Lancaster is ranked amongst the best in the UK. We’re not only The Times and Sunday Times University of the Year, but are ranked 6th in The Times and Sunday Times Good University Guide 2018. We are also in the top 10 of The Complete University Guide and the Guardian University Guide.

Our facilities have won awards, our research is recognised as world-leading and our Teaching Excellence Framework Gold award in 2017 shows that our teaching is of the highest quality found in the UK. Yet the standards we’ve set are only a starting point – year on year, we’re making improvements and doing more.

We think that being exceptional doesn’t have to mean being elite. Our founding principle is that ‘truth lies open to all’.
6th amongst universities

National Student Survey

The 2017 survey reveals that 91%* of our students are satisfied with their course.

This refers to question 27 of the survey, which asks students whether they are satisfied with the overall quality of their course.

*Lancaster University achieved a 75% response rate (compared to a sector response rate of 68%).
High standards. Open doors.

The UK offers a wealth of options for university study. We know it can be hard to know which institutions are best and, more importantly, which one is going to be right for you.

At Lancaster, we look to the objective measures we set year after year as a benchmark of our quality. With published league tables based on official statistics, it’s not a matter of opinion. It comes down to facts – and the results are good.

We outperform most of the Russell Group universities (24 of the UK’s leading research universities) in most categories.

We’re proud to stand among – or even above – such renowned and well-regarded institutions. But our elite standards don’t come with an elitist attitude. Our motto of ‘truth lies open to all’ means we’re here to teach students who are ready to learn. Nothing else should count.

Lancaster is one of the best universities in the UK

We’re not just a top-10 university. Based on the average positions in The Times/Sunday Times, Complete and Guardian league tables, we’re also ranked higher than 18 of the Russell Group, including the London School of Economics, Edinburgh University, Bristol, Glasgow and Leeds.

Our students are among the UK’s most satisfied

Our rate of student satisfaction, as measured by the Complete University Guide, is among the highest in the country. It’s even higher than 21 of the Russell Group – putting us above the likes of King’s College London, Nottingham, Southampton and Oxford.

A Lancaster degree means you’re well-equipped for work or further study

According to The Times and Sunday Times Good University Guide, our graduates have better rates of employment or further study within 6 months of graduating than 19 of the Russell Group. We think that gives us an edge over the likes of Durham, Exeter, Liverpool and Cardiff, to name but a few.

Whichever way you look at it, whatever measure matters to you, Lancaster performs for its students.

To see the latest stats, please visit www.lancaster.ac.uk

These figures are correct at the time of going to press. See the latest stats on our website.
A campus touching every continent

Our campus may be self-contained, but our community stretches far beyond Lancaster, with an influence and impact which is felt right across the globe.

We have more than 150 academic partners across 24 countries around the world. With these strong links among universities and institutions in the USA, Asia and Europe, we’re at the forefront of international, collaborative research projects, working on major global issues. It also means that we can help our students explore the world in a wide range of different study placements, cultural exchanges and volunteering programmes.

Today, we have students working toward Lancaster University degrees on three different continents, with many destined to join our campus to complete their studies. We welcome thousands of students to Lancaster from more than a hundred countries – including China, Ghana, India, Nigeria and Malaysia – giving our community a broad cultural base and vibrant make-up.
Health and Medicine

- We are working on psychological treatments for a range of mental health conditions such as bipolar disorder.
- Our research is helping to understand the metabolic behaviour of abnormal cells, like cancer.
- We are working with the NHS on new ways of supporting patients in the face of an ageing population.

Science and Technology

- We are leading flood mitigation research which aims to solve one of the most pressing problems to face water science in a generation.
- Our physicists are looking at the formation of galaxies and the Universe itself.
- We are developing new materials to dramatically increase the security of telecommunications.
- We have shown how data mining techniques can be used to identify when twitter users are radicalised.

World-leading research

Lancaster has been recognised for its research, with 35% of our research classed as world-leading and 48% classed as internationally excellent in the latest Research Excellence Framework, 2014.

Our teams work to find the answers to global questions affecting us all. Renowned experts at the forefront of their fields are shaping our understanding of the world. Their work feeds in to our degree programmes, ensuring that your education – whatever your path or preferred subject – is informed by cutting-edge thinking.

Every day, we discover, explore and understand more. Here are some of our unique research projects.

Arts and Social Sciences

- Our linguists have discovered how language shapes how the brain perceives time.
- Our researchers are helping shape the way forward for anti-trafficking initiatives in the EU.
- We are leading research into patterns of energy demands and how they change.

Management

- Our researchers have explored the impact of performance-enhancing drugs in the workplace.
- Our leading research helps family firms innovate, grow and succeed across generations.
- Our experts are using mathematical modelling to reduce airport congestion.
Our collegiate advantage

We’re one of a handful of universities that have a college structure. It doesn’t just make us different. We think it makes us better.

As well as the physical places where you live and socialise, your college provides a community within the university, a supportive environment and a ready-made social network from day one.

Being part of one of our colleges means that although you’re studying at a large university with thousands of others, you’re also part of a small, friendly community where it’s easy to meet new friends. You’ll spend time there, whether at special events, in the leisure facilities or in the college bar. You’ll have the chance to represent your college, whether in the sporting arena, team competitions, on a quiz team or on the student-run committee. And, if you ever need help, you can turn to your college for welfare support or the guidance of an experienced advisor.

After your exam results, we’ll confirm your place with us and ask you to choose your college (along with your accommodation if you’re staying on campus). From the first day, when your fellow college members are on hand to show you around your accommodation, to the day you graduate with your friends, your college is an integral part of the Lancaster University experience.

“The collegiate system was one of the main reasons I came to Lancaster. The benefits hit home from the moment you arrive and the Freshers’ Rep takes you to your room to help you to settle in. This emphasis on welfare runs through the fabric of the University and is aided by the colleges. No-one slips through the net.”

Sophie Thickitt, Fylde College, BSc Hons Geography
After coming to Lancaster and joining Fylde College, Sophie was elected as Education and Welfare Officer.
Say hello to your future

Throughout your time at Lancaster University, we’re here to offer more than an experience – we’re here to help you discover the path to the future you want. We’re good at it too. In fact, we’re ranked 9th in UK for graduate prospects according to The Times and Sunday Times Good University Guide.

Our Careers Service works closely with academic colleagues, major graduate employers and global businesses to ensure that you have the chance to develop key skills, gain work experience and meet mentors and alumni. Thanks to those strong business connections, we can work with you to offer the kind of industrial placements, internships and work experience opportunities that can help you realise your career ambitions. And with connections to some of the top global graduate recruiters, high growth businesses and employers across every sector, we can help you take your first vital steps in the world of work.

The services we offer include

- Annual Careers Fairs attracting 100+ employers
- Sector-specific careers fairs, events and workshops, and employer networking
- Career-mentoring programmes where you can learn from an employer or a previous graduate
- Career-planning workshops on how to construct a brilliant CV, develop a LinkedIn profile, succeed at psychometric testing – and more
- Practical courses in employability, enterprise skills and career management
- Updates on graduate schemes, internships and work experience vacancies

Our professional Employment Recruitment Service can help you find part-time work on campus or nearby. There are lots of opportunities not only to earn some extra money, but also to develop useful skills and experience.

See overleaf for more information

Contact us
For more information please visit www.lancaster.ac.uk/careers

97%
of our graduates go into a job or further study with six months (85% at graduate level), according to the latest Destinations of Leavers from Higher Education survey*, 2015 - 16.

* Lancaster University achieved a 78.2% response rate. For further information please see www.hesa.ac.uk/files/UKPIs_2015-16_Employment.xlsx
Knowledge Bank

Our online resource offers 24/7 careers help, ranging from videos, learning pages and psychometric tests, to insights from top employers on their recruitment and selection methods. With over 5,000 graduate opportunities listed every year on our exclusive Lancaster University job search portal, we’ll help you discover a world of possibilities for your career.

Experience

Many employers value practical experience just as much as high-quality qualifications, so we make sure there are plenty of opportunities to experience the workplace during your time in Lancaster.

That’s why so many of our courses offer the chance to go on a placement with an employer. Some can last as long as a year, while others involve short-term projects. We can also help you organise internships during the holidays or find a part-time role to help you develop professional skills whilst earning in your spare time.

[www.lancaster.ac.uk/employment-and-recruitment-services](http://www.lancaster.ac.uk/employment-and-recruitment-services)

Opportunities for innovative thinkers

If you’re eager to make your mark on the professional world, you don’t have to wait until you’ve graduated to get started. You can get involved in a range of activities to help you create – and make the most of – your own opportunities.

Our Enterprise Centre offers a wealth of expertise, support and contacts to help you turn your business ideas into a reality. We can also support you in a wide range of inter-college and inter-university enterprise competitions, as well as business leadership courses and activities.

Volunteering

Lancaster University has a thriving volunteering culture, with around 1,300 students involved every year. Our Students’ Union works with a number of charities, schools and local organisations to arrange a variety of volunteering opportunities. As a great way to develop skills, enhance your CV and – above all – make a positive contribution to the community, volunteering is as rewarding as it is beneficial.

Lancaster Award

The Lancaster Award can help you stand out from the crowd and enhance your future employment prospects. Developed in partnership with employers, it’s a rewarding way of developing the skills and experience that will support your career prospects.

[www.lancaster.ac.uk/employment-and-recruitment-services](http://www.lancaster.ac.uk/employment-and-recruitment-services)

Expert help

We know that it can be daunting to start thinking about your future. So our team of experienced careers professionals are here to give you the support and help you need to plan your next steps. We understand the vast array of options you face. We’ll help you to choose what’s right for you, whether that’s applying for a graduate job, continuing your studies to a higher level, or both.

Lasting support

You probably won’t need us after you graduate – most of our students go straight into work or continue their studies. But careers aren’t straight lines on one simple track. Your aims in life can shift over time and your circumstances may change. When that happens, we’ll be here to help. We provide our graduates with lifetime access to our services. Put simply, we’re here for as long as you need us.

For more information

[www.lancaster.ac.uk/hello-future/](http://www.lancaster.ac.uk/hello-future/)
Your experience at Lancaster University owes as much to our place in the world as it does to our place in the league tables. As well as enjoying a self-contained and well-equipped campus, we’re lucky to be just minutes from the city centre, with easy access to some of England’s most beautiful countryside and coast.

With the Lake District to the north and Blackpool to the south, two of the country’s most popular visitor attractions are yours to enjoy. And, with the beautiful Lune Estuary, the stunning Morecambe Bay and the dramatic moorland of the Forest of Bowland all within reach, we also have an abundance of natural beauty on our doorstep.

We’re well connected too, just minutes from the M6, 15 minutes from a railway station and just over an hour away from Manchester International Airport by direct train.

Whether you’re coming from halfway across the world or just a few miles away, you’ll find Lancaster is a great destination for your studies.
We are proud of our student accommodation which has been named Best University Halls in the 2017 National Student Housing Survey, an award we have won for seven out of the last eight years.

We have the approach to match too, collecting awards for our customer service, booking and arrivals experiences over the years in the National Student Housing Survey. This year, we’re one of just four institutional landlords to score higher than 90% in satisfaction among international students. You can see the full results of the survey at www.nshs.co.uk.

We have more than 6,000 individual rooms on campus. And we guarantee that one of them will be yours for your first year – just as long as you accept our offer as your first choice and submit your accommodation application by the deadline.

Split between the eight colleges, our rooms come in different types and grades – from standard rooms with shared facilities, to rooms in townhouses, en suite rooms and even self-contained studios that come complete with their own kitchens.

No matter which college you choose, and whatever type or grade of accommodation is right for you, you’ll find an excellent standard wherever you go. Most rooms on campus have a wash basin (around two-thirds are also en suite), as well as high-speed internet access, 24-hour security, while shared areas in the halls are cleaned regularly.

If you live off-campus in your first year, you’ll still be part of a college and you’ll still have the same access to all the facilities, activities and support networks as our on-campus students.

(2019 - 2020 accommodation rates are still to be confirmed)

Room with private shower and toilet: £122.92 - £144.97
Room with shared shower and toilet: £88.83 - £124.32

For more details, take a look at www.lancaster.ac.uk/accommodation

Living off-campus
After the first year, many students opt to live in the city centre. While we have our own city-centre halls at Chancellor’s Wharf, offering many of the same facilities you’ll find at halls on campus, we also have an approval scheme for private landlords called Lancaster University Homes. Covering our own residences as well as flats and houses across the city, every property is inspected to ensure it meets our high standards before it gets our recommendation.
Accommodation types

Standard
There are a variety of standard accommodation rooms in Bowland, County, Furness, Grizedale and Pendle Colleges, all with washbasins. Kitchens are usually shared between four to six students, as are toilets and shower rooms. County and Bowland Colleges also offer Superior Standard accommodation, which includes a lounge area in each flat.

£88.83 - £117.25 per week / most Standard rooms cost £103.74

En suite
En suite rooms are available in every college, and make up around two thirds of our accommodation. Kitchens are usually shared between four to eight students.

£122.92 - £144.97 per week

Townhouse
Our award-winning campus townhouses are available in County and Grizedale Colleges.

The upper three floors contain 12 bedrooms and six shower rooms, while the ground floor accommodates a large kitchen, dining area and lounge, as well as a small garden terrace.

£124.32 per week / based on a 43-week contract

Studio
We have 144 studios located in Grizedale and Pendle Colleges, offering a self-contained option for those looking for more independence. These are larger versions of the Superior En suite, with a kitchenette, dining table and a 3/4-size bed, though they do not offer the communal areas you'll find in other types of accommodation.

A handful of studios are larger and suitable for two occupants.

£161.77 per week / twin studios cost £179.90 (or £89.95 per person)

Catered
Most of our accommodation is self-catered, but you can get a catered package in some areas, which provides flexible breakfasts and dinners every day during term time. You can find out more about this on our website.

Weekly rates shown are for 2018 - 2019 (2019 - 2020 rates are still to be confirmed). All costs based on a 40-week contract unless otherwise stated. For more details visit www.lancaster.ac.uk/accommodation
Everything on campus

Set in 560 acres of parkland, three miles south of Lancaster city centre, our campus offers the best of both worlds: the vibrant feel of a busy community and the natural tranquillity of the Lancashire countryside.

Having invested £500 million in recent years, we’ve created the complete campus – a self-contained community with modern facilities. The city centre is just a five-minute bus ride (or a 25-minute cycle), so you’ll find everything that you could need throughout your student life right here.
Our learning spaces

Academic resources

We’ve refurbished our Library building in recent years, creating a modern study space with more than 1,300 technology-enabled workspaces, training rooms and group study rooms. You’ll have access to more than 30,000 e-journals, 300,000 e-books and 800,000 print books.

We also offer a range of free workshops, drop-in sessions and online courses to help develop your skills.

As well as the high-bandwidth wired connection and Wi-Fi in all campus accommodation, Wi-Fi is available in public, social and learning spaces. You’ll find lots of PCs in the Library, learning labs and departments, while a laptop loan service means you don’t need to carry your own - and there’s a huge network of printers that you can access from a range of devices.

You will also have access to
+ Online learning spaces for modules on your course
+ A wide range of software, including specialist applications for your course
+ Information and personalised resources in the iLancaster mobile app
+ Secure network and cloud storage for your work

Sports: part of a team

The University and the Students’ Union work together to support students competing against other universities in more than 38 different sports – providing coaching, help with equipment and transport.

Among these are five ‘Focus Clubs’ – high-performing teams who qualify for additional support in coaching, physiotherapy and strength and conditioning. Our teams are chosen for Focus Club status based on a range of factors, including their results, training plan and overall dedication to improve.

For many of our teams, the highlight of the sporting year is the Roses, an annual weekend-long tournament against the University of York and one of the biggest inter-varsity events across Europe. We also run different recreational and inter-college leagues and competitions within the University, including the hotly contested inter-college Carter Shield.

All of these facilities and societies aren’t just for the competitive. You can also get involved in the Student Union’s recreational leagues and events, or join one of the numerous clubs and societies. If you can’t find the society you want when you get to Lancaster, support is available from the Students’ Union to help you set it up.

For more details, take a look at www.lancaster.ac.uk/sportscentre

Sport Lancaster

Whatever your sport, we have the facilities for you to train and play on campus.

Our fantastic Sports Centre facilities include a 25-metre swimming pool, an 8.5-metre climbing wall and bouldering cave, four glass squash courts, eight badminton courts, a wide range of outdoor courts and pitches, a 3G pitch, a crown bowling green and an artificial cricket wicket.

As well as these extensive sport facilities, we also have a 100-station gym, a fitness studio, a health suite and an outdoor Woodland Walk and Trim Trail offering some fresh-air fitness. We even have an 11-hole golf course, situated in the beautiful grounds of Forrest Hills.

And, if you’re looking for training support, you can turn to our Personal Training Team and Physiotherapy Team.

