Our Reputation
Why Lancaster?

Here are five reasons why we think Lancaster is one of the best places to live, learn and to pursue your postgraduate studies.

We’re highly ranked
We’re top 10 in all three major national league tables, and highly ranked in international league tables such as the QS World Rankings.

We’re collegiate
Lancaster is one of a small number of universities to have a college structure. All students (and staff) join one of our nine colleges – Bowland, Cartmel, County, Furness, Fylde, Grizedale, Lonsdale and Pendle – and as a postgraduate student you will join our Graduate College. Each college has its own history and traditions. This creates a supportive student environment and more opportunities to get involved in activities.

We’re research led
The latest Research Excellence Framework (2014) confirmed Lancaster as a world-leading research university. We are the only one of the eight most research-intensive universities in the north of England to have had funding increased because of the quality and volume of its research.

We’re global
Lancaster has a huge number of teaching and research links around the world, which provide exciting opportunities for students to study or work abroad. There are strong links with universities in the US, and Lancaster also operates in China, Ghana and Malaysia.

We’re building for the future
We have invested over £250m in our campus buildings and facilities since 2010, with a further £360m planned in the next five years. This investment includes a significant redevelopment of the Management School, the Health Innovation Campus, and additional engineering, sport and library facilities alongside further investment in student accommodation.
Our reputation

Triple top 10
Out of over 120 UK universities, Lancaster is consistently in the top ten.

6th
The Times and Sunday Times Good University Guide 2018

9th
The Guardian University Guide 2019

8th
The Complete University Guide 2019

University of the Year
Not only are we ranked top 10 in all three major league tables, but we have also been named the University of the Year by The Times and Sunday Times Good University Guide 2018. We have also taken the top spot for Best Campus University and Best University in the North West.

Commenting on the decision to make Lancaster The Times and The Sunday Times University of the Year and Campus University of the Year, Alastair McCall, editor of The Sunday Times Good University Guide, said:

“The modern interpretation of a collegiate structure, coupled with flexible degree programmes and academics committed to teaching as well as research has been recognised in consistently good outcomes in the annual National Student Survey. Students love Lancaster.

“In the 19 years of our University of the Year awards, there has rarely been a more clear-cut winner.”

All our league table rankings are correct at the time of going to press. To see our current rankings, please see www.lancaster.ac.uk/reputation
Research

Our high quality research feeds into our high quality teaching. The results of the latest Research Excellence Framework (REF) in 2014 confirmed Lancaster as a world-leading research university. Lancaster has now emerged as the only one of the eight most research-intensive universities in the north of England to have had funding increased because of the quality and volume of its research. However, it’s not just league tables that confirm our standing, the projects that follow are testament to the passion for world changing research at the heart of Lancaster’s ethos. They’re also a taste of what’s to come should you choose to study here.

To find out more about our research, please visit [www.lancaster.ac.uk/news](http://www.lancaster.ac.uk/news).

**Science and Technology**

+ We lead research into human impacts on unique environments, from coral reefs to the Amazon rainforest
+ Our astrophysicists have mapped the early Universe in 3D
+ Our psychologists have discovered that babies’ preference for faces begins before birth
+ Our computer scientists are developing technology that tailors public display content to you as you walk past
+ Our data scientists are creating new ways to tackle environmental and health challenges

**Arts and Social Sciences**

+ Our linguists discovered language shapes how the brain perceives time
+ We are taking literary mapping to a whole new level by bringing fictional places to life in 3D, GIS and digital forms
+ Our researchers have raised the awareness of hidden sex crimes
+ Our researchers revealed a north-south divide in the way children are dealt with by family courts and local authorities

**Health and Medicine**

+ Lancaster research tackles Alzheimer’s disease and skin cancer
+ Our research is improving end of life care for patients and family carers
+ We are working with the NHS to develop healthcare technology in the home
+ As the population grows older, we are investigating healthy ageing

**Management**

+ Our research showed London’s congestion charge made roads safer
+ Our leading research helps family firms innovate, grow and succeed across generations
+ Our experts are using mathematical modelling to reduce airport congestion

**INSPIRING RESEARCH AND TRAINING**

For more information please visit [www.lancaster.ac.uk](http://www.lancaster.ac.uk)
Campus

Our campus has transformed over recent years thanks to a number of significant new build developments and remodelling projects. These include:

+ The Management School has embarked on an ambitious development, creating a cutting-edge space for students, staff and partners.
+ The Health Innovation Campus is a pioneering new project that brings together innovators, academics, entrepreneurs, businesses, local government, citizens and health care providers and aims to drive advances in technologies, products and ways of working to improve health and healthcare.
+ The Sports Centre is undergoing development works to expand the gym and introduce a Human Performance Lab. The investment came following the continued success of the facility and growing demand from students, staff and the local community.
+ New residencies are under development to introduce up to 1,000 student bedrooms on the campus.

