

# Lancaster Environment Centre

## Office Space and Facilities

*Come and co-locate alongside Lancaster University's internationally renowned knowledge base in award winning business space at the Lancaster Environment Centre (LEC). Base your entire company on campus, just your R&D staff, or take a hot desk when you need it.*

### Lancaster Environment Centre

The Lancaster Environment Centre is a community of world class environmental researchers, high achieving students, government scientists and commercial enterprises working together to address today's biggest environmental challenges.

### Office Space and Facilities

- Rooms for 2 -10 people
- Hot desk space
- Extensive state of the art research laboratories, glass houses and growth rooms

### For a business space suited to your needs contact

Helen Boulton, Business  
Co-Location Manager

Email: h.boulton@lancaster.ac.uk

### Benefits

- Access to world class research
- Flexible bespoke office accommodation package to suit your business needs
- Business development team to help you build relationships
- Opportunities to partner with the university in the delivery of training
- Access to the wider university community through our contacts
- Access to international markets through our international collaborative programmes
- Collaboration with other resident companies in LEC
- Access to high quality graduates with opportunities for student placements throughout the year

"Being based on the campus is of immeasurable value to my business.

"We have frequent contact with academics from many different departments. We draw upon the academics' expertise, and they often draw upon ours.

"At any one time there are usually several collaborations going on, some commercial and others research based. Above all we value the continuous exchange of ideas."

Mike Berners-Lee, Director, Small World Consulting Limited.