Whether you enjoy competitive or recreational sport, keeping healthy in body and mind or simply enjoy being active, we have everything you need.

Arts and culture

The Lancaster Arts programme is at the heart of the cultural quarter on campus, featuring some of the finest international and contemporary artists in music, dance, theatre and visual art.

The University is home to the Nuffield Theatre, one of Europe’s largest professional university studio theatres, while our Great Hall has a reputation for the excellence of its international classical music series.

The Peter Scott Gallery and the Ruskin Library house a diverse collection of art, ceramics, books, archives and drawings, while offering a unique setting for exhibitions, artists’ talks and student exhibitions with a new display open to the public every term. We even have our own student-run 3D cinema.

You’ll have plenty of opportunities to get involved, getting the support of professional artists who visit campus regularly, adding to the Lancaster experience.

Free theatre and music tickets at Lancaster Arts
Sign up as a Lancaster Arts Under 26 Supporter and be eligible for free theatre and concert tickets throughout the academic year.

Explore our international network

With a global network of partner institutions and organisations, we can offer a range of opportunities to broaden your cultural understanding, develop new skills and enhance your employability by studying or working overseas.

Study or work abroad for a semester or a year

We are partners with universities in Europe, the USA, Canada, Mexico, Australia, New Zealand, and counties across Asia which offer study placements. We also have a worldwide network of approved employers where you can work on placement.

You can study or work abroad for a semester or a full academic year – either in the second year of a three-year degree, or the third year of a four-year degree.

Most of our modern language degrees require a year abroad, where you work as a teaching assistant in a school, in a business or organisation, or study at one of our partner universities.

If you study with our Management School, you can also do a ‘double degree’, such as International Business Management, where you spend two years of your four-year degree abroad. We then award your degree jointly with the partner university.

While some degree programmes have study abroad built in (those with (Study Abroad) in their title), you can apply to study most programmes abroad after you have started at Lancaster – although there may be less choice and availability. Most placements last for a year, but there are also some single-semester opportunities available in some subject areas, such as Economics and Linguistics.

Funding your overseas placement

While you won’t need to pay fees to your host university while you’re abroad, you still pay fees to Lancaster University. How much depends on how long you’re away: if it’s a single-semester placement, you pay the full amount, but if it’s a whole year, then you pay less – for 2017/18, UK students studying abroad paid 15% of the normal fee. For up-to-date information about fees, please visit www.lancaster.ac.uk/ugfunding.

Living expenses for a year overseas are usually higher than a year in Lancaster. The cost of a placement varies depending on where you study and can range from £8,000 to £15,000, not including flights, local travel or the cost of visas. There’s a range of possibilities for getting financial support to travel abroad, which we can help you explore. For example, you can apply for an enhanced student loan for your placement, as your student loan can be used for your overseas placement.

Vacation travel

We also offer the chance to go on one-to-eight-week placements with our partners in India, China, Malaysia, the US and Ghana (among others) during your holidays. These exchanges offer the opportunity to explore the industry, culture and communities of these countries, giving you the kind of experience that isn’t just personally rewarding but is also attractive to employers.

To find out more about all these opportunities visit www.lancaster.ac.uk/globalexperience.
A short bus ride or cycle will take you from our campus into the heart of Lancaster – a city full of character and culture.

It’s a city without the sprawl, compact enough to explore on foot and small enough to hold onto a friendly personality. But there’s also everything you’d expect from a modern city, with plenty to see and do, from busy shops and a vibrant nightlife to cultural attractions and beautiful parks.

**History**

Lancaster’s story features Romans, a medieval stronghold and a major port, and the medieval Wars of the Roses – which we still contest today with the University of York (in much friendlier terms on the sports field). The cityscape is dominated by the 12th century Lancaster Castle and the Ashton Memorial building, while cobbled streets criss-cross a centre boasting museums, quirky outdoor spaces and well-preserved Georgian architecture.

**Shopping**

Lancaster is a great place to shop, with all the major chains you’d expect to find on any high street, together with an eclectic mix of independent shops, boutiques and bustling markets. The Charter Market, running since the 12th century, offers a selection of 40 stalls every Wednesday and Saturday, while the Assembly Rooms vintage market sells everything from chic retro clothes to handmade crafts.
Arts and culture
The city is a recognised centre for culture in the region, with a great collection of theatres, galleries, cinemas and music venues. It also hosts a range of festivals throughout the year, from music festivals and a literary festival to a maritime festival and ‘Light up Lancaster’ – an annual two-day festival mixing art, lights and fireworks.

Cafes, bars and clubs
Lancaster is buzzing with life day and night, with a great mix of popular cafes and bars throughout the city centre. You’ll find a good selection of traditional pubs, modern wine bars and everything in between, along the banks of the canal, tucked away in side streets and even underneath the city in the castle’s former wine cellars. The Students’ Union-owned ‘Sugarhouse’, the largest nightclub in the city, is open exclusively to students and offers free return buses to campus.
By the time you leave Lancaster, you will have gained much more than a degree. That’s because we work hard not only to provide an excellent standard of education, but also to make a positive impact on our students’ lives.

We’re one of the few universities that operate a college structure — something that offers support and a ready-made social network from the day you arrive. Our campus provides a stunning, natural setting for our close-knit community, with award-winning accommodation, modern facilities and a buzzing social scene, organised by our active Students’ Union.
Your college

Being part of a college means that although you’re studying at a large university along with thousands of others, you’re also part of a small community where it’s easy to make new friends.

A small membership fee is required which goes towards the running of each college.

Find out more about the colleges at www.lancaster.ac.uk/colleges

Bowland College
One of the founding colleges, Bowland is positioned in the centre of the campus. We have a distinctive college identity which fosters a spirit of respect for others, ensures a warm and friendly community, and inspires our students to be the best they can be, by making the most of all the opportunities the university has to offer.

Cartmel College
A friendly, easy-going, vibrant and supportive community. Cartmel is full of opportunities for you to gain new experiences and develop skills for your future while still having lots of fun.

County College
At the heart of County College is a 250-year-old oak tree, which is the inspiration for our logo and a symbol of our identity. As a college we encourage, promote and support creativity and originality in all that we do.

Furness College
Furness is the smallest college, which makes it a friendly place to be. We offer a very active and varied social calendar, and a strong sense of community which our Furness College Advisor Team and our First Year College Reps help us maintain. Every member of Furness is a member of the Furness Family. Our motto, ‘Everywhere Else is Nowhere’ says it all.

Fylde College
With a central position on campus, this small and friendly college has a great sense of community and team spirit. We share a will to win and offer a full range of opportunities for you to find your strengths. With a reputation for fair play, our motto is ‘In arvo quærere verum – Seek Truth in the Field’.

Grizedale College
Always known for our welcoming atmosphere and generous spirit, the new accommodation and social facilities match our ethos perfectly. Students take an active part in running our college. As a result, our social life has one of the best reputations on campus.

Lonsdale College
As one of the two founding colleges, Lonsdale proudly combines its original spirit, heart and traditions with fantastic modern accommodation, social and study facilities. One of the largest and most vibrant colleges, our motto is ‘Simper Maiores Sequimur – strive to reach the top’.

Pendle College
Pendle is a friendly college with a warm welcome. We have a strong tradition in sustainability and are the college with real eco credentials. Our students are strong in bar sports and we are known as the college for live music events. Our motto is ‘Altiora Sequamur’ – strive to reach the top.

Your global experience

At Lancaster, you’ll have the chance to live and learn with people from different cultures, sharing ideas and perspectives with people on your course, in your college and through campus life. You can choose to create new connections by joining a society, throwing yourself into a group project, dancing the night away at a cultural celebration or travelling overseas with us for a few weeks or more.

As well as preparing you for a future global career, learning about other people and countries will help to shape your personality, give you confidence and develop your understanding of the world.

Our international community is made up of students from over 100 countries, world-leading staff (30% are non-British) and an alumni network across 180 countries – all combining to give our community a truly global complexion.

You can develop your global citizenship skills by taking our Intercultural Competencies Certificate, offering insights that will support you in developing skills for your career and life.

At Lancaster you can make global connections, explore the world and discover yourself.
Finding your direction

Studying at Lancaster is about more than just a qualification. Our careers experts will help you to leave university with the skills and confidence you need for whatever future you want.

Sharlene Gandhi
Final year student, BSc Hons
Marketing Management (Study Abroad)

When I was little, I really wanted to be a writer. When I started university, I wanted to work in the marketing or advertising industry on the creative side. I have changed my mind since!

I have discovered that my strengths lie in organisation, project management and business development.

Going to careers events run by the university was useful to understand what the business climate was. They were also incredibly useful in understanding where my passions didn’t lie.

At university I have been introduced to non-profit work and start-ups. If I were to work in marketing in the future, I’d like it to be in one of these two areas.

The most helpful careers advice has been from the Management School careers team, who have taught me the art of selling my experience on paper.

For my placement year I worked as a Sales, Operations and Project Manager at IBM in London. This gave me so much confidence in both my own skills and how I come across to other people.

What have I added to my CV at university? Two society exec positions, a study abroad year, two volunteering abroad placements, a placement year, two part time jobs, and finally, a degree from a world-class management school!

“I have discovered that my strengths lie in organisation, project management and business development.”

“Some people come to university with a plan in mind, but we know that’s not the case for everyone. Lancaster University’s goal is to help students explore their future and grow as people.

Our careers service can help with work experience, building your CV and meeting employers, and placement specialists based in each faculty can help you find the opportunity that suits you.”

Louise Briggs, Director of Employability, Lancaster University

For more information please visit www.lancaster.ac.uk
Our alumni network

Where will your degree from Lancaster take you? From business to media, art to politics, sport to education, more than 130,000 Lancaster graduates play influential roles in more than 180 countries around the world.

Read more about our alumni at www.lancaster.ac.uk/alumni

Cat Smith
Labour MP for Lancaster and Fleetwood
(Gender and Sociology, 2006, Cartmel)
“I particularly enjoyed the first year, the feeling of independence and the chance to figure out who you were.”

Caroline Rookes
Chief Executive of the Government’s Money Advice Service
(English, 1975, Furness)
“University was a very big transition for me coming straight from school. It helped me understand myself and take responsibility for myself.”

Alan Milburn
Lancaster University Chancellor and former Health Secretary and Labour MP
(History, 1979, Pendle)
“Lancaster University was my foundation for the whole of my working life and career. The skills I learned there – of being rigorous, analytical and understanding how to make a judgement call – were important in my political life, and still are in the work I do today in child poverty and social mobility.”

Ranvir Singh
Television presenter
(English and Philosophy, 1998, Pendle)
“My English degree was hugely useful to my career in journalism, but also being made to think critically and question is at the heart of my work, so it was all very relevant.”

Sam Hodges
Head of Communications, Twitter UK
(English Language, 1999, Pendle)
“I went to Lancaster a bit shy, but it was the right environment for me to grow. What really struck me was the nature of the relationships that existed between students and teachers, which made it OK to discuss, challenge and debate with a person who was in authority. In a big company like the BBC or Twitter, that is vital.”

Amy Raphael
Freelance journalist and biographer
(English and Italian, 1989, Fylde)
“I owe Lancaster everything. I made great friends there and my experience there made me feel when I left that I could tackle anything.”

Where will your degree from Lancaster take you?

From business to media, art to politics, sport to education, more than 130,000 Lancaster graduates play influential roles in more than 180 countries around the world.

Read more about our alumni at www.lancaster.ac.uk/alumni
Student support

Whenever you need support, you’ll have someone to turn to.

Between your college, the Students’ Union and the University itself, you’ll have access to specialist guidance covering everything from your academic progress to your personal wellbeing. All you need to do is ask.

Academic guidance
www.lancaster.ac.uk/sbs/academic-support
Throughout your studies, you will receive support and guidance from your Course Tutors, Academic Tutors, college support team and Student Learning Advisors, among others.

The Base
www.lancaster.ac.uk/sbs/thebase
The Base is our one-stop enquiry desk located in the centre of campus on Alexandra Square. If you need advice on any student matter, you know where to go.

Wellbeing, counselling and mental health
www.lancaster.ac.uk/sbs/counselling
A free and confidential service is available to help you address any personal or emotional problems getting in the way of your university experience or your academic performance.

Disability
www.lancaster.ac.uk/disabilities
We provide support for all students with disabilities, on all aspects of learning – including assessment and support for dyslexia, assessments for study aids and help with funding applications.

Funding
www.lancaster.ac.uk/sbs/funding
We can provide information and guidance on your living costs, budgeting and financial aid, including help with government and university funding.

Visa and immigration
www.lancaster.ac.uk/sbs/international
Our Visa and Immigration team can help you with visa applications, the immigration process and registration process. You can also ask them any questions about the terms and conditions of your stay.

Pre-School Centre
www.lancaster.ac.uk/preschool
Our Pre-School Centre provides high-quality child care for students and staff. We charge fees, but we can advise you how you might claim back some of the costs.

Registry
www.lancaster.ac.uk/sbs
We can assist you with academic record matters, registration, module enrolment, academic review and appeals.

Chaplaincy Centre
www.chaplancs.org.uk
Our Chaplaincy Centre is a place where you can worship, reflect, explore faith issues, find support and encouragement, and meet others.

Healthcare support
www.lancaster.ac.uk/health-services
Lancaster University offers a medical practice, where you can see a GP or nurse (you must register first), as well as a dental clinic and pharmacy.

Natural Healthcare Centre
www.naturalhealthcare.org.uk
Based within our Chaplaincy Centre, the complementary health treatments offered include acupuncture, Alexander Technique, aromatherapy and reflexology.

For more information please visit www.lancaster.ac.uk
LANCASTER UNIVERSITY
STUDENTS’ UNION

Lancaster University Students’ Union is committed to one big vision: Inspiring and supporting you to love Lancaster.

And we work towards that goal by getting involved in every bit of the life of the university, providing a huge number of services designed to make your time here as fun, fulfilling and fantastic as it can be.

We support our student clubs and societies, provide recreational and competitive sporting opportunities, co-ordinate volunteering projects, run environmental and sustainability projects and so much more.

Above all, our elected student officers and dedicated staff team are here to stand up for you and make sure your academic and extra-curricular experience is everything it should be.

Find out more at www.lancastersu.co.uk or find us on @lancastersu @lususnaps

Join in
The union supports more than 250 different student groups. From hockey to hiking and lacrosse to Lego, we have it all. And if we don’t have the group you’re looking for, we’ll give you the support you need to set it up. Some groups compete against other universities, some organise regular events on campus and others work in the community. The best way to find out what we do is to get involved.

Get support
The union Advice team provides free, independent and confidential support if you need it during your time at Lancaster – whether you need help with academic issues, accommodation problems, welfare, money, or anything else we’re here for you whenever life throws at you.

Student media
Whether you’re planning a career in the media or just want to immerse yourself in campus life, our student media teams offer loads of amazing opportunities. With a newspaper, radio station, TV channel and cinema, you can get involved right away – whether you’re a budding journalist, editor, producer, presenter or even a projectionist.

Volunteering
Becoming a volunteer offers a great way to build new skills, enhance your CV and discover new experiences. We offer a huge number of volunteering opportunities, from working with children in local schools to supporting local charities and good causes or growing produce and looking after the chickens at our on-campus Ecohub. In short, there’s something for everyone.

Student life
We offer a selection of services designed to help you get the most out of student life. And all the profit they make goes straight back into running the rest of the union’s activities! They are:

- **purple**: Lancaster’s essential exclusive student discount card
- **living**: Our union-run student lettings agency
- **CENTRAL**: Our union-run on-campus mini-supermarket
- **sugarhouse**: Our union-run student nightclub in Lancaster city centre

When you come to study at Lancaster, you’ll automatically become a member of Lancaster University Students’ Union - so you’ll have access to all the services and support on offer. However, if you do not wish to join you also have the right to opt out of membership, the choice is yours.

The University and Students’ Union are committed to the welfare of our students and promoting responsible alcohol consumption. We offer a wide range of non-alcoholic and inclusive events throughout the year.

“**The students’ union empowers students to make a change in their community, and in their lives. It allows students to challenge power, campaign for a better future, and shape their campus.**”

Alex Brock, third year, International Relations and Religious Diversity

Why we’re right for you...
“My experience at Lancaster was simply amazing. I am happy that I chose to study there as I met a lot of people, learned valuable lessons and had some great experiences that will always remain dear to me.”
Shereen King, BSc Hons Accounting and Finance

Accounting and Finance*
BSc Hons
UCAS code:N400
Course length: 3 years

Accounting and Finance (Industry)*
BSc Hons
UCAS code:N401
Course length: 4 years

Your degree
Studying Accounting and Finance at Lancaster provides you with the tools to develop both technical knowledge and a broad understanding of the discipline and its application in the business world.

These programmes are accredited by all the major British accountancy bodies, providing graduates with exemptions from many of these bodies’ core examinations. This is a huge bonus, as once you start work you will take fewer exams allowing you to focus on developing your expertise at work.