Find out more about our investment in state-of-the-art facilities at www.lancaster.ac.uk/facilities/projects

The Graduate College

www.lancaster.ac.uk/colleges/graduate

Lancaster University has a vibrant collegiate system. The Graduate College is one of nine colleges on campus and the only one focused exclusively on postgraduates.

It comprises more than 2,000 students and provides a range of services to support you during your time at Lancaster. These include affordable accommodation, social and study facilities such as a study hub, social space and computer lab, and a dedicated award-winning bar The Herdwick.

The Postgraduate Board represents the interests of the University’s postgraduate students and is elected annually from college members.

The Graduate College’s friendly, international community celebrates and encourages diversity and provides members with an ideal opportunity to make lasting friendships.

It also provides an unrivalled environment for members to develop academically, while extra-curricular activities ensure that each postgraduate student’s experience is rewarding.

A small membership fee is required, which goes towards the running of the college. For more information, please see www.lancaster.ac.uk/colleges

Student Portal and online learning

www.lancaster.ac.uk/iss/services

The Student Portal gives you access to your email, timetable, useful contacts, relevant news from your department and college, and much more. You can even check up on your library loans and when they’re due for return.

You’ll also be able to access online spaces for your taught modules or research, and related resources including online digital skills training.

The learning activities you undertake in your online spaces will differ according to your tutor’s preferences.
I am very thankful for your valuable advice! After the mock interview, I felt more confident and was offered a job in their head office in London, as an Information Systems Management Trainee."

Yulia Dureva, MSc Information Technology, Management and Organisational Change
Accommodation at Lancaster
www.lancaster.ac.uk/accommodation

As a postgraduate, you can choose from a wide variety of accommodation options across the university campus dependent on your individual requirements.

Most postgraduates will live in single-study room accommodation within the Graduate College, which is located on Alexandra Park (south-west campus). Other self-contained flats for singles, couples and families are located around the wider campus.

As a postgraduate you are a member of the Graduate College and have access to all College facilities. Lancaster also offers adapted accommodation for students with disabilities or special needs. Please specify your requirements when applying for your accommodation.

Accommodation guarantees
All postgraduate students, who meet our criteria, are guaranteed an accommodation place at Lancaster for their first year of study. You can find out more and check the eligibility criteria on our website.

Letting periods and accommodation charges
Rooms are let on a 50-week basis (late September – September) or a 40-week basis (late September – July). Payment is termly, in advance of each term by invoice.

2018-2019 weekly rents include heating, lighting, water, network connection, contents insurance and cleaning of communal areas (townhouses and studios do not have a cleaning service):

Applying for campus accommodation
We will send you details about the application process once you confirm acceptance of our study offer (from March onwards). Applications for rooms are online and you will be sent an offer by email. When accepting the offer you will be required to pay a refundable accommodation deposit of £200.00 for a single study room or £275.00 for a self-contained flat. Deposits are paid online by credit card.

Families and couples
The campus has a limited number of self-contained furnished flats ranging from one to three bedrooms. We can only offer a guarantee for single person accommodation; if we cannot offer you family accommodation that suits your needs, we will help you to find suitable alternatives via the accredited Lancaster University Homes scheme.

University accredited private accommodation for postgraduate students
Lancaster University Homes is the official accreditation scheme for student housing in Lancaster and is the only place students can find off-campus, private rented housing approved by Lancaster University. All properties have been inspected by University staff and are let by landlords who are signed up to our student friendly code of practice. You can use the website to arrange viewings direct with landlords, find housing advice and access our unique Flatmate Finder to find other postgraduate students to share with.

Choose university-approved housing at www.lancasteruniversityhomes.co.uk

Postgrad-friendly accommodation from your Students’ Union
Lancaster University Students’ Union’s housing service, Living, manages around 250 properties throughout Lancaster, making it the city’s largest landlord. Rents are inclusive of all bills and there’s no deposit to pay. There’s a comprehensive repairs service, and emergency contacts are provided to help you if something goes wrong at any time of the day or night.

All Living properties meet the requirements of the LU Homes accreditation scheme, so you can be sure of renting a home that provides the perfect environment for both study and relaxation. Living also provides a dedicated postgraduate letting service for students wanting to live off campus. Properties are advertised immediately after Easter, which means you can start looking for a place to live as and when it’s convenient.
It’s all on campus...

Our 560-acre site has all the facilities you will need throughout your student life at Lancaster.

What you will find on campus

- Eco-accommodation
- Post office
- Hairdresser
- Ice cream parlour
- Chaplaincy
- Bookshop
- Supermarket
- Cafés
- Restaurants
- Doctors
- Dentist
- Bakery
- Charity shop
- Bars
- Prayer room
- Laundrette
- Sports centre
- Welcome centre
- Cinema
- Theatre
- Petrol station
- Bank
- Gallery
- Pharmacy
Fees and funding
www.lancaster.ac.uk/pgfunding

We understand that funding your postgraduate studies may be complicated. Our student funding team can provide you with advice and guidance on various aspects of university financial support and budgeting.

