

HAZELRIGG WEATHER OBSERVING

We are always looking for volunteers to help with the meteorological observations collected daily at 9 a.m. from Hazelrigg. Our team of undergraduate and postgraduate students and staff ensure that we contribute to the Met. Office's climatological record with consistently high quality, reliable data.

Maybe clouds, weather and climate simply interest you?

Perhaps atmospheric science is relevant to your course, research or future career?

Whether you just want to cover the occasional Saturday or Sunday morning, or to do as many days as possible to help build your CV, you would be making a valuable contribution to UK climate science.

If you are interested, please contact James Heath (j.heath@lancaster.ac.uk).