You can choose to change to the Industry degree during your first year at Lancaster (subject to availability).

Examples of the modules on offer
(see website for further details)

First year
+ Introduction to Accounting and Finance
+ Principles of Economics

Second year
+ Accounting Information Systems and Auditing
+ Principles of Financial Accounting
+ Statistical Methods for Business

Final year
+ Bond Markets
+ Financial Accounting
+ Quantitative Finance

Optional modules include
+ Business Law
+ Taxation
+ Corporate Finance

Professional Accreditations*
Those degrees marked with an asterisk are accredited by all major British accountancy bodies. This provides exemptions from many of these bodies’ core examinations.

Recognised as an ICAEW Partner in Learning, working with ICAEW in the professional development of students

Professional Route in Accounting and Finance
As part of the BSc Accounting and Finance, you may choose to take professional courses in financial accounting and taxation as part of the “Professional Route” in Accounting and Finance. These courses offer the opportunity to sit two Professional Level examinations for the Institute of Chartered Accountants in England and Wales (ICAEW) whilst studying for your undergraduate degree at Lancaster. These courses integrate the theory and practice of accounting, and have the advantage of fast tracking your career as a professional accountant.
BSc Hons
Accounting and Finance

Typical entry requirements
(See website for full details)

Accounting and Management
BSc Hons
UCAS code: NN24
Course length: 3 years

Accounting and Management (Industry)
BSc Hons
UCAS code: NN25
Course length: 4 years

Your degree
This degree scheme allows you to study the fundamental elements of the Accounting discipline, whilst at the same time developing your knowledge of Management and related subjects such as Organisational Behaviour, Organisational Strategy and Marketing.

Required subjects
A level: AAB
For BTEC and IB Diploma equivalents please see page 54.

Examples of the modules on offer

Future careers
+ Professional artistic practice
+ Museums and galleries
+ Publishing, media and marketing
+ Exhibition curator

Placement year
You will have the opportunity to spend Year 3 doing a placement with a public, private or voluntary organisation. This experience will boost your employability prospects and allow you to apply your academic ideas in practice. Placement applications are competitive so you’ll take special preparatory modules and be supported by our team throughout the process to give you the best chance of success. When you return in Year 4, you will complete a reflective portfolio to showcase your experience.

Study abroad
There are opportunities to spend your second year studying at a partner university in the USA, Canada or Australia. Please see page 34 for more information or visit www.lancaster.ac.uk/globalexperience

With clear creative aspirations and ambition. You will be able to study Fine Art disciplines separately or together, working across:
+ Painting
+ Drawing
+ Sculpture
+ Digital Art
+ Installation

The first year serves as a grounding in Fine Art, while in years two and three you can take all your studio modules in Fine Art or add in options from other creative disciplines such as Design, Film and Theatre.

We also offer work-related modules which enable you to expand your network of contacts, influences and experience. Lancaster has a thriving student exhibition society and the city is well positioned to link to galleries and exhibitions across the north-west and Scotland, as well as good links with art venues nationally.

Getting seen is crucial for those who want to pursue careers in Fine Art. Your studies culminate with a solo and group exhibition. This allows you to showcase your work to the public and potential employers.

Biochemistry at Lancaster gives you the opportunity to learn from active research scientists in the primary investigative science within biology and medicine. Our competitive placement opportunities also offer an enhanced experience throughout your degree.

Why we’re right for you...

“The very best thing about the teaching at Lancaster is the quality of the material. I’ve often found myself in a lecture with a leading figure in the area being taught, who has made reference to research published only months before.”

Jonathan Longden, BSc Hons Biochemistry

Your degree

Biochemistry examines the structure and function of living organisms at the molecular level. You will study a range of Biochemistry modules as well as practically-oriented modules designed to equip you with the laboratory skills and knowledge required by a successful biochemist.

Our Biochemistry degree provides students with core modules in Biochemistry and Chemistry, coupled with a solid background in other related fields.

In your third year you have the flexibility to specialise your field of study, with a diverse choice of modules including:

- Clinical Immunology
- Tropical Diseases
- Environmental Pathogens

Examples of the modules on offer (see website for further details)

First year

- Protein Biochemistry
- Cell Structure and Function
- Genetics
- Organic Chemistry

Second year

- Cell Biology
- Biochemical Techniques
- DNA Technology
- Biochemistry

Third year

- Cell Signalling
- Cancer
- Chemistry of Biomedical Imaging
- Molecular and Biochemical Parasitology

Fourth year (MSci only)

- Drug Discovery
- Advanced Topics in Biochemistry
- Advanced NMR; Proteins, Solids and Imaging

- Course length: 4 years

Your degree

Explore the science of life with our flexible degree which provides a wide range of dynamic modules that allow you to tailor your studies to suit your interests. This degree offers you a diverse choice of modules in:

- Genetics
- Biomedicine
- Microbiology
- Ecology
- Physiology
- Conservation

Our links with external research institutions, such as hospitals and industrial laboratories, add even greater texture to your experience.

Our four-year placement degree provides you with support to secure a paid placement in the type of organisation that you might aspire to join when you graduate. The placement year is an excellent opportunity to gain work experience which graduate employers are increasingly using as a way to identify suitable candidates for subsequent graduate employment.

**Future careers**

- Microbiologist
- Immunologist
- Wildlife consultant
- Forensic scientist

The transferable skills you acquire are particularly useful in:

- Teaching
- Data analysis
- Accounting and finance

**Study abroad**

If you take our Study Abroad variant, you will spend your second year studying at a partner university in the USA, Canada or Australasia.

**Typical entry requirements**

(See website for full details)

**Biological Sciences (BSc)**

First year
- Cell Structure and Function
- Evolutionary Biology

Second year
- Medical Microbiology
- Populations to Ecosystems

Third year
- Biology of Ageing
- Global Change Biology

Fourth year (MSci only)
- Extended laboratory or field-based project
- Opportunity to focus on areas of particular interest

**Biological Sciences (Placement Year)**

A level: AAB

Required subjects
- 2 Science A levels from: Biology, Chemistry, Computing, Environmental Science, geography, Geology, Human Biology, Mathematics, Physics or Psychology
- GCSE Mathematics grade B or 6, GCSE English Language grade C or 4.

**Biological Sciences (Study Abroad)**

A level: AAA

For BTEC and IB Diploma equivalents please see page 54.

Examples of the modules on offer (see website for further details)

- First year
  - Cell Structure and Function
  - Evolutionary Biology

- Second year
  - Medical Microbiology
  - Populations to Ecosystems

- Third year
  - Biology of Ageing
  - Global Change Biology

  - Extended laboratory or field-based project
  - Opportunity to focus on areas of particular interest

**Biological Sciences with Biomedicine**

**BSc Hons**
- UCAS code: C189
- Course length: 3 years

**Biological Sciences with Biomedicine (Placement Year)**
- BSc Hons
- UCAS code: C188
- Course length: 4 years

**Biological Sciences with Biomedicine (Placement Year)**

A level: AAB

**Required subjects**

- 2 Science A levels from: Biology, Chemistry, Computing, Environmental Science, geography, Geology, Human Biology, Mathematics, Physics

**For BTEC and IB Diploma equivalents please see page 54.**

**Typical entry requirements**

(See website for full details)

**Biological Sciences with Biomedicine**

First year
- Genetics
- Anatomy and Tissue Structure
- Infection and Immunity

Second year
- Cell Biology Techniques
- DNA Technology
- Microbiological Techniques

Third year
- Ethics in Biomedicine
- Cell Signalling
- Environmental Pathogens
- Clinical Immunology

**Biomedical Futures**

- Clinical Immunology
- Environmental Pathogens
- Cell Signalling

**Opportunities for continued study**

- A level: AAB

**Examples of the modules on offer (see website for further details)**

- First year
  - Genetics
  - Anatomy and Tissue Structure
  - Infection and Immunity

- Second year
  - Cell Biology Techniques
  - DNA Technology
  - Microbiological Techniques

- Third year
  - Ethics in Biomedicine
  - Cell Signalling

Biology, Biological Sciences

Biology with Psychology
BSc Hons
UCAS code: C1C8
Course length: 3 years

Biology with Psychology (Placement Year)
BSc Hons
UCAS code: C1C9
Course length: 4 years

Your degree

This degree is taught jointly by our biology tutors and academics from the Department of Psychology. The degree explores the biological processes which underpin human behaviour and you will gain core knowledge of both biology and psychology.

Both elements of this degree programme equip you with a range of transferable communication, analytical and interpersonal skills.

Our four-year placement degree provides you with support to secure a paid placement in the type of organisation that you might aspire to join when you graduate. The placement year is an excellent opportunity to gain work experience which graduate employers are increasingly using as a way to identify suitable candidates for subsequent graduate employment.

Examples of the modules on offer (see website for further details)

First year
- Human Physiology
- Genetics
- Understanding Psychology

Second year
- Cognitive Psychology
- Cell Biology
- Practical Physiology

Third year
- Animal Behaviour
- Neurobiology
- The Developing Mind

The transferable skills you acquire are particularly useful in:

+ Marketing
+ Management
+ Finance

+ Academic, Industrial and biomedical research
+ Teaching

Examples of the modules on offer (see website for full details)

Biology with Psychology
Biology with Psychology (Placement Year)
A level: AAB
For BTEC and IB Diploma equivalents please see page 54.

Required subjects
2 Science A levels from: Biology, Chemistry, Computing, Environmental Science, Geography, Geology, Human Biology, Mathematics, Physics or Psychology.

GCSE Mathematics grade B or 6, GCSE English Language grade C or 4.

Future careers

- Academic, Industrial or biomedical research
- Pharmaceutical and food industries
- Around half of our graduates use their skills in a commercial setting while half pursue work in scientific, teaching or caring professions.

Examples of the modules on offer (see website for further details)

First year
- Understanding Psychology
- Genetics
- Business Start-up

Second year
- Infection and Immunity
- Anatomy and Tissue Structure
- Selling for Entrepreneurs
- Biochemistry
- Management

Third year
- Franchising
- Innovation
- Cell Cycle and Stem Cells
- Cancer

Typical entry requirements

Biology, Biological Sciences

Bioscience with Entrepreneurship
BSc Hons
UCAS code: C1N2
Course length: 3 years

Bioscience with Entrepreneurship (Placement Year)
BSc Hons
UCAS code: C1N3
Course length: 4 years

Your degree

The Bioscience with Entrepreneurship degree is aimed at students with an interest in a range of bioscience topics, but who are also looking to understand the challenges of entrepreneurship and innovation.

Bioscience is a fast-paced, innovative environment that increasingly requires graduates who are not only leading scientists, but those who also have an entrepreneurial mind-set. Entrepreneurship is about being equipped to identify new opportunities, knowing how to act on them, and making a difference – it is not just about business start-up, but is applicable within a range of different contexts.

Examples of the modules on offer (see website for full details)

First year
- Pharmaceutical or food industries
- Academic, Industrial or biomedical research

Second year
- Entrepreneurship – Key Debates and Concepts
- Skills in Biomedical and Life Sciences
- Anatomy and Tissue Structure
- Infection and Immunity

Third year
- Marketing
- Entrepreneurship – Innovation
- Business Start-up
- Teaching
- Finance

Future careers

The transferable skills you acquire are particularly useful in:

- Marketing
- Management
- Finance

- Academic, Industrial and biomedical research
- Teaching

For Biology with Psychology and the Bioscience with Entrepreneurship courses:
Tutor: Dr Sue Broughton

Our Biomedical Science and Biomedicine degrees are aimed at those with a broad interest in human life processes and disease. They give you the opportunity to gain an in-depth understanding of the techniques and issues associated with modern biomedical research.

### Biomedical Science

**UCAS code:** B990  
**Course length:** 3 years

**Your degree**

Lancaster’s Biomedical Science degree is accredited by the Institute of Biomedical Science (IBMS). Taught jointly with clinical and biomedical staff from local hospitals, our degree is a very structured scheme in which the majority of modules are compulsory. The degree places an emphasis on the molecules and mechanisms fundamental to life processes and how these are disrupted by disease.

Examples of the modules on offer (see website for further details)

- **First year**  
  - Biomedical Science in Practice  
  - Biomedicine and Society  
  - Diagnosis in Biomedical Science

- **Second year**  
  - Biochemistry  
  - Cellular Pathology  
  - Medical Microbiology

- **Third year**  
  - Cancer  
  - Medical Genetics  
  - Pathobiology

**Lab-based projects**

As part of your Biomedical Science or Biomedicine degree, you will also carry out a laboratory-based project and can draw on the expertise of our academic staff who have vast biomedical research experience across fields including:

- Cancer  
- Alzheimer’s and Parkinson’s diseases  
- Tropical Diseases

### Future careers

- NHS (Biomedical scientist)
- Glaxosmithkline
- Pharmaceutical and food industries
- Management and finance
- Forensic science
- Alcontrol laboratories
- Biomedical research

### Placements

This programme provides you with support to secure a 12 month, paid placement working in the type of organisation that you might aspire to join when you graduate. The placement offers you the opportunity to work as a full-time employee of the organisation, whilst still receiving both academic and pastoral support from the University.

### Contact us

**Tutor:** Dr Sue Broughton  
**Email:** bioladmit@lancaster.ac.uk  
**Tel:** +44 (0)1524 593 265  
**Website:** www.lancaster.ac.uk/fhm/bls

For a full list of compulsory and optional modules:  
www.lancaster.ac.uk/ugcourses

### Study abroad

Students on the Biomedicine Study Abroad degrees spend the second year at a university in Australasia, Canada or the USA.

### Typical entry requirements

**Biomedical Science (BSc)**  
**UCAS code:** C701  
**Course length:** 3 years

**Your degree**

Biomedicine (Flexible Scheme)  
**BSc Honours**  
**UCAS code:** C708  
**Course length:** 4 years

**Your degree**

These Biomedicine degrees are aimed at those with a broad interest in human life processes and disease. They involve the study of subjects such as biochemistry, cell biology, genetics and physiology which are at the heart of modern medical and health research.
This degree gives you the skills to think analytically about complex organisational issues - skills which could open doors to a variety of careers.

Chemistry BSc Hons
UCAS code: F100
Course length: 3 years

Chemistry MChem Hons
UCAS code: F101
Course length: 4 years

Chemistry (Study Abroad) MChem Hons
UCAS code: F1T7
Course length: 4 years
(including a year abroad)

Your degree
Our single honours degrees, accredited by the Royal Society of Chemistry, will teach you chemistry as an integrated subject. While providing the fundamental concepts in inorganic, organic and physical chemistry, you will also gain the practical and theoretical skills that are essential for a modern chemistry graduate, and which are highly valued by employers. You’ll study in our brand-new, state-of-the-art Chemistry Building which offers you cutting-edge facilities for practical learning and research.

Flexible entry
Our degrees follow a common first and second year, allowing you to transfer between our BSc and MChem courses, as long as academic requirements are met.

First year
During the first year of your degree, you will cover many fundamental concepts that underpin chemistry including:

+ The underlying principles of both organic and inorganic structure and synthesis
+ The behaviour, properties and structure of atoms, molecules and phases
+ An introduction to spectroscopic and analytical techniques

Typical entry requirements

Chemistry
A level: ABB

For BTEC and IB Diploma equivalents please see page 54.

Required subjects
Chemistry and a further science from Biology, Computing, Environmental Science, Geography, Human Biology, Information Technology, Mathematics, Physics or Psychology.

GCSE Mathematics grade B or 6,
GCSE English Language grade C or 4.

You will learn about Chemistry’s relevance to the other natural sciences; for example, how chemistry interfaces with biology, mathematics and physics. You will also develop maths and computational skills as well as theoretical and practical knowledge of synthetic, physical and analytical chemistry.

Second year
Your second year builds upon the strong foundations of first year, where we introduce a range of new topics, such as:

+ Organometallic Chemistry
+ Solids, Surfaces and Soft Materials
+ Quantum Chemistry

And go into greater depth with more familiar topics, such as:

+ Organic Synthesis
+ Spectroscopy
+ Electrochemistry

Third and fourth years
In your final years there is an element of specialisation and the opportunity to undertake an independent research project in conjunction with our world-leading research groups.

Advanced topics include:

+ Bioimaging
+ Analytical Chemistry
+ Chemical Biology
+ Polymer Chemistry
+ Computational Chemistry

Accreditation
Our Chemistry degree programmes are accredited by the Royal Society of Chemistry.
Future careers
Chemistry graduates have excellent employment prospects both in the chemical industry, and in graduate jobs in general. As well as developing your specialist knowledge of the subject, we will also help you to develop the skills needed to take the next step in your career, whether that’s on to further study and research, or taking an opportunity in one of the many industries that chemists succeed in. We have a dedicated ‘Careers Development’ module which focuses on transferable skills, and provides advice and guidance in applying for jobs and developing your interview technique.