Living costs and budgeting
While living expenses vary depending on your lifestyle and needs, rents and some living expenses do tend to be lower at Lancaster than in some urban centres.
Staff in the Fees and Funding Service and the Students’ Union can provide practical advice on funding, budgeting and general debt.
For guidance on student living costs and an interactive budget planner, please visit www.lancaster.ac.uk/sbs/funding

Fees for postgraduate study
Our annual tuition fee is set for a 12-month session, which usually runs from October to September the following year. The University will not increase the tuition fee you are charged during the course of an academic year. If you are studying on a programme of more than one year’s duration, the tuition fees for subsequent years of your programme are likely to increase each year.
2019 – 20 fees will be announced in the autumn of 2018 and will be published on the University website.
All candidates should ensure that they have access to sufficient funds to cover living expenses and tuition fees across the duration of their studies.

Funding and awards
We recommend that you start planning the financing of your studies 12–18 months in advance of your programme start date, as some external awards will have application deadlines early in the process.
To help with studying and living costs a range of scholarships are on offer to postgraduate students.
+ Alumni Loyalty Scholarship – this scholarship offers a reduction in tuition fees of taught Masters programmes and is open to all our Alumni, regardless of nationality or year of graduation. You do not need to apply for this scholarship; you will qualify automatically if you meet the eligibility criteria and the course entry requirements.
+ University Scholarships – we offer a range of scholarships awarded directly through our faculties and departments. The majority of these scholarships offer support towards fees, although some may also contribute towards living costs. Competition for these scholarships is mainly based around academic performance and the number of scholarships and studentships offered varies from year to year.
Additional sources of funding are available, especially for specific programmes and for students from particular countries/regions.
For detailed listings of awards available at Lancaster, and for information about how to apply for them, please see our website.

Charities, trusts and other general funders
A wide variety of charitable and other organisations have funds they make available to intending postgraduate students at both masters and PhD level. The amounts they make available are variable. The funding awards are made on a competitive basis and have criteria related to either academic excellence or financial need. Many have additional criteria related to the wider charitable aims of the organisation.
Their application deadline dates, and application processes are very varied and some have a number of different deadlines at times throughout the year.

Further sources of funding can be found at www.lancaster.ac.uk/sbs/money/funding

Postgraduate Loan Scheme
The UK government has introduced a postgraduate loan scheme for students undertaking Masters and Doctoral level courses. Certain eligibility criteria may change for 2019. For more information on the schemes available in England, Scotland, Wales and Northern Ireland, please see our website.
You can apply for most programmes using My Applications, but some require application through a different route. External agencies administer applications for the Doctorate in Clinical Psychology (DClinPsy) and the MA Social Work; you will find links to these agencies on our online course pages under the Key Information section for the course.

If you cannot find your chosen programme listed in My Applications, please refer to our website or contact pgadmissions@lancaster.ac.uk for more information.

What do I need to include with my application?
The My Applications website will guide you through the details that you need to provide and the supporting documentation screen will provide you with a list of required documents. These will usually include:

+ Degree certificates and transcripts of previous higher education (college/university) degrees. For transcripts in languages other than English, a certified English translation will be required
+ Personal Statement
+ References (we can automatically contact your referees once you have submitted your application, if you ask us to)
+ Research proposal (for research degrees)
+ For those where English is not their first language, copies of English language test results.

For detailed information on the English language qualifications we accept, please visit: www.lancaster.ac.uk/pg-english-requirements

Current Lancaster students
If you are a current Lancaster student or recent Lancaster graduate and would like to apply for a postgraduate course, then the amount of information you need to provide as part of your application can be reduced.

You can apply by following the Current Lancaster Students links on the My Applications website.

Questions
If you have any questions about how to apply, or are unable to use our online application service, please contact the Postgraduate Admissions team.

Applying to Lancaster
We welcome and encourage applications from all over the world and it is our aim to make the process of applying as straightforward as possible. To apply online please visit the My Applications website at www.lancaster.ac.uk/postgraduate-applications
Travel details

Lancaster University is set among acres of parkland, just three miles south of Lancaster city centre. While the natural surroundings give our campus a sense of tranquillity, we’re also well-connected and easy to reach.

For further information, please visit www.lancaster.ac.uk/travel

By car
The campus is situated less than five minutes from the M6 motorway. Leave the M6 at Junction 33 and take the A6 north towards Lancaster. For Lancaster University main campus – turn right at the third set of traffic lights on the A6 into the University main drive.

