INSTALLATION

Cleaning:
- Always allow the oven to cool before cleaning.
- Remove any grease or food from the oven before cleaning.
- Remove all removable parts before cleaning.
- Use a warm, soapy cloth to clean the oven door and frame.
- Avoid using harsh chemicals or abrasive pads.
- To prevent damage, never use metal utensils or scouring pads.

SAFETY TIPS

NEVER:
- Use a cloth to clean the oven while it is hot.
- Use hard brushes or steel wool on the oven.
- Use a vinegar solution to clean the oven.

MAINTENANCE AND CLEANING

CLEANING GLASS DOOR

To avoid breakage:
- Do not use a detergent concentrated on the door.
- Do not leave open when the oven is not in use.
- Use a soft, damp cloth to clean the door.
- Avoid using abrasive cleaners.

LAMP REPLACEMENT

1. Turn off the oven and wait for it to cool.
2. Open the oven door and remove the old lamp.
3. Replace the lamp with the new one.
4. Close the oven door and turn the oven on.