To help prepare you for employment, our extensive network of businesses provide paid intern opportunities, where you will benefit from working directly within industry and develop skills which give you an advantage when applying for jobs. Not only that, we’ve invested £11 million in facilities to support the north-west chemical industry with access to a broad range of equipment and expertise relating to the design, manufacture and safe handling of chemical products.

Athena SWAN
The Department of Chemistry has been awarded an Athena SWAN Bronze award, which recognises the advancement of gender equality among students and staff.

Study abroad
MChem students may choose to expand their horizons by spending a year at a partner university in North America, Australia, New Zealand, Germany, France or the Netherlands. Please see page 34 for more information or visit www.lancaster.ac.uk/globalexperience

Why we’re right for you...
“I love how modern the labs are and the Department puts a strong emphasis on lab skills. Choosing to study here was one of the best decisions I’ve made. It’s incredibly friendly and the atmosphere is brilliant. I would encourage anyone to come to Lancaster.”
Kate, MChem Hons Chemistry (Study Abroad)

Computer Science
A level: AAB

Computer Science (Study Abroad)
BSc Hons
UCAS code: G402
Course length: 3 years

Computer Science (with Industrial Experience)
MSci Hons
UCAS code: G404
Course length: 4 years

Required subjects
GCSE Mathematics grade B or 6.
GCSE English Language grade C or 4.
For Computer Science (Study Abroad) we require A level Mathematics or Computer Science.

Apply only once
If we are unable to offer you a place on the MSci or Study Abroad courses, you will automatically be considered for an alternative course.

For a full list of compulsory and optional modules:
www.lancaster.ac.uk/ugcourses

Your degree
Our Computer Science programmes provide a broad, rigorous treatment of the fundamental principles of the discipline, combined with their modern day application. The degree adopts an experimentalist approach to the subject – where the theory you learn in lectures is strengthened through practical sessions in our dedicated labs.

After gaining an overview of the subject in your first year, you’ll be motivated by topics that become progressively deeper and more specialised as your skills develop in your second and third years. In your final year, you will be given the opportunity to explore a range of optional modules and an individual project.

Future careers
+ Designers and innovators at media companies such as the BBC
+ Postgraduate and doctoral training
+ Software engineers designing and implementing systems at companies such as IBM, BT, and BAE
+ Research and development
+ Data scientists and the applications of big data

Supporting the Computing A level
We are committed to encouraging the adoption of the new A level Computing curriculum. Students applying with an A level in Computing will be considered to receive a lower offer.

Computing and Communications

Typical entry requirements
(See website for full details)

Software Engineering
A level: AAB
Software Engineering
(with Industrial Experience)
A level: AAA

Required subjects
GCSE Mathematics grade B or 6,
GCSE English Language grade C or 4.

Apply only once
If we are unable to offer you a place on the MSci or Study Abroad courses, you will automatically be considered for an alternative course.

Supporting the Computing A level
We are committed to encouraging the adoption of the new A level Computing curriculum. Students applying with an A level in Computing will be considered to receive a lower offer.

Software Engineering
BSc Hons
UCAS code: G602
Course length: 3 years

Software Engineering
(with Industrial Experience)
MSci Hons
UCAS code: G601
Course length: 4 years

For BTEC and IB Diploma equivalents please see page 54.

Your degree
Our Software Engineering programmes offer you a broad computer science curriculum with an emphasis on software engineering and design. These degrees are delivered using an innovative ‘design studio’ approach and you will spend a large part of your course engaged in small, collaborative group-based teaching. You will benefit from extensive first-hand experience of developing real-world systems using the cutting-edge software platforms, methodologies and strategies adopted by the world’s leading software companies.

Your first year will provide you with the fundamentals of computer science, software development, and digital and information systems whilst you begin to develop complex computer programming skills. Your second and third years offer advanced modules allowing you to develop the working knowledge and skills to overcome the challenges of designing, developing and evaluating real-world software systems, and in your final year you will undertake an individual project.

Third year
+ Networked Studio
+ Live Studio
+ Languages and Compilation

Fourth year (MSci only)
+ Data Mining
+ Elements of Distributed Systems
+ Advanced HCI
+ Ten weeks of organised, integrated placements
+ A full-time seven-week industry or research dissertation project

Combine Computing with…
+ Computer Science and Mathematics BSc/GG14
+ Computer Science and Mathematics MSci/GG1K
+ French Studies and Computing (4 years)/GR41
+ German Studies and Computing (4 years)/GR42
+ Management and Information Technology (4 years)/GN52
+ Spanish Studies and Computing (4 years)/GR44

For the entry requirements for these courses please see the index.

Why we’re right for you...
“I was able to put the skills learned throughout my degree into a practical environment, which made me a more attractive candidate for employers and I had multiple job offers. The final year allowed me to become a more confident programmer and being able to create and develop software that would be used by others was extremely satisfying.”
Daniel Garrett, MSci Hons Computer Science (with Industrial Experience)

Working together
The School incorporates a Knowledge Business Centre which works to bring industry and academic research closer together, providing business services, an incubator unit for a range of innovative small companies and offers support for placements and internships.

Study abroad
If you follow our Study Abroad programme, your second year is spent studying equivalent courses at one of our world-class partner institutions in Europe, North America, Canada or Australia.

BA Hons
Criminology

Studying Criminology will challenge your assumptions about who commits crime and why. You will discover the impact of victimisation, criminalisation, and how different criminal justice systems respond to crime. You will also have opportunities to gain work experience while learning from experts in the field.

Core modules
- Introduction to Criminology and Criminal Justice
- Understanding Criminological Fieldwork
- Criminological Thought
- Measuring Crime

Optional modules include
- Political and Criminal Justice
- Advocacy and Criminal Justice
- Understanding Crime in Context

Fieldwork
You will have the opportunity to work in a criminal justice agency such as the police and prison services. You will also engage in a critical evaluation of contemporary debates on crime, deviance and punishment. Your degree will draw on our expertise in such areas as:

- Youth justice
- Hate crime
- Domestic and sexual violence
- Drugs and crime
- Representations of crime in the media and popular culture
- Sex work

You will take a critical look at criminal justice agencies such as the police and prison services. You will also engage in a critical evaluation of issues such as crimes of the powerful, the process of criminalisation and social and legal responses to crime.

BA Hons
Criminology

Your degree
One of the first English universities to offer an undergraduate degree in Criminology, Lancaster offers a well-established and broad-ranging programme of study. We draw on other disciplines as well as long-standing criminological traditions and give you the flexibility to tailor your degree to your personal and professional interests.

Taught by nationally and internationally renowned researchers, your degree is informed by cutting-edge criminological research and contemporary debates on crime, deviance and punishment. Your degree will draw on our expertise in such areas as:

- Youth justice
- Hate crime
- Domestic and sexual violence
- Drugs and crime
- Representations of crime in the media and popular culture
- Sex work

You will take a critical look at criminal justice agencies such as the police and prison services. You will also engage in a critical evaluation of issues such as crimes of the powerful, the process of criminalisation and social and legal responses to crime.

Taught by world experts, Lancaster’s distinctive approach to design reflects a department that is at the cutting-edge of the field. This degree moves beyond the limited scope of traditional disciplines such as graphic or product design, giving you the skills to tackle the complex cultural and social problems we will face in the future by combining creative thinking with innovation, technology, business and research.

Why we’re right for you...
“I really enjoyed the flexibility that was offered throughout the course. The design modules that I undertook were extremely hands-on and really added real-life work development.”

Emily Lindsay, Assistant Brand Manager, Rowntree’s BSc Hons Marketing and Design graduate

Placement year
You will have the opportunity to spend Year 3 doing a placement with a public, private or voluntary organisation. This experience will boost your employment prospects and allows you to apply your academic ideas in practice. Placement applications are competitive so you’ll take special preparatory modules and be supported by our team throughout the process to give you the best chance of success. When you return in Year 4 you will complete a reflective portfolio to showcase your experience.

Future careers
+ Design consultant
+ Creative director
+ Service designer
+ UX/UI designer
+ Design futurist

Students learning about conservation and sustainable development in the Brazilian Amazon.

For more information please visit www.lancaster.ac.uk

BSc Hons/MSci Hons Ecology and Conservation

Learn how organisms interact with each other and their environment, and discover the impact of human activity in a series of exciting field-based and lab-taught modules.

Your degree

Our Ecology and Conservation programmes will provide you with a deep understanding of how ecological principles are applied in the study and conservation of species and the ecosystems in which they live.

You will examine biological ecosystems in which organisms are locked in complex interactions with each other and their environment.

It’s a diverse field and your degree focuses on areas including animal behaviour, evolution and global change biology.

Examples of the modules on offer (see website for further details)

First year
+ Biodiversity and Conservation
+ Spanish Field Course
+ Zoology

Second year
+ Evolution
+ Field Biology
+ Populations to Ecosystems

Third year
+ Lake Ecology
+ Animal Behaviour
+ Dissertation

Fourth year (MSci only)
+ Lake Ecology
+ Wildlife Monitoring Techniques
+ Dissertation
+ Ten-week placement with a graduate employer

Study abroad

Students on our Study Abroad course will spend their second year at a partner university in the USA, Canada or Australasia.

Please see page 34 for more information or visit www.lancaster.ac.uk/globalexperience

Typical entry requirements (See website for full details)

Ecology and Conservation (BSc)
A level: ABB

Ecology and Conservation (Study Abroad)
BSc Hons
UCAS code: C182
Course length: 3 years (including a year abroad)

Ecology and Conservation (Professional Experience)
MSci Hons
UCAS code: OX48
Course length: 4 years

Required subjects
2 Science A levels from: Biology, Chemistry, Computing, Environmental Science, Geography, Geology, Human Biology, Mathematics, Physics or Psychology.

GCSE Mathematics grade B or 6,
GCSE English Language grade C or 4.

Examples of the modules on offer (see website for further details)

First year
+ Biodiversity and Conservation
+ Spanish Field Course
+ Zoology

Second year
+ Evolution
+ Field Biology
+ Populations to Ecosystems

Third year
+ Lake Ecology
+ Animal Behaviour
+ Dissertation

Fourth year (MSci only)
+ Lake Ecology
+ Wildlife Monitoring Techniques
+ Dissertation
+ Ten-week placement with a graduate employer

Study abroad

Students on our Study Abroad course will spend their second year at a partner university in the USA, Canada or Australasia.

Please see page 34 for more information or visit www.lancaster.ac.uk/globalexperience
Economics

BSc Hons

Course length: 4 years
UCAS code: L0V0

Economics (Study Abroad)

BSc Hons

Course length: 3 years
UCAS code: L101

Economics (Industry)

BSc Hons

Course length: 4 years
UCAS code: L105

Your degree

This course looks at the theories and techniques used to analyse and guide economic policy decisions, so that you can understand fundamental issues and topical concerns.

You will study Economics from first principles, making this degree equally suited both to beginners who have not studied it before and to students who want to reinforce and develop what they have already learnt at A level.

Many of our Economics graduates have gained places on leading graduate schemes in banking, international business and consultancy, as well as specialised careers as economists in the public and private sector.

On the Industry variant, you will take an industry placement in your third year. Those on the Study Abroad variant spend their second year at a partner university in North America, Europe or Australasia.

Future careers

+ Management consultancy
+ Government and policy making
+ Finance and banking

Examples of the modules on offer

(see website for further details)

First year
+ Principles of Economics
+ Quantitative Methods for Economics

Second year
+ Mathematics for Economics
+ Introduction to Econometrics
+ Intermediate Micro and Macroeconomics
+ Game Theory

Examples of the modules on offer

(see website for further details)

First year
+ Principles of Economics
+ Preparation for Placement

Did you know?

88% of our 2016 UK graduates were in graduate employment or further study six months after graduating

Economics/Business Economics

A level: AAB
Required subjects
GCSE English Language grade B/C, GCSE Mathematics grade B or 6

For BTEC and IB Diploma equivalents please see page 54.

Final year
+ Public Economics
+ Health Economics
+ Industrial Organisation
+ International Trade
+ Development Economics
+ Applied Macroeconomics

Business Economics (Industry)

BSc Hons

Course length: 4 years
UCAS code: 4V11

Your degree

While the BSc Business Economics gives you a strong foundation in economics theories and principles, like the other Economics programmes, it also looks at these with a particular focus on examining their relevance to business and management.

You will complement your study of Economics with other subjects from the Management School, such as Accounting, Marketing and Finance.

The built-in industry placement will also give you valuable first-hand experience in the workplace. Our students have completed placements in companies such as Morgan Stanley, GlaxoSmithKline, Johnson & Johnson, Unilever and Vauxhall.

Combine Economics with...

+ Accounting and Economics/ NL41
+ Accounting and Economics (Industry)/ NL42
+ Economics and Geography/ LL71
+ Economics and International Relations/ LL12
+ Economics and Mathematics/ GL11
+ Economics and Mathematics (Industry)/ GL12
+ Economics and Politics/ LL21
+ Finance and Economics/ NL31
+ Finance and Economics (Industry)/ NL32
+ Mathematics, Operational Research, Statistics and Economics/ GLN0
+ Mathematics, Operational Research, Statistics and Economics (Industry)/ GLN1
+ Philosophy, Politics and Economics/ LV0
+ Philosophy, Politics and Economics (Placement Year)/ LV1
Lancaster’s Engineering Department is internationally recognised as being at the forefront of research and innovation. It is one of only a handful of general engineering departments in the country offering an interdisciplinary experience typical of what you will face in modern industry.

Common first year
All our undergraduate engineering degrees begin with a common first year. This means that no matter which discipline you choose you’ll study the same combination of engineering, science and mathematics modules before you specialise in your second year. The modern world requires engineers who can effectively communicate between disciplines and by building on a broad foundation of modern engineering our engineering graduates are able to adapt regardless of how their careers diversify.

Examples of the first year modules you will study (see website for further details)
- Calculus
- Computers and Control
- Design, Innovation and 3D Thinking
- Differential Equations
- Electrical and Electronic Fundamentals
- Engineering Thermodynamics
- Fundamentals of Chemistry for Engineers
- Fundamentals of Digital Electronics
- Fundamentals of Electronic Instrumentation
- Further Engineering Mathematics
- Heat Transfer
- Introductory Engineering Mathematics
- Manufacturing Fundamentals
- Mechanics of Materials
- Process Engineering Fundamentals

Our range of practical and experimental modules give you the opportunity to apply the theory you’ve learnt in lectures.

Second year onwards
At the end of your first year you can specialise in a particular field of engineering. This allows the flexibility to change degrees from your original UCAS choice.

Typical entry requirements
(See website for full details)

- **Engineering BEng Engineering (Study Abroad) BEng**
  - UCAS code: H100
  - Course length: 3 years

- **Engineering (Study Abroad) MEng Honours**
  - UCAS code: H101
  - Course length: 3 years
  - (including a year abroad)

- **Engineering (Study Abroad) MEng Honours**
  - UCAS code: H104
  - Course length: 4 years
  - (including a year abroad)

If you are unclear about which direction or pathway you wish to follow we offer a General Engineering entry point to our common first year structure. Having an opportunity to sample the different disciplines will allow you to make an informed choice of the area of engineering you want to specialise in at the start of Year 2.

If you take one of our Study Abroad variants you’ll spend your second year studying at a partner university in Europe, North America or Australasia. We match the modules that you would study at Lancaster with those of the overseas partner to ensure you have all the prerequisites for your return to Lancaster in Year 3. Graduates with an international awareness are highly sought after by multi-national engineering companies.

Previous students have studied at:
- University of South Australia
- University of Colorado, Boulder
- Iowa State University
- Montana State University
- University of Kentucky

Accreditation
All our degrees are externally accredited, offering a mark of assurance that the degree programme meets the standards defined and set out by the engineering professions. Our three-year BEng degrees meet partial fulfilment of the educational requirements of Chartered Engineer (CEng) status, whereas our four-year MEng degrees meet the full educational requirements. You will graduate with all the necessary underpinning knowledge, understanding and skills for eventual registration as CEng with a licensed professional engineering institution. We hope all our students aspire to register as professional engineers and as such encourage all students who meet the required threshold at the end of second year to upgrade on to the four year MEng scheme of study.

Flexible options
All our courses are offered as a three year BEng degree or a four year MEng degree and all have the option of spending a year in industry.
Chemical engineers are employed across a huge variety of sectors and need technical knowledge of chemistry, biochemistry, engineering, materials science and IT as well as skills in management, safety and the environment.

With our emphasis on teaching, design and project work, you will develop strong capabilities in assessing and managing risks, and work with the companies we have strong links with, often starting on salaries in excess of £27,000 per annum.

Many of our graduates go on to work with the companies we have strong links with, often starting on salaries in excess of £27,000 per annum. The MEng course adds more than just a fourth year of study to the BEng programme. MEng graduates are expected to have entrepreneurial, leadership and problem solving skills along with a broader technical knowledge and deeper understanding of their subject.