By rail
There are direct rail links between Lancaster and many of the UK’s major cities and airports. There is a frequent direct bus service between Lancaster Railway Station and the University. Taxis are available at the station, which is a five-minute walk from the city centre.

By air
From Manchester International Airport take the M6 motorway at Junction 5 and join the M6 motorway at Junction 20 north. Follow the directions ‘By car’. An hourly rail link runs between Manchester Airport and Lancaster.

By taxi
Local taxi services can be contacted on the following telephone numbers:
01524 32090
01524 35666
01524 848848
Taxi Ranks are located on campus, at Lancaster Bus Station, Lancaster Railway Station and other locations in the city centre.

By bicycle
It takes approximately 25 minutes to cycle from the city centre to the campus on the two University signed routes. An off-road cycle route runs from Whinfell Drive in Hala and enters the campus near Bailrigg House. A further off-road signed cycle route runs along the Lancaster Canal.

By bus
Live bus departure information is available on the iLancaster Transport Hub and on display screens in the Underpass and Alexandra Square.

In the City
The bus station is situated on Damside Street in the city centre. Buses (services 2, 2A, 2X, 3, 3A, X3, 4, 41, 42) leave for the University every five minutes on term-time weekdays and most services also stop at Common Garden Street in the city centre. Additionally, there is a direct bus service between Lancaster Railway Station and the University (Services 3A and X3).

On Campus
All buses drop off and collect passengers in the Underpass situated underneath Alexandra Square. Additionally, services 3, 3A, 4, 41 and 42 serve the southern perimeter road and around Alexandra Park. There are also bus stops directly outside the Sports Centre on the main drive.

Car parking
Visitor car parks are available in several locations on the campus with parking charges in operation during weekdays between 08:00 and 18:00. For further information, please visit www.lancaster.ac.uk/travel

By air
Our Departments
The Department of Accounting and Finance takes pride in its established reputation for excellence in both research and teaching.

Our research has been recognised for its international excellence, with The Higher Education Funding Council for England, and its predecessors, consistently ranking us in the highest research quality category.

Over the years, our work has been supported by a range of external funding bodies including the European Commission, the Economic and Social Research Council (ESRC), the Leverhulme Trust, the Institute of Chartered Accountants in England and Wales (ICAEW), INQUIRE, and the Nuffield Foundation.

Research carried out by Biomedical and Life Sciences is of world-class standard.

Postgraduate students benefit from links with NHS Trusts and the Division receives financial support from a broad range of grant-awarding bodies including UK Research Councils, the European Commission, charities and industry.

Research within Biomedical and Life Sciences focuses on the study of molecular and cellular aspects of human health and disease, using a range of biochemical and cellular approaches to complement studies in model organisms and human cell culture systems.

"I believe my interesting Lancaster experiences helped me when I was interviewed to be an Associate Financial Analyst at the Shanghai Disneyland Resort. The international horizons I have gained and my interdisciplinary academic background, as well as my passion for work and life, will definitely help in my career. I believe that, whatever I do in the future, the soft skills I developed at Lancaster such as communication, presentation and critical thinking will all play a role."

Zhihui Huang, MSc Accounting and Financial Management, 2015
Centre for Executive Training and Development (CETAD)

**Taught programmes**
- Innovation and Improvement Science MSc/PgDip/PgCert
- Leadership and Management (Healthcare) PgCert
- Leadership and Management PgCert
- Medical Leadership MSc/PgDip/PgCert
- Organisation Development PgCert
- Professional Development PgCert
- Professional Practice MSc/MA/PgDip/PgCert

**CETAD** is a centre for excellence in work-based learning, offering a new model of higher education with an approach designed to meet the needs of work-based learners.

Our programmes focus on enabling you to learn for work, learn from work, and to learn in a way and at times that are flexible and responsive to your work context. All our modules are delivered fully online, except for Negotiating Your Professional Development, Personal Learning and Development, and Recognition of Prior Learning, where an initial face-to-face workshop is offered (however, web-based alternatives are available). In addition, we offer themed workshops and webinars that are open to all students irrespective of programme. These cover topics such as leading and influencing skills, systemic change, enterprise and entrepreneurship, and organisation change.

In addition to full programmes, students can choose to study individual modules as short 10-week courses.

**Other Work-Based Learning**
As well as CETAD Professional Development programmes, the Management School offers an Executive MBA programme, and the International Masters Program for Managers (IMPM).

---

We are a vibrant community, and our research transcends traditional discipline boundaries, for example linking with biology and medicine, engineering, energy, materials, environmental science, and physics.

Our staff have interests spanning many areas of both fundamental and technological interest. Perhaps most importantly, we share common ground in research-excellence, an inclusive and collaborative spirit, and a dedication to passing on our knowledge to a new generation of researchers. Our research is 10th in the UK for research output quality, with 94% as world-leading or of international excellence (REF 2014).

