch on at the mains supply.
- Ensure that there is adequate ventilation around the appliance.
- Ensure that the appliance is level.
- Please note that certain parts of this appliance have been protected with a light film of oil. During initial use you may see light smoke coming from the oven as the oil is burnt off. This is quite normal.

3.2. Timer & Power Functions  (Picture indicative of model supplied)

The timer must be set to operate the oven.
The maximum time that can be set is 30 minutes.
A bell will sound when the timer has finished.

This oven features 6 power settings:
High – 100% Power
M. High – 85% Power
Med – 66% Power
Med. Low – 40% Power
Defrost – 37% Power
Low – 17% Power

3.3. Operating the Oven
- Never operate the oven without food or liquids inside.
- Place the food (in a container) on the glass turntable and close the door.
- Select the required Power level.
- Select the required Cooking Time.
- The oven will immediately start to operate (*).
- The bell will sound and the oven will automatically stop at the end of the set time.
- If you open the door and remove the food/container from the oven prior to the end of the set cooking time, you must ensure that the timer control is turned back to zero (0).

(*) If the required cooking time is less than two (2) minutes, first turn the timer control past the three (3) minute setting and then turn back to the required time.

Always follow the microwave/defrosting instructions shown on your food packaging and note that this oven has a power output of 800W.

3.3. Normal Operating Sounds
You will hear the sound of the motor during operation and there may be a slight ticking noise from the timer control knob as it rotates – this is quite normal. There will be an audible 'ping' at the end of the cooking period.
Section 4. Maintenance

Before any maintenance or cleaning work is carried out, DISCONNECT the appliance from the ELECTRICITY supply and ensure that the appliance is completely cool.

4.1. Internal Cleaning

Clean the interior and accessories with warm soapy water. Rinse and dry thoroughly. Do not use detergents, abrasive powders, highly perfumed cleaning products, wax polishes or cleaning products containing bleach or alcohol.

4.2. External Cleaning

Wash the outer cabinet with warm soapy water. Do NOT use abrasive products. There may be sharp edges on the underside of the product, so care should be taken when cleaning.

4.3. What to do if something goes wrong

There is no power to the appliance:

- Check there is not a power cut
- Check there is power to the electric socket/appliance
- Check the fuse in the plug (Must be 13 amp)

The oven will not operate:

- Is the Timer control set to the required time?
- Has the door been closed correctly?

If after the above checks there is still a fault please contact your retailer.

Important Note:

This appliance is marked according to the European directive 2002/96/EC on Waste Electrical and Electronic Equipment (WEEE). By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product.

The symbol on the product, or on the documents accompanying the product, the Crossed Out Wheelie Bin, indicates that this appliance may not be treated as household waste. Instead it shall be handed over to the applicable collection point for the recycling of electrical and electronic equipment.

Disposal must be carried out in accordance with local environmental regulations for waste disposal. For more detailed information about treatment, recovery and recycling of this product, please contact your local authority, your household waste disposal service or the retailer where you purchased the product.

We continuously try to improve our products for the benefit of our customers.
For this reason we reserve the right to make changes to any product at any time, without notice