The MEng programme provides ample opportunity to develop your leadership, entrepreneurial and management potential. Both of these courses are accredited by the Institution of Engineering and Technology (IET).
Both of these courses are accredited by the Institution of Mechanical Engineers (IMechE) and the Institution of Engineering and Technology (IET). The programme gives you the skills necessary for the subject, with an applied focus on mechanical system designs.

Our expert tutors and world-leading resources will support the development of your analytical ability in dealing with complex systems. They will also enhance your creativity for solving problems and producing innovative designs. Project work will help you build your teamwork skills whilst helping you gain solid engineering experience.

Our ME year structure operates with an alternating pattern of two-week taught modules followed by an alternating pattern of intensive project work. Often linked with industry experience, they perform a valuable role in coordinating more specialist employment.

Lancaster is that the first of its kind in the UK. It was set up in 1984 in response to industry’s clear need for engineers who can work confidently and in depth within an interdisciplinary environment.

The course takes a multidisciplinary approach and focuses on product design and systems integration using embedded microcontrollers, computers and actuators which are increasingly relevant to smart devices and the Internet of Things. In the later parts of the course you can get involved with some challenging research projects such as interfacing satellite navigation systems to mobile robots.

The track record of Lancaster’s Mechatronics graduates shows that in employment they perform a valuable role in coordinating more specialist engineers.

Both of these courses are accredited by the Institution of Mechanical Engineers (IMechE) and the Institution of Engineering and Technology (IET).
Studying English Language, Linguistics or a combination of these subjects at Lancaster offers you the opportunity to learn about the structure, origins and uses of language in a world-class Linguistics department, ranked 19th internationally by the QS World University Rankings, 2017.

Placement year
You will have the opportunity to spend Year 3 doing a placement with a public, private or voluntary organisation. This experience will boost your employment prospects and allow you to apply your academic ideas in practice. Placement applications are competitive so you'll take special preparatory modules and be supported by our team throughout the process to give you the best chance of success. When you return in Year 4 you will complete a reflective portfolio to showcase your experience.

English Language
BA Hons
UCAS code: Q304
Course length: 3 years

English Language (Study Abroad)
BA Hons
UCAS code: Q310
Course length: 3 years (including a year abroad)

Your degree
Taught by academics and scholars highly rated for both teaching and research, this course focuses on the analysis of contemporary and historical English.

The first year of your degree will introduce you to the English language, looking at:
+ How to describe English
+ How English varies
+ How English functions in a variety of contexts

You’ll not only study the traditional linguistic areas of English (eg lexis, grammar, phonetics), but also areas that are often overlooked (eg letters, spellings) and areas that have more recently come to the fore, such as pragmatics and conversation analysis.

You will select from a wide range of optional modules to develop your strengths and interests, and you can choose to spend a year studying in another country, such as the USA, Canada, Australia, Sweden, Switzerland or Germany.

Core modules include
+ English Language
+ English Grammar
+ English Phonetics
+ Corpus-based English Language Studies
+ Advanced English Phonetics
+ Dissertation

Optional modules include
+ Discourse Analysis
+ Forensic Linguistics
+ Language and Pedagogic Practice
+ Language Change in English and Beyond

In your final year, you'll undertake a dissertation research project, which enables you to independently explore a topic that is especially interesting or relevant to your career, with one-to-one supervision from a leading researcher in your chosen field.

English Language in the Media
BA Hons
UCAS code: QP33
Course length: 3 years

English Language in the Media (Study Abroad)
BA Hons
UCAS code: QP3H
Course length: 3 years (including a year abroad)

Your degree
This degree enables you to enrich your understanding of both the contemporary mass media and the English language by studying them alongside each other.

You'll study the structure, history and uses of the English language along with courses on a fascinating array of topics which explore old and new media and its relationship and interaction with language.

If you choose our Study Abroad variant, you can spend your second year studying in another country, such as the USA, Canada, Australia, Sweden, Switzerland or Germany.

Core modules include
+ English Language
+ English Grammar
+ English Phonetics
+ The Language of Advertising
+ Understanding Media
+ Dissertation

Optional modules include
+ Corporate Communication
+ Discourse Analysis
+ Language and Identities
+ Language in the Workplace

Work experience
Paid research internship opportunities over the summer and opportunities to volunteer in a school.
BA Hons
English Language and Linguistics

English Language and Literature
BA Hons
UCAS code: Q302
Course length: 3 years

Your degree

Lancaster’s combined English Language and Literature degree is taught by award-winning teaching and research staff, who’ll help you develop an appreciation of literature through its language. The degree looks at the relationship between a writer’s linguistic choices and the effects these have on the reader. You’ll be introduced to literature from different genres and historical periods and to a range of current approaches in literary theory. You’ll also learn about the structure, history, uses and variation of the English language.

Typical entry requirements

Linguistics
BA Hons
UCAS code: Q100
Course length: 3 years

Linguistics (Study Abroad)
BA Hons
UCAS code: Q102
Course length: 3 years (including a year abroad)

Your degree

This course gives you the opportunity to explore the phenomenon of language, focusing on the sound, grammar and meaning systems of different languages.

Many of the issues addressed by linguistics are of central relevance to our society – for example, the relationship between dialect and social prestige, the challenges and benefits of education in a multilingual environment, and the development of voice recognition technologies.

During your studies, you’ll address intriguing questions, such as how language relates to thought, how a child first acquires language and how our language is similar to and different from social signalling systems used by animals.

You’ll study various aspects of language using a wide variety of methods such as:

+ Computerised study of language
+ Acoustic analysis of sound patterns
+ Analysis of texts, interviews and audiovisual recordings
+ The Theory and Practice of Criticism
+ Stylistics
+ Child Language Acquisition
+ Auditory processing

Core modules include

+ Linguistics
+ Structures of the World’s Languages
+ Sounds of the World’s Languages
+ Cognitive Linguistics
+ Topics in Phonetic and Phonological Theory

Optional modules include

+ Language Origins and Evolution
+ Language and Society
+ Language and Mind
+ Language and Media

You will select from a wide range of optional modules to develop your strengths and interests, and you can choose to spend a year studying in another country, such as the USA, Canada, Australia, Sweden, Switzerland or Germany.

Why we’re right for you...

“...the vast number of skills acquired from two disparate, but complementary, subjects have more than equipped me to apply for jobs in a broad range of professional areas.”

Charlotte Davey, BA Hons English Language and Literature

We have a range of state-of-the-art research facilities, including eye-trackers, EEG systems and a very well-equipped phonetics lab, which includes the ultrasound tongue imaging camera pictured here.

You will be taught by world-leading, inspirational academics, and can tailor your degree to study English Literature on its own, with Creative Writing, or combine either subject with a different subject. Our literary expertise is varied and our Creative Writing academics are published, prize-winning writers whose work includes poetry, novels, short fiction, scripts, literary adaptation, and radio productions.

Your degree
Our English Literature degree provides a thorough grounding in a wide range of authors, genres, historical periods, literary movements, techniques, and critical approaches in its first year, building over the next two years in complexity and depth. Our department has consistently received the highest possible rating in the Teaching Quality Assessment. We offer research-led teaching, with the cutting-edge research of our academics feeding directly into our courses.

Joining high-quality traditional approaches to the subject, we also offer innovative approaches to literary study, including short, intensive introductions to new literary concepts in year one. As you progress through your degree, we encourage you to specialise in theories, genres, and periods that particularly appeal to you. We will also help you develop skills in written and oral presentation, interpretation and analysis that will lead into a range of careers.

English Literature with Creative Writing
BA Hons
UCAS code: Q3W8
Course length: 3 years
Major-minor degree:
75% English Literature
25% Creative Writing

English Literature, Creative Writing and Practice
BA Hons
UCAS code: QW38
Course length: 3 years
Joint major degree:
50% English Literature
50% Creative Writing

Your degree

The study of English Literature offers tools and a context in which to improve your own writing, while the study of Creative Writing offers the practitioner’s perspective on literature. In both schemes, students develop their own writing under the close supervision of published and award-winning authors through practice-based workshops and lectures that address general issues of effective writing and professional development. Assessment for both degree schemes is by portfolio.

In addition to English Literature modules (see Q300 on the previous page), you will take two year-long Creative Writing workshops in your second and third years, in which you will develop your writing with feedback from a published author and other workshop participants.

Joint majors will also have a choice of specialist Creative Writing workshops each year which include:

- Short fiction
- Poetry writing
- Narrative and new media
- Creative non-fiction

Develop your entrepreneurial skills with our multi-dimensional programmes, paving the way for a successful career, whether in creating a new business venture or working entrepreneurially in an organisation.

**Why we’re right for you...**

“I thoroughly enjoyed studying Entrepreneurship at Lancaster. Each year there were some really fun and challenging modules we were able to take. All modules combined theory with real-life business examples by bringing in relevant business people.”

Oliver Monks

Upon graduating you will have the skills and experiences that will not only give you the confidence to start your own business, but will make you stand out when applying for jobs with graduate employers.

On the four-year course you will be able to choose between spending your third year in industry, or studying abroad at a partner university or a combination of both. This additional year will enable you to gain invaluable experience that will boost your future career prospects.

Entrepreneurship and Management graduates have found success with graduate employers, in small and medium-sized businesses, entering their family business, and also in launching their own ventures.

**Examples of the modules on offer** (see website for further details)

- **First year**
  - Entrepreneurship: Key Debates and Concepts
  - Introduction to Management
- **Second year**
  - Innovation Challenge
  - Entrepreneurial Mindset
  - New Venture Creation
- **Final year**
  - Entrepreneurship Challenge
  - Business Model Innovation
  - Building and Leading Entrepreneurial Teams

**Future careers**

- Digital start-ups
- Innovators in large organisations
- Business consultancy
- Government and social enterprises

**Placements**

Previous students have secured placements in companies including:

- TNT
- Coty
- Aldi
- Coty
- TNT
- Meanwhile Creative
- National School Football Association
- Goldman Sachs

**Outside the classroom**

You will be able to enter entrepreneurial competitions to attract funding, resources, mentoring and support.

**Typical entry requirements**

(See website for full details)

**For BTEC and IB Diploma equivalents please see page 54.**

**Required subjects**

GCSE Mathematics grade B or 6, GCSE English Language grade B or 6.

**Entrepreneurship and Management**

**BSc Hons**

UCAS code: N1N2

Course length: 3 years

**Entrepreneurship and Management (Study Abroad/Industry)**

**BSc Hons**

UCAS code: N222

Course length: 4 years

**Your degree**

The world is continually changing and every business, small or large, needs people with entrepreneurial skills and behaviours.

The BSc Entrepreneurship and Management degree is designed to prepare you to think and act entrepreneurially, whether in the context of large organisations, in small and growing companies, or in starting a new venture. Learning about entrepreneurship is about taking a different approach to your personal and career aspirations and empowering you to make things happen, as well as being resilient to the challenges you may face.

Our Entrepreneurship and Management degrees are different to other Management degrees. They offer the opportunity to build entrepreneurial skills such as creativity, opportunity recognition, sales, finance, entrepreneurial leadership and effective communication. Drawing on world-leading theories for teaching entrepreneurship, you will develop an entrepreneurial mindset through being exposed to the challenges of entrepreneurial projects that involve taking responsibility for creating new ideas, gathering resources and delivering solutions that meet customers’ needs.

In addition, you will have the opportunity to engage with our large base of Entrepreneurs in Residence and leading global business figures, as well as one of the largest teams of top-class scholars in the fields of entrepreneurship and innovation.

Film Studies
BA Hons
UCAS code: P303
Course length: 3 years

Your degree
At Lancaster, Film Studies is primarily an academically focused programme with opportunities for you to make your own digital films throughout your studies. We have excellent digital editing and filmmaking resources.

During your studies you will examine the aesthetic, social and political importance of cinema in the context of an increasingly visual and media-oriented culture, while also investigating the intersections between contemporary art, theatre, sound and film.

The first year serves as a foundation for your studies where you will be introduced to a range of key critical approaches. You will explore the key areas of cinema history, including seminal films (from Rear Window to Jaws), filmmakers (such as Alfred Hitchcock and Jane Campion), and actors (such as Marlon Brando and Bette Davis) and you will produce a short digital video.

In years two and three you can choose to focus solely on Film-based modules or take options from other disciplines in the Lancaster Institute for Contemporary Arts: Art, Design, and Theatre. Work-related modules enable you to expand your network of contacts, influences and experience. As well as thriving student film societies and local multiplex and independent cinemas, Lancaster has strong links to film and television companies in Manchester and Liverpool as well as nationally and internationally.

Examples of the modules on offer
(see website for further details)

First year
+ Introduction to Film Studies
+ Modernism in the Arts
Second year
+ Film and Comic Books
+ Documentary Cultures
+ Women Filmmakers
Third year
+ Film Theory
+ Contemporary Hong Kong Cinema
+ Cultural History of American Film
+ New Hollywood Cinema
+ Silent Cinema
+ Dissertation

Typical entry requirements
(See website for full details)

Required subjects
The following subjects are considered desirable but not essential by the department:
Film, Media and other humanities subjects.

Foundation Year for Medicine and Surgery

Lancaster’s Foundation Year for Medicine and Surgery provides an opportunity for entry into medical education for intellectually-able individuals who are not eligible to apply for direct entry to the Medicine and Surgery (A100) programme.

Why we’re right for you...
“Lancaster has given me the opportunity of making my dream come true; my dream of becoming a doctor. After an intellectually challenging year at Lancaster University I have both the necessary skills and the courage to make my dream happen.”
Africa Bocos Robles

Did you know?

Foundation Year for Medicine and Surgery
Cert HE
UCAS code: A900
Course length: 1 year

Your degree
The Foundation Year for Medicine and Surgery is a one-year course designed to prepare you for successful progression onto the medical degree programme. The course will equip you with the intellectual and practical skills to enable you to undertake further study. On successful completion of the Foundation Year, you will progress onto Year 1 of the medical degree programme, but you will also be eligible for direct second-year entry to certain Bioscience degrees at Lancaster.

Flexible admission
Our qualifications criteria are flexible and evaluated on a case-by-case basis. We aim to select candidates based on potential and suitability for medical training.

Selection
Selection for interview is based on your record of previous academic achievements, your Biomedical Admissions Test (BMAT) score and other detailed information on your UCAS application. You may be asked to provide documentary evidence to demonstrate that you fulfil the eligibility criteria. Evidence of healthcare experience and people skills – in the NHS or a care setting, for example – will be required. The interview process at Lancaster Medical School consists of multiple mini interviews (MMI). Please see the website for more details.

Future careers
- Clinical practice - requires further training
- Public health
- Medical research

Application deadline
The deadline for applications to the Foundation Year to Medicine and Surgery is 15th October

Eligibility
Candidates who are not predicted AAA in their A levels, but attend a school whose A level results are below average for state-funded schools in England or who meet certain widening participation criteria, such as living in an area where a low proportion of school leavers go onto higher education; being from a low income family; or being the first in family to attend university.

For a full list of compulsory and optional modules:
www.lancaster.ac.uk/ugcourses

Modules include
(see website for further details)
- Anatomy and Tissue Structure
- Introduction to Biomedical Science
- Genetics
- Hormones and Development
- Infection and Immunity
- Human Physiology
Study the challenges facing the environment with our degree schemes covering both human and physical geography.

BA Honours
UCAS code: L720
Course length: 3 years

Human Geography
(Study Abroad)
BA Honours
UCAS code: L721
Course length: 3 years
(including a year abroad)

Your degree

Human geography is a social science concerned with the actions, interactions and spatial patterns of people and their communities. It enables you to focus on diverse areas including environmental, cultural and political geography.

Modules available include
(see website for further details)
- Environment and Society
- Africa: Geographies of Transformation
- Development, Geography and the Majority World
- Urban Infrastructure in a Changing World
- Geographies of Health
- Food and Agriculture in the 21st Century

This degree will enhance your ability to think deeply and critically about political and social relations, and how they permeate the places and spaces in which we live our lives. You will also be offered the chance to build practical skills and experience through placements, in the UK or abroad. The degree combines lectures with tutorials, fieldwork and a dissertation.
BA Hons History

Our highly-rated and vibrant History department offers a wide variety of modules, ranging from ancient to modern, and the histories of Europe, Asia and the Americas. Through our innovative heritage placement programme there are opportunities to undertake work experience with, for example, the National Trust and The Duchy of Lancaster.

Why we’re right for you...
“I currently have a Distribution Management graduate job with Tesco. The knowledge I gained from learning reflective portfolio to showcase your experience. This experience will boost your employment prospects placement with a public, private or voluntary organisation.

In your second and third years you can diversify or specialise your field of study with optional modules from 800 BC to the 20th century across:
+ Britain
+ Europe
+ America
+ Asia
+ The Middle East

#5 for History Guardian University Guide

Placement year
You will have the opportunity to spend Year 3 doing a placement with a public, private or voluntary organisation. This experience will boost your employment prospects and allow you to apply your academic ideas in practice. Placement applications are competitive so you’ll take special preparatory modules and be supported by our team throughout the process to give you the best chance of success. When you return in Year 4 you will complete a reflective portfolio to showcase your experience.