We provide a research environment that strongly supports the individual needs of each student, promoting a healthy work-life balance. It benefits from a significant investment from the University, and an extensive array of new laboratories, instrumentation and equipment to support our ambitious research activity.
Computing and Communications

Taught programmes
- Communication Systems MSc by Research
- Computer Science MSc
- Computer Science MSc by Research
- Cyber Security MSc
- Data Science PgCert/PgDip/MSc

Research areas
- Our research spans eight major sub-fields:
  - Communication systems
  - Data science
  - Distributed systems
  - Interactive systems
  - Networking
  - Pervasive systems
  - Security
  - Software engineering

The School of Computing and Communications is 7th in the UK for world-leading and internationally excellent research (REF 2014).

We offer Masters programmes in Computer Science, Data Science and Cyber Security (GCHQ accredited). Our ethos is to combine our research excellence with practical, experimental approaches to equip you with the knowledge and skills to achieve your career aspirations. Each of our Masters provides the opportunity to work with one of the many businesses that we have established partnerships with, which enhances your career prospects upon graduation.

You will benefit from high quality teaching delivered by globally recognised academics, state-of-the-art facilities including dedicated 24-hour teaching laboratories, individual supervision, and mentoring by academic staff.

Economics

Taught programmes
- Economics MSc
- Money, Banking and Finance MSc

Research areas
- Behavioural and experimental economics
- Industrial organisation and economic theory
- Labour, education and health economics
- Macroeconomics and financial markets
- Political economy and international trade

The Department of Economics fosters a strong research environment and has an international research reputation in various areas.

Over 40 academic members from more than 15 countries have published their research findings in top academic journals and have received substantial research funding from national and international sources. In addition, colleagues have served as advisers and consultants to national and international agencies, including the British Council, the European Parliament, the Foreign and Commonwealth Office, the House of Commons, the Office for National Statistics, the UN and the World Bank.

These research activities inform our teaching, bringing insights from the research frontier to all levels of education. As a result the Department has a reputation for high quality teaching to students at all stages.

Educational Research

The Department of Educational Research is a centre for rigorous and socially relevant research into education.

We were ranked 6th research-intensive Education Departments in the UK in the results of the most recent Research Excellence Framework 2014 (Times Higher Education REF 2014: Subject Ranking on Intensity). The Department was also ranked in the top 55 Education Departments in the World (2018 THE World University Ranking).

Our students, including those studying online, are encouraged to contribute to all aspects of departmental life, including reading groups and departmental seminars. We also use digital technologies to ensure that our online students, who are located in countries across the world, can participate in departmental activities.

Research areas

- Social Justice and Wellbeing in Education
  - Gender, social class, theories of social justice, critical pedagogy, disability

- E-Research and Technology Enhanced Learning
  - Digital technologies, networked learning, inclusivity, mobility, time and space

- Higher Education Research and Evaluation
  - Teaching, learning and assessment, nature and purposes of HE, evaluative practice, policy implementation and change

Engineering

The Engineering Department is home to world-leading academics from a wide range of engineering disciplines.

We have an established record of innovative teaching, world-class research and close links with industry. Our flagship building provides an excellent environment with newly designed teaching laboratories, advanced research laboratories, and a continuously growing provision of state-of-the-art equipment.

In the 2018 QS World University Rankings, Lancaster was ranked 8th in the UK and 112th in the world for citations per paper category in the Engineering and Technology category.

We offer Masters and research-based courses, doctoral training and short courses for continuing professional development.

Research areas

- Chemical engineering
- Energy
- Engineering of microwaves, terahertz and light, and electronics
- Nuclear science and engineering
- Structures, materials and manufacturing

English Literature and Creative Writing

In the most recent national assessment (REF 2014), English Language and Literature ranked 3rd for research power. We also rank 1st in the North West in The Complete University Guide 2019.

Our critical-creative identity is underpinned by our three distinguished visiting professors: Terry Eagleton, the world-famous literary critic; Paul Muldoon, 2017 winner of the Queen’s Gold Medal for Poetry; and Benoît Peeters, celebrated biographer and graphic novelist.

Our department has a vibrant postgraduate culture, hosting numerous reading groups, specialist conferences, research seminars, and workshops with distinguished academics and visiting writers. We hold our own literary festival, Lancaster Words, and have close links with Lancaster Litfest and the Dukes Theatre.

Entrepreneurship and Strategy

The Department of Entrepreneurship and Strategy’s exciting postgraduate degrees focus on the core challenges facing business leaders: the exploitation of entrepreneurial opportunities, the development of competitive advantage and the management of disruptive innovations.

Our programmes, based on cutting-edge research and deep engagement with management practice, prepare graduates for careers in start-ups, large multinational companies, management consulting and innovation. We offer a unique, transformative learning experience based on the combination of inspirational management research and practical experience, designed to extend your knowledge, enable your future career and expand your networks.