If you gain a placement you will have the opportunity to undertake work experience abroad or undertake a placement year abroad.

Course length: 3 years

BA Hons History
UCAS code: V100

Optional modules include:
+ The Third Reich and Film
+ Gandhi and the End of Empire in India
+ The United States and the Vietnam War

We encourage you to take modules from other disciplines to explore the links between history and other subjects, such as languages, literature, politics, philosophy or religion.

History

Your degree
Our History degree will develop your critical abilities within a vibrant department of like-minded students, tutors and expert scholars. You will learn how historians continually shape history through fresh interpretations of the past and develop your own skills as a historian.

The first year of the programme covers major themes and events from Ancient Greece to the present day, looking at how historians:
+ Use primary sources
+ Conduct research
+ Interpret the past

In your second and third years you can diversify or specialise your field of study with optional modules from 800 BC to the 20th century across:
+ Britain
+ Europe
+ America
+ Asia
+ The Middle East

Study abroad
You can study abroad at one of our exchange partners or go on an overseas trip during the vacation. Further information can be found at www.lancaster.ac.uk/globalexperience

120
These degrees explore how the decisions and actions taken by organisations affect the quality of life in many areas of society today. To do so, they bring insights from many different disciplines, including psychology, history and sociology.

Future careers

- Human resource management
- Organisational development
- Management consultancy
- Business management
- Media and PR

Your degree

Our degrees offer you a wide-ranging programme studying management theory alongside psychology, sociology and history. The teaching approach blends academic material with practical insights and exercises, enabling a critical understanding of the complex world of work and organisations.

The Management and Organisational Behaviour degree enables you to explore many areas of organisational life. This includes how people are managed in organisations, the different approaches to people management and an examination of how organisational actions affect life in contemporary societies.

On the Management and Human Resources degrees, you will focus on understanding people – the way they work and how their behaviour can be influenced through people management practices.

Both degrees offer a high level of flexibility as you are able to choose options from across the University throughout the duration of your degree. This provides an exciting opportunity to develop your own specialist areas of interest alongside the foundations of a Management degree.

Modern Languages
BA Hons
UCAS code: R800
Course length: 4 years (including a year abroad)

Your degree
Lancaster’s Modern Languages degree gives you the opportunity to study three languages from a choice of French, German, Spanish, Italian or Chinese. On this degree you’ll focus on developing fluency and understanding in all three languages alongside exploring the culture and history of your chosen countries.

If you are studying French, German and Spanish, you may choose to drop one of the three languages at the end of the second year.

We offer both advanced courses for those studying from A level and intensive courses for beginners. We normally require you to have a good A level in at least two of the languages, while the third language can be studied from beginners’ or post-GCSE level.

Please note that Chinese and Italian can only be taken as beginners’ languages, while the third language can be studied from beginners’ or post-GCSE level.

Core modules include
+ Oral and Written Language
+ Shaping Contemporary France: Culture, Politics and the Legacy of History
+ Power and Resistance in Spain and Spanish America
+ Post-War German-Language, Culture and Identities

Optional modules include
+ Understanding Dictatorship and its Cultural Representation in the Twentieth Century
+ Cross-Cultural Encounters in World Literatures
+ Mirrors Across Media: Reflexivity in Literature, Film, Comics and Video Games

Why we’re right for you...
“...you buy too many croissants or you’re becoming one of the locals.”
Helen Parkinson, French and German Graduate

Typical entry requirements
Modern Languages
A level: ABB
For BTEC and IB Diploma equivalents please see page 54.

Required subjects
A levels in two of the languages to be studied (or one A level plus one AS level)

Modern Languages and Cultures
MLang Hons
UCAS code: R810
Course length: 4 years (including a year abroad)

Your degree
The MLang degree allows you to pursue the advanced study of one or two languages alongside a broad range of specialist related culture modules. It is a selective and accelerated four-year degree with an integrated MA, allowing you to achieve an MA qualification in four years.

Spending your second year at one of our partner institutions will make a major contribution to your command of the language(s) you are specialising in and it will deepen your intercultural awareness and competence.

You finish your BA in your third year and continue into your fourth year studying Masters level modules designed to enhance your theoretical knowledge and to develop your critical skills. This can open up many career pathways or prepare you for doctoral research.

First year
+ Advanced French, German or Spanish

Second year
+ Year abroad at a partner institution

Third year
+ Dissertation
+ Witchcraft, Heresy, and Inquisition: The Prosecution of ‘Otherness’ in Europe (14th-17th c.)
+ Imagining Modern Europe: Post-Revolutionary Utopias and Ideologies in the First Half of the 19th Century
+ Translation as a Cultural Practice

Fourth year
+ Researched Dissertation
+ Research Skills for Modern Linguists
+ Reading Theoretically

Typical entry requirements
Modern Languages and Cultures
A level: AAB
For BTEC and IB Diploma equivalents please see page 54.

Required subjects
A level in one or two of the languages to be studied.

Examples of the modules on offer (see website for further details)
First year
+ Advanced French, German or Spanish

Second year

+ Translation as a Cultural Practice

Fourth year
+ Researched Dissertation
+ Research Skills for Modern Linguists
+ Reading Theoretically

Year abroad
With all courses you will spend a year abroad in one or two countries where your main languages of study are spoken, either:
+ As a salaried English language assistant in a school
+ On a work placement
+ Studying at one of our partner universities

This year abroad makes a major contribution to your command of the language, while deepening your intercultural sensitivity.

Law

LLB Hons

UCAS code: M100

Course length: 3 years

Law (Study Abroad)

LLB Hons

UCAS code: M101

Course length: 4 years (including a year abroad)

Law (International Law)

LLB Hons

UCAS code: M102

Course length: 3 years

Your degree

Lancaster’s Law degree allows you to develop a comprehensive understanding of the fundamental topics needed for a legal career, and will give you vital legal and employability skills.

You’ll specialise your field of study to pursue your own professional interests through an extensive list of optional modules, with some covering technical legal topics and others exploring the relationship between law and society.

There are opportunities to spend Year 3 doing a placement, with a public, private or voluntary organisation with this degree, which will extend it to 4 years.

Degree pathways

Students on our LLB Law degree can choose to follow one of three pathways to build up their expertise in a focused area of law:

+ Criminal Law and Justice
+ Commercial Law
+ Human Rights

Students who choose to follow a pathway will have this recognised on their degree transcripts and certificates.

Core modules

+ English Legal System and Methods
+ Public Law
+ Criminal Law
+ Contract Law
+ EU Law
+ Law of Torts
+ Land Law
+ Equity and Trusts Law

Optional modules include

+ Company Law
+ Health Care Law and Ethics
+ International Human Rights
+ Family Law
+ Company Law

Future careers

+ Barrister
+ Solicitor
+ Civil service
+ Academic research
+ Media and communications
+ Business and management

For more information please visit www.lancaster.ac.uk

- **First year:**
  - Introduction to Management
  - Introduction to Business
  - Analytics
  - Introduction to Marketing

- **Second year:**
  - Management Accounting for Business Decisions
  - Management and Consulting Practice and Critique
  - Human Resource Management
  - Macro/Microeconomics

- **Third year:**
  - Industrial Placement

- **Fourth year:**
  - Strategic Management
  - Ethical Responsibility in Business
  - Dissertation

**Typical entry requirements**

(See website for full details)

- **Business Administration BBA Honours (Study Abroad):** AAAB
- **Required subjects:** GCSE Mathematics grade B or 6, GCSE English Language grade B or 6.

**Future careers**

- Management and consultancy
- Banking
- Sales and marketing
- Financial analysis
- Graduate management programmes

**Why Lancaster**

Students successfully completing the BBA programmes N200 and N201 will automatically achieve a Chartered Management Institute Level 7 qualification in addition to a degree.

**Something extra...**

You may also be interested in our Entrepreneurship, Human Resources or Organisational Behaviour degrees.

Did you know?

- Paid industrial placement in your third year of the BBA
- 90% of our UK graduates on Management degrees in 2016 were in graduate employment or further study within six months of graduation

**Business Administration**

**BBA Honours (Study Abroad)**

**UCAS code:** N201

**Course length:** 4 years (including a year abroad)

**Your degree**

Studying the BBA at Lancaster University offers you the opportunity to study a wide range of relevant subjects, providing you with a complete understanding of what is needed to work in business. Alongside this, you will spend your third year on an industrial placement.

A key focus of the course is the development of essential managerial skills such as:

- Team work
- Leadership
- Problem solving
- Effective communication

You will also put your learning into practice in a team project for a local business in your second year, where you will look at a real issue and provide recommendations to the organisation.

If you choose the Study Abroad degree, you will spend the second year of your course undertaking similar modules at one of our partner universities, allowing you to gain an international perspective.

In the final year you apply your knowledge to a strategic management simulation exercise where your team is in charge of an airline company, providing you with experience of running a business.

**Future careers**

Many graduates have successfully secured positions with a variety of blue-chip companies including:

- IBM
- Deloitte.

Completing an industrial placement has helped many of our graduates to secure positions with top employers.

Course length: 4 years (including 2 years abroad)

You can choose to study French, German or Spanish at an advanced level or beginners’ level, or Italian as a beginner. We offer plenty of support to help new language learners to get up to speed. If you choose to take the North America variant, you will study politics in your first two years at Lancaster to align with the US curriculum and to broaden your knowledge base.

The curriculum in years three and four will vary slightly depending on which partner university you choose to study at. However, in general, students look at areas such as HR management, ethics, and strategy, and will complete a dissertation. The course will be taught in the local language of the partner institution you choose, allowing you to experience the culture of the country.

You will undertake four months of work experience in the partner country during your third or fourth year, enhancing your attractiveness to prospective employers.

Why we’re right for you...

On the innovative International Business Management double degree you will be a student of two universities, gaining two degrees, alongside work experience in two countries and boost your language skills – but paying only one set of fees.

Your degree
You will receive an excellent grounding in all areas of Marketing, including understanding consumer behaviour and the role and importance of market research and analysis. You will learn about Marketing as a management function and develop your knowledge of strategic marketing planning.

On our three-year Marketing degrees, you will carry out market research projects with ‘live’ clients – including international brands, charities and local companies – to develop your professional consulting abilities.

Examples of the modules on offer
(see website for further details)
First year
+ Introduction to Marketing
+ Marketing Learning Community
Second year
+ Marketing Simulation
+ Consumer Behaviour
+ Routes to Market
+ Digital Marketing
Final year
+ Strategic Marketing
+ Global Marketing Management
+ Marketing Research and Consultancy Project
+ Brand Strategy

Marketing
BSc Hons
UCAS code: N500
Course length: 3 years

Marketing (Study Abroad)
BSc Hons
UCAS code: N502
Course length: 3 years (including a year abroad)

Your degree
As well as gaining excellent insight into all aspects of the Marketing discipline, you will undertake an industrial placement and will use that experience, alongside your academic studies, to improve your understanding of management in practice.

In previous years, students have secured placements with multinational companies, allowing them to make a distinctive addition to their CV. Through guided learning in your final year, you reflect on your real-world experience and use this in developing a portfolio of professional practice.

Graduates have gone on to positions as Marketing Executives, Marketing Management trainees and Management and Marketing Officers, often within multinational companies such as Microsoft, Volvo and Johnson & Johnson.

**Did you know?**

- Joint 9th for Mathematics
- #5 in the UK for research
- Graduate level work experience with our Placement Year
- Study abroad

**Mathematics and Statistics**

Lancaster’s degrees in Mathematics and Statistics are flexible, allowing you to specialise in the field of study most relevant to you across the disciplines of algebra, analysis, probability and statistics in a growing department with a strong international reputation.

**Mathematics/Statistics/ Mathematics with Statistics**

- **BSc Hons**
  - UCAS code: G100, G300, G1G3
  - Course length: 3 years

- **Mathematics/Statistics/ Mathematics with Statistics**
  - **MSci Hons**
  - UCAS code: G101, G301, G1GJ
  - Course length: 4 years

- **Mathematics (Study Abroad)/ Statistics (Study Abroad)/ Mathematics with Statistics (Study Abroad)**
  - **MSci Hons**
  - UCAS code: G103, G303, G1GH
  - Course length: 4 years (including a year abroad)

- **Mathematics (Placement Year)**
  - **BSc Hons**
  - UCAS code: G102
  - Course length: 4 years

**Your degree**

- Problem solving skills lie at the heart of mathematics. From your first week, you will take part in regular classes to develop problem solving and teamwork skills, ensuring that you are a highly competent graduate valued by employers. Our degrees include training in:
  - Report writing
  - Mathematical computing
  - Presentation skills

In addition, final year MSci students write a dissertation in either pure mathematics or statistics, under the supervision of an active researcher in the field. There is also the option of writing this dissertation as part of a collaborative project with industry.

Our ten single-honours degrees share a common core for the first two years and build foundations for further study in:

- Algebra
- Analysis
- Probability
- Statistics

**Mathematics/Statistics/ Mathematics with Statistics**

- **BSc Hons**
  - UCAS code: G100, G300, G1G3
  - Course length: 3 years

- **Mathematics/Statistics/ Mathematics with Statistics**
  - **MSci Hons**
  - UCAS code: G101, G301, G1GJ
  - Course length: 4 years

For BTEC and IB Diploma equivalents please see page 54.

**Required subjects**

- A level Mathematics grade A.

**Typical entry requirements**

(See website for full details)

**Mathematics and Statistics**

- A level: AAA including Mathematics or AAB including Mathematics and Further Mathematics
- For IB Diploma: 34 points
- For BTEC: Merit in Extended Diploma

**STEP Mathematics**

- Grade reduction.
- We offer flexibility and therefore, up until the end of your second year, you can choose whether you wish to complete either a three year BSc Hons, or a four year MSci, specialising in either pure mathematics or statistics, or taking a combination of the two.

**Pure Mathematics**

- Excellent international reputation
- Active research groups in:
  - Linear analysis
  - Classical and quantum probability
  - Representation theory and Lie algebras
  - Geometric rigidity

**Statistics**

- Development of new statistical methods of scientific and practical importance
- Strong interaction with research users
- Active research groups in:
  - Computational statistics
  - Extreme value theory
  - Medical statistics

**Accreditation**

Our single-honours degrees are accredited by the Royal Statistical Society (RSS) and the Institute for Mathematics and its Implications (IMA).

All graduates are eligible for Graduate Statistician Status. Our combined programmes in conjunction with Lancaster Management School grant you exemption from the probability and statistics exam of the Institute and Faculty of Actuaries (IFoA).

**Combinations**

- Accounting, Finance and Mathematics ( Placement Year) / Accounting, Finance and Mathematics Industry / Accounting, Finance and Mathematics Industry Placement Year
- Computer Science and Mathematics
- Computer Science and Mathematics Industry
- Computer Science and Mathematics Industry Placement Year
- Economics and Mathematics
- Economics and Mathematics ( Placement Year) / Economics and Mathematics Industry
- Economics and Mathematics Industry Placement Year
- French Studies and Mathematics
- Foreign Studies and Mathematics Industry
- German Studies and Mathematics
- German Studies and Mathematics Industry
- Mathematics and Philosophy
- Mathematics and Philosophy Industry
- Theoretical Physics and Mathematics
- Theoretical Physics and Mathematics Industry
- Theoretical Physics and Mathematics Industry Placement Year

**For the entry requirements for these courses please see the index.**

**Did you know?**

- A level Mathematics grade A.

Financial Mathematics
UCAS code: GN13
Course length: 3 years

Financial Mathematics
MSci Hons
UCAS code: GN1H
Course length: 4 years

Financial Mathematics (Industry)
BSc Hons
UCAS code: GN1J
Course length: 4 years

BSc Hons/MSci Hons
Mathematics and Statistics

**Typical entry requirements**
(See website for full details)

**Financial Mathematics**
- A level: AAA including Mathematics or AAB including Mathematics and Further Mathematics
- For BTEC and IB Diploma equivalents please see page 54.

**BSc Hons**
**Mathematics, Operational Research, Statistics and Economics (MORSE)**
- UCAS code: GLN0
- Course length: 3 years

- Required subjects
  - A level: AAA including Mathematics or AAB including Mathematics and Further Mathematics

**MSci Hons**
**Mathematics, Operational Research, Statistics and Economics (MORSE) (Industry)**
- UCAS code: GLN1
- Course length: 4 years

- Required subjects
  - A level Mathematics grade A.

**Examples of the modules on offer**
(see website for further details)

**First year**
- Introduction to Accounting and Finance
- Discrete Mathematics
- Probability

**Second year**
- Advanced Principles of Finance
- Introduction to Economics for Managers
- Real Analysis

**Third year**
- Corporate Finance
- Probability Theory
- Stochastic Processes

**Fourth year**
- Dissertation
- Assessing Financial Risk
- Derivatives Pricing

**Placement year**
- Several of our programmes have a placement year/industry pathway which will give you the opportunity to undertake a one year, full-time work placement. There are a wide range of options available to mathematics and statistics students in a variety of sectors. We will support you throughout the process to ensure you get the most out of your placement experience.