Our international staff are leaders in their field and have strong experience in industry. You will also be able to take advantage of the expertise of our Entrepreneurs in Residence.

Graduate School for the Environment

Lancaster’s new Graduate School for the Environment harnesses the power of three of the world’s foremost research organisations to give students the best possible chance of enjoying productive, impactful and influential careers.

Our students are valued members of a stimulating international community of researchers with a diverse range of backgrounds, interests and specialisms.

Students at the Graduate School benefit from the expert knowledge and experience of world-leading staff from Lancaster Environment Centre, Rothamsted Research and the Centre for Ecology & Hydrology. Together this amounts to a support framework of unparalleled breadth and depth. That way we can create the next generation of experts, ready to play their part in addressing the many environmental challenges that face the world at the regional, national and international level.

Research areas

- Atmosphere, climate and pollution
- Critical geographies
- Earth science
- Ecology and conservation
- Environmental and biogeochemistry
- Geospatial data science

Health Research

The Division of Health Research (DHR) is a centre of international excellence for health-related research and education at Lancaster University.

The Division works closely with external individuals and organisations (UK and international charities, funders of research, Government bodies) involved in a range of health research, development and implementation.

In the most recent Research Excellence Framework Assessment Exercise (2014), overall 89% of the Faculty’s research was rated as world-leading or internationally excellent, with its research environment ranked joint first in the UK. DHR brings together over 100 academic and research staff whose research covers one or more of the following broad areas: ageing, dementia, palliative and end of life care, mental health, organisational health and well-being, public health, health equity, chronic illness experiences, and health economics.

Research areas

+ Ageing and end of life care
+ Mental health and wellbeing
+ Public health and health equity

Taught programmes

- Ageing MSc
- Health Economics and Policy MSc

### History

**Taught programmes**

- History MA

**Available pathways:**
- Medieval and Early Modern
- Modern
- Heritage
- Digital History
- Bespoke

**Research areas**

* Chronology
  - From ancient to modern

* Geographical range
  - Local, regional, Europe, North Africa, South and East Asia, the Americas

* Methodologies
  - Qualitative and quantitative

* Digital humanities
  - A particular specialism

There is a thriving research culture in this department, with expertise ranging from late antiquity to contemporary history.

We pride ourselves on our original research and collaborative relationships within and outside of the discipline.

The wide variety of internationally recognised research activity in the Department often involves specialist teams of academic staff, research associates, and visiting scholars. We are involved in a number of exciting externally funded projects including a range of digital humanities research projects funded by the European Research Council, the ESRC and the AHRC.

Our stimulating, friendly and supportive environment helps you achieve your full potential. There are regular seminars, masterclasses, conferences and colloquia, and we offer funding to support attendance. We also host an annual postgraduate conference, ‘Histfest’, welcoming postgraduate researchers from across the discipline.

Building on areas in which we have notable research expertise, we are currently developing two new MAs in Digital Humanities and International and Military History. Please contact the History Department for more information.

### Lancaster Institute for the Contemporary Arts

**Taught programmes**

- Arts Management MA  
- Design Management MA

**Research areas**

* Imagination, Lancaster
  - Design-led research lab that conducts applied and theoretical research into people, products, places and their interactions.

* Insight
  - Insight focuses upon making meaning in the arts. It brings together expertise from fine art, film, theatre, dance and sound by engaging with notions of societal value and use, through both practice and theory.

### The most recent Research Excellence Framework assessment (REF2014) placed Lancaster Institute for the Contemporary Arts joint 7th in the UK for our research environment with 82% of our research classed as world (4*) or internationally (3*) leading.

We are committed to contemporary practice and critical thinking in the arts and have a thriving interdisciplinary research culture that is strengthened by our outstanding creative industry connections.

Our ambition is to support traditional modes of scholarship whilst also fostering informed, creative and intelligent practitioners. Our facilities include performance and acoustic labs, public event and installation spaces, workshops, and fine art and design studios.

In addition to our flagship taught masters programmes, we house postgraduate research opportunities in Fine Art, Design and Design Management, Digital and Live Art, Film and Media, and Theatre, Performance and Dance.
Lancaster Medical School offers a vibrant atmosphere in which to pursue postgraduate teaching and research.

We offer a range of health-related courses, which aim to bring about improvements in the health of both individuals and populations through education. The MSc in Global Health is an epidemiology and statistics-focused course on major global health issues and the techniques needed to work on their reduction. Our courses in clinical research aim to give students the skills needed to work in research in the health field, and our programme in medical education aims to educate people involved in training the next generation of health educators and leaders.

In the most recent Research Excellence Framework (2014), the Faculty’s research environment was assessed as excellent, with 89% of the Faculty’s research judged as world leading or internationally excellent. Our courses make the most of the wide range of expertise within the faculty in order to deliver excellent and stimulating teaching in a variety of disciplines.

Languages and Cultures

Our researchers are committed to understanding individual and cultural phenomena in both their individual language context and their global connection.

Accordingly, our research spans Europe, Africa, and North and South America. The specialist interests of our academic staff include the languages and cultures of France and the Francophone world, Germany and Austria, Spain and the Hispanic world, as well as their relationship with English speaking cultures globally.

We offer a stimulating postgraduate and research culture. The specialist research interests of staff within the Department are shared with postgraduate students through departmental research seminars and conferences. Postgraduate Work in Progress seminars ensure that there are regular opportunities for postgraduate students to meet, socialise and support one another.

The Law School at Lancaster University is ranked in the world Top 100 by the Times Higher Education World University Rankings, 2018.

We are also ranked first in the Times and Sunday Times Good University Guide, 2018 for Criminology and have a 90% overall student satisfaction rating in the 2018 Postgraduate Taught Experience Survey.

We have a thriving postgraduate portfolio, which is characterised by its multidisciplinary approach to the study of law and of criminology. Our students explore law and criminology in the light of current developments, in a learning environment where postgraduates and academics can work in an informal atmosphere conducive to open debate. Our staff bring their research to the classroom environment, ensuring that our curriculum is regularly refreshed and current.

For more information please visit www.lancaster.ac.uk

---

Our department ranks 15th in the QS World University Rankings 2018 and 40% of our publications were classified as world leading in the British Academy’s recent review of published academic research.

To support teaching, learning and research across our range of Masters and PhD programmes, we have an array of technical equipment available for postgraduate research. Our state-of-the-art phonetics laboratory; cutting-edge equipment used in eye-tracking studies; and sophisticated data analysis software, support ethnographic and other qualitative research.

With research groups in corpus studies, discourse analysis, literacy studies, second language learning and teaching, and language testing, the opportunities for learning extend far beyond the classroom. We encourage all postgraduate students to become active members of our engaging and dynamic Department.
### Management Science

**Taught programmes**
- Business Analytics MSc
- E-Business and Innovation MSc
- Logistics and Supply Chain Management MSc
- Marketing Analytics MSc
- Project Management MSc

**Research areas**
- Forecasting and market modelling
- Health systems
- Information systems and technology
- Optimisation
- Simulation
- Transportation and logistics
- Supply chain management and modelling
- Systems thinking

Management Science is the discipline of applying analytical and scientific methods to make better decisions in management. It is based on the latest thinking in analytics, data science, information systems, logistics and project management. It is a real-world discipline that has a focus on improving the complex systems and processes that underpin our daily lives.

Our department has a worldwide reputation as an international centre of excellence, and is the largest Management Science department in the UK. We attract students from diverse backgrounds and from many different countries. Our teaching and research have gained high ratings in the most recent independent assessments of British universities.

The employment prospects of Lancaster’s Management Science graduates are second to none.

### Marketing

**Taught programmes**
- Advanced Marketing Management MSc
- Marketing MSc

**Research areas**
- Consumer behaviour research
- Business marketing and purchasing
- Market studies
- International marketing

Lancaster’s is the longest established Department of Marketing in the UK.

The first chair in Marketing was instituted in Lancaster in 1964, partly funded by the Institute of Marketing.

We have one of the largest groups of Marketing academics in the UK, and we disseminate our research through top international journals, and through international, interdisciplinary conference presentations. Many staff members work closely with marketing practitioners to ensure that the research we undertake remains relevant.

We currently have over 30 members of academic staff and have a thriving community of doctoral students, who not only have access to experienced staff and resources in the University, but also contribute to existing programmes of research in the Department.

Mathematics and Statistics

Taught programmes
- Data Science MSc/PgDip/PgCert
- Quantitative Finance MSc
- Statistics MSc/PgDip

Research areas
- Pure mathematics
- Statistics

We are one of the UK’s top departments for world-leading research, ranked joint 5th in the Research Excellence Framework 2014.

We offer a variety of opportunities for postgraduate study in pure mathematics and statistics, including taught Masters (MSc), Masters by research (MRes) and PhDs. We have a vibrant community of academics, support staff and students from around the world. Our excellent facilities include dedicated teaching, learning, computing and research spaces.

Our Centre for Doctoral Training (STOR-i) has a ground-breaking approach to statistics and operational research. It aims to produce a new generation of researcher, capable of creating an impact in both academic and industrial fields.

Organisation, Work and Technology

Taught programmes
- Human Resource Management MSc
- Human Resources and Consulting MA
- Information Technology, Management and Organisational Change MSc
- International Masters Program for Managers (IMPM)
- Politics, Philosophy and Management MSc

Research areas
- Human resource management and employment relations
- Ethics, sustainability and management
- Information, technology and society
- Management, organisations and society

The Department of Organisation, Work and Technology has a long-established international reputation for its teaching and research.