**Future careers**
- Software engineer
- Teacher
- Accountant
- Biostatistician
- Civil servant
- Risk analyst
- Statistical officer
- Quantitative analyst
- Actuary
- Data scientist
- Economist
- Financial consultant

**Your degree**
Our MORSE scheme is specifically designed for numerate students wishing to pursue careers in industry, commerce, finance and the public sector. It provides knowledge and key skills in areas that are in great demand and emphasises the application of those ideas in the real world. The programme equips you with competencies in a variety of quantitative and analytical subjects. Creating strong foundations in mathematics, operations research, statistics and economics in the first year of study, the programme then allows you to tailor your personal programme, whether this is by developing your knowledge in all areas or specialising in those topics that you see as most relevant to your future career. These might be in pure mathematics, statistics, business analytics, economics or management topics.

Tutored by experts in our Departments of Mathematics and Statistics, Economics, and Management Science, the programme offers a wide range of choice for students, all of which focus on applying mathematical knowledge and theory in a practical context.

Medicine

Your degree
Our five-year undergraduate medical degree programme will equip you with the skills, knowledge, values and attitudes to prepare you for modern medical practice and to deliver excellent patient care in your future clinical careers.

Examples of the modules on offer:
(see website for further details)

First year
- Problem-Based Learning
- Clinical Anatomy
- Clinical Skills Training
- Communication for Medical Practice

Second year
- Clinical Anatomy
- Hospital Placement (2 days per week)
- Community Placement

Third year
- Women and Children
- Care of the Elderly
- Managing Long-Term Conditions
- Therapeutics and Sexual Health
- Community Mental Health

Fourth year
- Hospital Placement (3 days per week)
- General Practice (1 day per week)
- Acute Adult Care
- Palliative Care
- Obstetrics and Gynaecology
- Psychiatry

Fifth year
- Acute Care
- Community Placement
- Shadowing an FY1 doctor
- Selectives in Advanced Medical Practice

You can also pursue your own areas of interest through Special Study Modules that broaden your experience and develop skills that are essential for applying scientific rigour in your future medical practice.

You can also choose to study abroad during your Elective (at the end of year 4) or take a year out from the programme (between years 4 and 5) to study a medicine-related topic at BSc, MSc or MPhil level.

Future careers
- Clinical practice – requires further postgraduate training
- Public health
- Medical research

Typical entry requirements
(See website for full details)

Medicine
A level: A*AA–AAA
IB Diploma: Biology, Chemistry and one other at Higher Level (6, 6, 6 points), plus 3 subjects at SL (6, 5, 5 points) minimum points score 36
BTEC: Not accepted as preparation for this degree programme.

Required subjects
A level Biology and Chemistry, both at grade A.

GCSE: Minimum score of 15 points from 9 subjects (A or A* = 2 points; B = 1 point; for reformed GCSEs; grades 7–9 = 2 points; grade 6 = 1 point). The 9 subjects must include Core and Additional Science (or Biology, Chemistry and Physical), Maths and English (grade B or above).

English language proficiency: If you are applying from outside the UK or if English is not your first language, you must demonstrate proficiency in English through either IELTS (Academic, at least 7.0 in each component) or the Pearson PTE Academic qualification (at least 70 in each component) BEFORE applying.

Selection: Selection for interview is based on your record of previous academic achievements, your Biomedical Admissions Test (BMAT) score and other detailed information on your UCAS application. Evidence of healthcare experience and people skills – in the NHS or a care setting, for example – will be required. The interview process at Lancaster Medical School consists of multiple mini interviews (MMI).

Please see the website for more details.

Many recent breakthroughs in science and technology have been the result of interdisciplinary collaborations. Natural Sciences is a challenging degree that allows you to study across all scientific disciplines, and our pathways allow you to customise your degree to suit your interests and career aspirations.

Natural Sciences

BSc Hons
UCAS code: GFC0
Course length: 3 years

MSci Hons
UCAS code: CFG0
Course length: 4 years (including a year abroad)

Natural Sciences
BSc Hons
UCAS code: GFC0
Course length: 3 years

MSci Hons
UCAS code: CFG0
Course length: 4 years (including a year abroad)

Natural Sciences
BSc Hons
UCAS code: GFC0
Course length: 3 years

MSci Hons
UCAS code: CFG0
Course length: 4 years (including a year abroad)

Future careers

- Scientific research and development
- Environmental consultancy
- Management
- Meteorology
- Computing and data science
- Chemicals industry
- Pharmaceutical industry and life sciences
- Finance and statistical forecasting
- Forensic science
- Academia
- Further study

Did you know?
Our degrees were established in 1987, making them one of the longest running Natural Sciences programmes in the country.
The technical and practical skills that you gain can be transferred across many industries.

Natural Sciences

BSc Hons
UCAS code: GFC0
Course length: 3 years

MSci Hons
UCAS code: CFG0
Course length: 4 years (including a year abroad)

Typical entry requirements

(See website for full details)

- Engineering (Electronic and Mechanical)
- Environmental Science
- Mathematics
- Physics
- Psychology
- Plus a wide range of humanities and social sciences

At the end of your first year, you can continue studying all three subjects – selecting the part of each single honours degree scheme that suits your abilities and ambitions. Alternatively, you can drop one subject and continue with a two subject degree.

In your second year you will begin to specialise in your chosen subjects selecting modules from a series of pathways. On the BSc programme, you continue into your third and final year studying the subjects you chose in your second year.

On our Study Abroad degrees you have the opportunity of spending one year of your course studying at one of our partner universities in North America, Australia or New Zealand. Our four-year MSci course is designed for students seeking a career in research and development and contains higher level courses plus a major research project. This could be in a single subject, but could be an interdisciplinary project spanning two of our science departments.
Studying Philosophy at Lancaster gives you the opportunity to learn about and debate important philosophical questions with expert academics, and also to apply philosophical methods to contemporary ethical, social and political problems.

Your degree
During your studies you will approach challenging questions through the history of philosophy, studying figures such as Plato, Descartes, Kant and Nietzsche, and also via contemporary philosophical debate. Studying philosophy at Lancaster is not simply a matter of learning about philosophy – we encourage you to develop your own critical perspective on philosophical problems and questions. You’ll also develop analytical skills that will help you to think creatively and self-critically; skills which are highly valued by employers.

Our philosophy degree programmes are very flexible. After your first year you choose from a wide range of optional modules across philosophy and other disciplines to design a programme tailored to your own interests.

Examples of the modules on offer (see website for further details)
First year
+ Introduction to Philosophy
+ Ethics, Philosophy and Religion
Second year
+ Philosophy of the Mind
+ Philosophy of Science
+ Ethics: Theory and Practice
Third year
+ Continental Philosophy
+ History of Twentieth Century Philosophy
+ Logic and Language

Future careers
+ Teaching
+ Journalism
+ Government
+ Academic research
+ NGOs
+ Civil service

Placement year
You will have the opportunity to spend Year 3 doing a placement with a public, private or voluntary organisation. This experience will boost your employment prospects and allow you to apply your academic ideas in practice. Placement applications are competitive so you’ll take special preparatory modules and be supported by our team throughout the process to give you the best chance of success. When you return in Year 4 you will complete a reflective portfolio to showcase your experience.

BSc Hons/MPhys Hons/MSci Hons

Physics

Lancaster’s Physics degrees are recognised for providing an outstanding physics education combining fundamental concepts with cutting-edge topics.

Typical entry requirements
(See website for full details)

- Physics (BSc)
  - UCAS code: F300
  - Course length: 3 years

- Physics (MPhys)
  - UCAS code: F303
  - Course length: 4 years

- Physics (Study Abroad)
  - UCAS code: F305
  - Course length: 4 years (including a year abroad)

Your degree

Physics is an exciting subject that is fundamental to developments in modern society. Applications of the subject range from the very pure to the very practical.

Our Physics degree equips you with a broad conceptual and practical working knowledge of physics, along with key transferable skills such as logical thinking, problem solving, numeracy and computer literacy. This enables you to embark on a wide variety of career paths.

For BTEC and IB Diploma equivalents please see page 54.

Required subjects
A level: Mathematics grade A and Physics grade A.

Examples of recent projects include:
- Vortices in superfluids
- Single photon photodiodes
- Nanoscale probe microscopy of graphene
- Experimental quantum technologies
- Nanomechanical resonators

Examples of the modules on offer
(see website for further details)

First year
- Quantum Physics
- Electromagnetism
- Classical Mechanics

Second year
- Quantum Mechanics
- Relativity, Nuclei and Particles
- Scientific Programming and Modelling Project

Third year
- Particle Physics
- Atomic Physics
- Condensed Matter Physics

Optional modules include
- Quantum Computation
- Matter at Low Temperatures
- Space Physics

Flexibility

All our single honours physics courses are flexible and follow a common first year. This allows you to transfer between our MPhys and BSc courses as long as academic prerequisites are met.

BSc or MPhys/MSci

If you are considering postgraduate entry to a research degree, we recommend a MPhys/MSci degree programme as the final-year project you undertake can lead into research.

Study abroad

You can spend the third year of our MPhys/MSci degrees at a partner university in Australia, the USA, Canada or Europe.

Examples of recent projects include:
- Binary variable stars
- Cosmic radio noise
- Gravitational waves
- Cosmic inflation
- Galaxy evolution
- Observational tests of Dark Energy
- Space weather

Flexible degree

All our single honours physics courses are flexible and follow a common first year. This allows you to transfer between our MPhys and BSc courses as long as academic prerequisites are met.

BSc or MPhys/MSci

If you are considering postgraduate entry to a research degree, we recommend a MPhys/MSci degree programme as the final-year project you undertake can lead into research.

Physics with Particle Physics and Cosmology (BSc)
Theoretical Physics (BSc)
A level: AAA

Physics with Particle Physics and Cosmology (MPhys)
Theoretical Physics (MPhys)
A level: AAB

---

Examples of the modules on offer *(see website for further details)*

**First year**
- Quantum Physics
- Electromagnetism
- Classical Mechanics

**Second year**
- Particle Physics
- Atomic Physics

**Third year**
- Quantum Information
- Advanced Gravity and Relativity
- Advanced Magnetism

---

**Your degree**

Lancaster’s particle physicists work with state-of-the-art particle accelerators to investigate and identify the nature of space and time. Our resident astrophysicists and cosmologists employ all of their creative and mathematical abilities to explain the early history of the universe in a way that complements and supports observational and experimental data.

In the final year of the MPhys programme, you’ll have access to experimental data from the Large Hadron Collider at CERN and the T2K neutrino experiment in Japan. You will also carry out an extended investigative project in an area that interests you.

Recent project topics include:
- Cosmology
- The Higgs Boson
- Quarkonium
- Neutrino oscillations
- Particle detector technology

---

**Theoretical Physics**
*BSc Hons*
UCAS code: F340
Course length: 3 years

**Theoretical Physics**
*MPhys Hons*
UCAS code: F321
Course length: 4 years

---

**Did you know?**

In the final year of our four-year MPhys course you can choose from a range of topics for your extended project including:
- Metamaterials and cloaking
- Quantum computation
- Physics of graphene
- Photonic crystals

---

**We’re well connected**

We have fantastic relationships with these world-leading organisations:
- CERN
- Fermilab
- T2K
- SNOLAB
- European Space Agency
- NASA
- European Southern Observatory

---

**Future careers**

- Postgraduate study
- Scientific research
- Technological consultancy
- Management consultancy
- Nuclear physicist
- Research and development
- Medical physicist
- Teaching
- Postgraduate study

BA Hons
Politics and International Relations

Studying Politics and International Relations at Lancaster gives you the opportunity to explore issues and events that are shaping the modern world while developing your skills in research, analysis and communication.

Why we’re right for you...
"[The course] allowed me to expand my horizons by interacting with different people, develop interpersonal and communication skills and also gain independence and confidence."
Li Mengting, BA Hons Politics and International Relations

Politics BA Hons
UCAS code: L200
Course length: 3 years

Politics (Study Abroad) BA Hons
UCAS code: L201
Course length: 3 years (including a year abroad)

Politics (Placement Year) BA Hons
UCAS code: L202
Course length: 4 years

Your degree
This degree explores the themes, concepts and events that have shaped the contemporary political scene, and you can analyse themes such as:
+ War and peace
+ Poverty and inequality
+ Order and justice
+ Governance and power
You’ll learn from academics committed to both teaching and research and will increasingly specialise through an extensive range of modules which focus on topical questions concerning government and politics in Britain, Europe and the world.

Politics and International Relations

Typical entry requirements
(See website for full details)

Politics/Politics (Placement Year)
A level: ABB

International Relations
BA Hons
UCAS code: L201
Course length: 3 years

Your degree
This degree will give you a strong grounding in understanding the forces that shape the political relations between nations and the involvement of non-state powers in the world today. You can study the Middle East, India, China and the Far East, Africa, the EU and the USA.

Degrees at Lancaster are flexible, and after your first year you’ll be able to design your own degree, choosing from a wide range of optional modules in the field of International Relations, such as Global Danger and External Intervention in Violent Conflicts.

For BTEC and IB Diploma equivalents please see page 54.

International Relations BA Hons
UCAS code: 6T99
Course length: 3 years

Your degree
On this innovative degree you’ll examine how conflicts can be resolved and prevented within the context of global politics and international security.
You’ll be taught by academic staff with a commitment to research, with the option in your final year to undertake a dissertation in your chosen field with one-to-one supervision.

Examples of the modules on offer
(see website for further details)

First year
+ Politics and International Relations in the Contemporary World
Second year
+ The United Kingdom: State, Politics and Policy
  + Modern Political Thought
Third year
+ Britain in the World
  + Africa and Global Politics
  + Liberals and Communitarians

Examples of the modules on offer
(see website for further details)

First year
+ Politics and International Relations in the Contemporary World
Second year
+ Politics of Development
+ International Relations and Security
  + The United Kingdom: State, Politics and Policies
Third year
+ Contemporary Issues in the Middle East
  + Globalisation and Transnational Politics
  + Global Governance and Legal Structures

Examples of the modules on offer
(see website for further details)

First year
+ Politics and International Relations in the Contemporary World
Second year
+ Introduction to Peace Studies
+ International Relations and Security
+ Politics of Development
Third year
+ Politics of Global Danger
+ Understanding the Internal Dynamics of Peace Processes
+ Understanding External Intervention in Violent Conflicts
Politics and International Relations

International Relations in Contemporary China
BA Honours
UCAS code: L260
Course length: 3 years (including a year abroad)

International Management in Contemporary China
BA Honours
UCAS code: L280
Course length: 3 years (including a year abroad)

Environmental Sustainability in Contemporary China
BA Honours
UCAS code: L270
Course length: 3 years (including a year abroad)

Your degree

In these three interconnected degree schemes, Chinese and non-Chinese students will learn to tackle the big challenges facing the world in the areas of international relations, environmental sustainability and international management. These are complex issues which can only be tackled through an interdisciplinary approach that takes China’s rise into account.

After a first year at Lancaster University, you will spend your second year overseas. Chinese nationals will go to Lancaster’s partner universities in Europe, Australia, Canada or the US to gain a truly international perspective on China’s role in the world. Those learning Chinese will spend the year at a Chinese university where teaching is in English. In the third year you will continue to learn about contemporary China, put your knowledge into practice through work experience, and specialise in the pathway of your choice.

Typical entry requirements

(See website for full details)

Required subjects
Course L270: A level Geography. Alternatively we may accept a cognate subject from: Anthropology, Classics, Economics, English Literature, History, Philosophy, Psychology, Religious Studies, Sociology, and World Development.
GCSE Mathematics grade C or 4.
GCSE English Language grade C or 4.
Course L280: GCSE Mathematics grade C or 4, GCSE English Language grade C or 4.
Course L290: GCSE Mathematics grade C or 4, GCSE English Language grade C or 4.

Examples of the modules on offer
(see website for further details)

First year
+ Contemporary China
+ Chinese (Intensive)
(For non-Chinese speakers)

Depending on your pathway:
+ Politics and International Relations in the Contemporary World
+ Management and Organisational Behaviour
+ Managing Organisations, Human Resources and Technology
+ Society and Space
+ Geographical Skills and Applications

Second year (abroad)
+ A range of specialist modules depending on host institution

Third year
+ Chinese (for non-Chinese speakers)
+ Chinese Foreign Relations in Practice (work experience)
+ Chinese Society and Culture
+ Dissertation

Depending on your pathway:
+ Politics of Cultural Diversity
+ International Human Resource Management
+ Environment and Society

Study abroad

If you follow our Study Abroad degree, you can spend your second year at one of our partner universities in the USA or Canada. This year provides an invaluable opportunity to experience a different society, culture and political system while furthering your studies.