We draw on, and contribute to, a range of relevant disciplines including human geography, human resource management, organisation studies, philosophy, sociology, and the sociology of technology.

We are particularly known for our critically informed analysis of management and work practices in a variety of contemporary and historical settings. The Department is home to a thriving community of full- and part-time doctoral students in both our well-established PhD programme and our practice-oriented Doctor of Management.

Physics

We are one of the top departments for research, ranking 2nd in the UK (REF2014) for the number of research outputs judged as internationally excellent (4 star).

Our research is concentrated into the major research groupings of Astrophysics, Particle and Accelerator Physics, Condensed Matter Physics and Theoretical Physics. Substantial backing from a range of funding bodies supports this research. We have numerous collaborations with overseas laboratories, as well as major European networks.

As a postgraduate student in our recently refurbished Physics Department with state-of-the-art facilities, you will be provided with opportunities for internships, training in transferable and research skills, and the technical training applicable to your research area.

“Studying in the Physics Department has been such a great experience. There are lots of opportunities to be involved with the Physics Department itself, such as helping with undergraduate teaching or taking part in outreach events. My research is in theoretical cosmology, so I enjoy helping out with experimental demonstrations occasionally to mix things up.”

Charlotte Owen

- Religion and Conflict MA
- Religious Studies MA
- Religious Studies PgCert
- Religious Studies (Distance Learning) PgCert

Research areas

Politics
- The contemporary dimensions of global insecurities and violent conflicts
- Politics, international relations and religion
- Development, capacity-building, political economy, public policy
- Place, space, diaspora, migration and borders
- Area studies: Africa, the Americas, Britain, China, Europe, Middle East and South Asia

Philosophy
- Post-Kantian continental philosophy
- Applied philosophy: bioethics, consent, work, wellbeing
- Philosophy of mind, psychiatry and psychology
- Political philosophy: 19th Century; political theory; feminist and critical theory
- History of philosophy in the late modern period
- Indian and Comparative Philosophy

Religion
- Religion and society
- Religion, popular culture and media
- New religions and esotericism
- Religion, gender and ethnicity
- Religious dynamics in Britain, India, Japan, Latin America, the Middle East and South-East Asia
- Inter-faith dialogue and multi-religious belonging

Ranked 34th in the World for Religious Studies in the 2018 QS World rankings, and with top 10 UK rankings in each of our three disciplines in The Times and Sunday Times Good University Guide 2018, we attract students and academic colleagues from around the world.

The diversity of our community allows us to offer a comprehensive portfolio of programmes providing opportunities to advance your studies in, or across, the disciplinary fields of Politics, International Relations, Philosophy, and Religion.

Our staff and students engage with, and contribute to, research groups, seminar series and reading groups. All of these activities contribute to the lively, interdisciplinary and collegial community in our department.

## Psychology

### Taught programmes
- Developmental Disorders MSc
- Developmental Psychology MSc
- Psychological Research Methods MSc
- Psychology of Advertising MSc

### Research areas
- Infancy and early development
- Language and cognition
- Perception and action
- Social processes

Our internationally recognised research is at the cutting-edge of psychology. We are home to one of the largest developmental centres in the world.

Our teaching staff include many well-known researchers so that we can ensure your studies are based on the latest findings. We boast a wide range of facilities to support and enhance your independent work.

Our expertise is strengthened by our relationships with key institutions such as The Leverhulme Trust and the ESRC North West Social Science Doctoral Training Partnership. We are proud to work with partners who invest time and money in research at Lancaster.

## Social Work

Social Work is located in the thriving interdisciplinary Department of Sociology.

Our academics continue to engage closely with social work practice, through a variety of therapeutic, expert, innovation and research roles. Working in partnership with regional, national, and international practice partners, our masters and post-qualifying CPD courses allow you to develop and/or enhance your analytic skills as well as the sensitivity and compassion to deliver the very best service to individuals, families and communities.

We strive to provide students with a collegial and supportive environment for a wide range of research activity. This covers both theoretically innovative work, for example, on the processes of global change, and applied policy orientated work with a focus on informing effective social work practice.

Sociology

Lancaster Sociology is a research-intensive department that foregrounds critical and active engagement with contemporary real-world problems.

We are ranked 46th in the QS World University Rankings 2018. We pride ourselves on pushing social theory and empirical sociology into new and often post-disciplinary directions.

We offer a rigorous research student training programme at MA and PhD level which is supported by seminars, workshops, writing retreats, reading groups and social events. Our students are funded from a variety of sources including the Economic and Social Research Council (ESRC), the Arts and Humanities Research Council (AHRC), and government scholarships worldwide.

We place a high priority on good relationships between students and their lecturers/supervisors and we welcome any applications that match our teaching and research portfolio.