Please see page 34 for more information or visit www.lancaster.ac.uk/globalexperience

Future careers

+ Teaching
+ Journalism
+ Government
+ International business and finance
+ International Charities

Place of training

You will have the opportunity to spend Year 3 doing a placement with a public, private or voluntary organisation. This experience will boost your employment prospects and allow you to apply your academic ideas in practice. Placement applications are competitive so you’ll take special preparatory modules and be supported by our team throughout the process to give you the best chance of success. When you return in Year 4 you will complete a reflective portfolio to showcase your experience.

Accreditation
All of our single honours degrees are accredited by the British Psychological Association. Please check www.lancaster.ac.uk/ugcourses for information on which joint honours degrees are accredited.

Examples of the modules on offer (see website for further details)

First year
- Understanding Psychology
- Investigating Psychology

Second year
- Cognitive Psychology
- Brain and Behaviour
- Social Psychology
- Developmental Psychology
- Personality and Individual Differences

Third year
- Forensic and Investigative Psychology
- Clinical Psychology
- Prozac Nation: Pharmacology
- The Psychology of Attention

Fourth year (MPsych only)
- Psychological Aspects of Advertising
- Analysing Talk and Text
- Research Methods in the Study of Infant Development

Your degree
You’ll be taught by active researchers meaning that as well as gaining essential knowledge of the key themes, you will have access to the latest thinking and research. Through a mix of lectures, seminars and practicals, you’ll develop your knowledge and skills, particularly in research methods and statistics. We encourage you to be increasingly independent in your study so that by the time you reach Year 3 you are confident in choosing the modules that best suit your interests, and will put into practice the skills that you have learnt in your own research project. You can choose to graduate with a BA or BSc – our academic support system will help you develop a plan to make this choice and prepare you for your chosen career path.

You will study the key themes of modern psychology:
- How people think
- How children develop
- How the brain works
- How people interact

Did you know?
- 91% overall student satisfaction National Student Survey
- Structured psychology-relevant work experience
- Research-driven teaching

Accreditation
Our single honours degrees are accredited by the British Psychological Association.
Voluntary placement
Volunteering is an excellent way of gaining insight into a career in psychology. The placements that we offer will make you attractive to prospective employers or prepare you for continuing your research after graduation.

Current opportunities include:
+ Age UK: coping alone support
+ Making Space Support Housing: group activity coordinator
+ Lancaster University BabyLab: research assistant
+ National Autistic Society: research field worker

Further training
Students wishing to enter the psychology professions need to undertake further Masters or Doctoral study, and often gather additional relevant experience by working as:
+ Support workers
+ Mental health workers
+ Assistant psychologists
+ Teaching assistants

We offer a range of postgraduate psychology courses which can be found at www.lancaster.ac.uk/psychology/postgraduate

Specialised laboratories
Specialised laboratory facilities are available for:
+ Computational neuroscience
+ Eye tracking
+ Forensic interview room
+ Motion capture
+ Neuropharmacological testing
+ Sleep research
+ Social processes
+ Virtual reality

Combine Psychology with...
+ Biology with Psychology/C1C8
+ Biology with Psychology/Placement Year/C1C9
+ Criminology and Psychology/CL86
+ French Studies and Psychology/CR81
+ German Studies and Psychology/CR82
+ Linguistics and Psychology/CR61
+ Management and Psychology/CR82
+ Marketing with Psychology/NSC8
+ Spanish Studies and Psychology/CR84

For the entry requirements for these courses please see the index.

Future careers
+ Clinical psychology
+ Forensic psychology
+ Marketing and advertising
+ Education and healthcare
+ Health and sport psychology
+ Social services

Religious Studies at Lancaster gives you the opportunity to study the world’s religious traditions, to develop your skills in critical thinking, and to gain a deeper awareness of cultural diversity. Our programmes will also give you an informed understanding of the conflicts and challenges of the contemporary world.

Did you know?

- #1 in the UK for the impact of our research beyond the academic community
- #3 in the UK for theology and religious studies
- You will be taught by a team of internationally recognised experts
- Placement applications are competitive so you’ll specialise in the areas that most interest you. We offer modules on the world’s major religious traditions, key contemporary issues, and approaches to the study of religions in the modern world. You’ll also have the opportunity to combine your course with study abroad programmes in India or China.

Placements year

You will have the opportunity to spend Year 3 doing a placement with a public, private, or voluntary organisation. This experience will boost your employment prospects and allow you to apply your academic ideas in practice. Placement applications are competitive so you’ll take special preparatory modules and be supported by our team throughout the process to give you the best chance of success. When you return in Year 4 you will complete a reflective portfolio to showcase your experience.

Religious Studies

BA Hons

UCAS code: V627
Course length: 3 years

Your degree

The first part of your degree provides an outline of the growth and development of the world’s major religions, their primary characteristics, and the various forms that they take in the contemporary world.

You’ll learn to conduct research using a wide range of methods appropriate to your studies, including research that is historical, textual, philosophical, theological, sociological, and anthropological.

In your second and third years you’ll specialise in the areas that most interest you. We offer modules on the world’s major religious traditions, key contemporary issues, and approaches to the study of religions in the modern world. You’ll also have the opportunity to combine your course with study abroad programmes in India or China.

Examples of the modules on offer (see website for further details)

First year

- Religions in the Modern World
- Constructing Ethics in Christianity and Islam
- Sociology of Religion
- Hinduism in the Modern World
- Buddhism and Society

Second year

- Religion and Violence
- Media, Religion and Politics
- New Religions and Alternative Spiritualities
- Religion in Schools
- Dissertation

Third year

- What does it mean to be human?
- What is the meaning of life?
- How can we understand our relationship with the divine?
- Over the course of your studies you’ll gain the knowledge, academic techniques, and skills to approach fundamental questions about the meaning of life and the human condition with confidence and, crucially, to consider what is at stake in ethical reasoning with self-assurance and maturity.

Examples of the modules on offer (see website for further details)

First year

- Ethics, Philosophy and Religion

Second year

- Ethics, Theory and Practice
- Cross-Cultural Ethics
- Western Philosophy and Religious Thought

Third year

- Moral, Legal and Political Philosophy
- New Religions and Alternative Spiritualities
- History of 20th Century Philosophy
- Dissertation

Combining Religious Studies with...

- English Literature and Religious Studies
- History and Religious Studies
- International Relations and Religious Diversity
- Philosophy and Religious Studies
- Politics and Religious Studies
- Religious Studies and Sociology
- Religious Studies with Chinese
- Social Work, Ethics and Religion

You may also be interested in our Philosophy degrees and Politics and International Relations degrees.

Ethics, Philosophy and Religion

BA Hons

UCAS code: VV16
Course length: 3 years

Your degree

The degree in Ethics, Philosophy and Religion at Lancaster addresses the big questions from a variety of philosophical and religious perspectives:

- What is the meaning of life?
- What does it mean to be human?
- How can we consider our relationship with the divine?

Over the course of your studies you’ll gain the knowledge, academic techniques, and skills to approach fundamental questions about the meaning of life and the human condition with confidence and, crucially, to consider what is at stake in ethical reasoning with self-assurance and maturity.

Examples of the modules on offer (see website for further details)

First year

- Ethics, Philosophy and Religion

Second year

- Ethics, Theory and Practice
- Cross-Cultural Ethics
- Western Philosophy and Religious Thought

Third year

- Moral, Legal and Political Philosophy
- New Religions and Alternative Spiritualities
- History of 20th Century Philosophy
- Dissertation

Study Social Work at one of the top departments in the UK. Our research influences national social work strategy and informs our teaching; and placements give you valuable experience of how to apply social, scientific and legal knowledge to social work situations.

Typical entry requirements
(See website for full details)

Social Work, Ethics and Religion
MSW Hons
UCAS code: L5V6
Course length: 4 years

Your degree
This integrated four-year degree is the only one of its kind in the UK. It offers a professional qualification to practice social work and graduate at masters level, whilst also providing you with a background in the world’s major religious and ethical traditions. This degree combines our full BA Social Work degree with additional ethics and religious studies components.

Facing escalating demands in terms of internationalisation and employability, students will benefit from a degree that combines a professional qualification with a field of study that fosters a deeper awareness of cultural diversity and an informed understanding of the conflicts and challenges of the contemporary world.

This degree requires a high level of vocational commitment, and we provide two social work practice placements across 170 days.

Placements are an excellent way of getting to know the role of a social worker and give hands-on experience to back up classroom learning. This ensures that when you graduate you are prepared for work in the rapidly changing environments of social care.

Your Social Work modules will include
First year
- Social Work Practice
- Contemporary Social Problems
Second year
- Placement 1
- Social Work Practice 2
- Social Work with Children and Families
- Social Work and Adult Social Care
- The Research Minded Practitioner
- Social Work with Young People
Third year
- Mental Distress and Health
- Social Work and Drug Use
- Dissertation
- Placement 2
Fourth year
- An Ethics and Religion option
- Social Work and Adult Social Care
- Dissertation
- Placement 2

Officially recognised
Both Social Work courses are endorsed by the Health Care and Professions Council (HCPC).

Placement year
You will have the opportunity to spend Year 3 doing a placement with a public, private or voluntary organisation. This experience will boost your employment prospects and allow you to apply your academic ideas in practice. Placement applications are competitive so you’ll take special preparatory modules and be supported by our team throughout the process to give you the best chance of success. When you return in Year 4 you will complete a reflective portfolio to showcase your experience.

Core modules
- Introduction to Sociology
- Understanding Social Thought
- Researching Social Life
- Independent Dissertation Project

Optional modules include
- Gender and Women’s Studies
- Viral Video Production
- Society and Drugs
- Terror
- Sociology of the Future
- Media in the Global Age
- Violence and Society
- Health, Life and Bodies
- Sociology of Disasters
- Bodies in Society

Please see our website for our full module list.

Study abroad
We have an excellent exchange programme with Carleton University, Ottawa, Canada and offer opportunities to study in Germany, Sweden, the USA and New Zealand. Please see page 34 for more information or visit www.lancaster.ac.uk/globalexperience.

Personal development
Throughout your degree you will have diverse opportunities to gain professional skills and experience. You can participate in field trips, placements, studying abroad, film screenings, public events, seminars and major international conferences. The connections and experience that you will gain will help to ensure that you stand out to prospective employers.

Flexible degree
Our Sociology degree can be personalised to match your interests. Whether you want to explore diverse topics or can’t decide which subject to major in, our flexible degree helps you explore what you are passionate about.

Future careers
- Research organisations
- Specialist recruitment
- Community engagement
- Social enterprises
- Charitable sector
- Law and allied professions

More information please visit www.lancaster.ac.uk/ugcourses
This exciting and innovative Sports and Exercise Science degree is one of the first in the UK to be delivered from a Medical School.

Your degree
Balancing scientific focus with professional practice and employability, this contemporary degree allows you to tackle core disciplines such as anatomy, physiology, biomechanics and psychology.

The mix of lectures, workshops and laboratory sessions also includes valuable experience of Sports and Exercise Science research. You may find yourself analysing warm-up strategies to prevent injury, developing effective training and nutritional approaches for high performing athletes, or assessing the effects of exercise for weight loss. You’ll also be encouraged to consider the increasing importance of exercise and physical activity as part of a healthy lifestyle, and to engage with current debates concerning public health and disease management.

Taught by world-class, research-active academics in a stimulating environment, your degree provides you with access to our Clinical Anatomy Learning Centre and the custom-built Human Performance Lab. Here, you will learn how to work safely in order to capture and analyse physiological and biomechanical data, which will then be used to better understand human performance and activity. You will learn how to enhance performance and activity, whether for competition or disease management, and how to provide feedback to an athlete, a patient or member of the general public.

Examples of the modules on offer
(see website for further details)

First year
+ Concepts in Sports and Exercise Psychology
+ Exercise Prescription
+ Public Health Challenges

Second year
+ Current Debates in Sports and Exercise Science
+ Anatomy and Biomechanics
+ Strength and Conditioning (Sports Medicine)

Third year
+ Injury Prevention and Rehabilitation
+ Advanced Training for Performance
+ Applied Digital Health Technology

Professional Qualifications
We’ve partnered with Active IQ, the leading awarding body in the active leisure and wellbeing sector, to allow you to gain Professional Fitness Qualifications as part of your degree.

Future careers
+ Exercise physiologist
+ Sports biomechanist
+ Sports psychologist
+ Strength and conditioning coach
+ Health promotion specialist
+ Personal trainer
+ Performance analyst
+ Sports development officer

If you wish to further your education, your degree can act as a launch pad to a discipline or career-specific Masters degree in areas such as cardiac physiology or physiotherapy, or to a PhD and a career in research or higher education.

Research projects
As part of your degree you will have the opportunity to work with world-leading scientists on a research project in your final year. This will allow you to make a unique contribution to Sports and Exercise Science research.

Employability
Throughout your studies you will be supported in developing your employability skills in specific employability modules, and in a professional practice module in each year. In your final year you will complete your professional practice programme by delivering a sports and exercise science-based event.

</table>

For the full entry requirements, including subject requirements and GCSE requirements, please see our website: [www.lancaster.ac.uk/ugcourses](http://www.lancaster.ac.uk/ugcourses)
How to apply

We welcome and encourage applications from all over the world and it’s our aim to make the process of applying as smooth as possible.

All full time applications should be made via UCAS using UCAS Apply. Schools, colleges, international agencies and British Council offices overseas can help you with your application, or you can find out more at www.ucas.com

If you’re applying for Medicine, your application needs to be in by the 15th October the year before you start. For all other courses, applications should be submitted by the UCAS deadline on 15th January.

You can apply for some courses past that date (check for vacancies on the UCAS website, or contact our admissions office to find out more), but the final deadline is the 30th June.

Part-time study

Some of our degree programmes are available on a part-time basis. To find out more, please contact the Admissions Office.

Entry qualifications

Our course directory offers indicative requirements for each programme, but these can change. It’s worth double-checking the details at www.lancaster.ac.uk/ugcourses.

When we offer a place, we express the required qualifications in terms of three A level grades (or equivalent), rather than UCAS tariff points. We may also ask for particular grades in specific subjects, either at A level (or equivalent) or GCSE.

We understand that some students may be applying with a range of qualifications. We keep our entry requirements flexible to ensure that every applicant is treated fairly. An example of the BTEC and IB Diploma equivalences can be found on page 54.

Find out more at www.lancaster.ac.uk/study/undergraduate-qualifications-uk.

For students outside the UK

For more information about the range and level of qualifications accepted, please visit our website at www.lancaster.ac.uk/study/undergraduate/internationalqualifications.

If English isn’t your first language, you will need to prove that your English language skills are good enough to handle the demands of your course.

For a full list of acceptable English language qualifications please visit: www.lancaster.ac.uk/study/international-students/englishrequirements.

After you’ve applied

We consider applications from the beginning of the admissions cycle, usually on a rolling basis. You should hear from us within three to four weeks with a decision or an invitation to an interview.

If we offer you a place – whether conditional or unconditional – you will receive an invitation to a Departmental Applicant Visit Day, where you can find out more about the course, meet tutors and current students, and tour the campus. We’ll also send details of our scholarships and bursaries, further information is available at www.lancaster.ac.uk/study/undergraduate/fees-and-funding/scholarships-and-bursaries.

International students

We welcome nearly 3,000 international students every year. If you’d like to be one of them, we’re ready to help.

Entry requirements

Like any applicant, you must meet the entry requirements before you can start a degree programme. In the course directory, these are put in terms of UK qualifications. To find out how your qualifications compare, visit: www.lancaster.ac.uk/study/undergraduate/internationalqualifications.

It’s also vital that you have the language skills to study for your degree in English. You will need to show evidence that you meet our minimum English Language requirements:

+ IELTS 6.5 with a minimum 5.5 in each component or
+ GCSE/GCSE Grade C

However, some courses may require higher than the minimum outlined here, please visit www.lancaster.ac.uk/ugcourses for more detailed information.

If your skills could be improved, we offer a four-week English for Academic Purposes programme (EAP). Find out more at: www.lancaster.ac.uk/study/international-students/englishrequirements.

Arriving in Lancaster

We offer comprehensive support from the very start, until you graduate. Before you leave, we provide information on visas and immigration, and as long as you firmly accept our offer as your first choice by the UCAS deadline, and have submitted your accommodation application by the specified date, we can guarantee a place in our campus accommodation for your first year (see more on page 23). We can even pick you up from Manchester airport. Once you’ve arrived, you’ll find a series of events to get you settled, with plenty of ongoing support.

Foundation programmes

For students who have finished school, but don’t yet meet our undergraduate entry requirements, we offer the International Foundation Year – a chance to study at Lancaster to prepare for a degree programme, with both language skills and academic subjects.

We also offer transfer programmes, which pave the way to studying at Lancaster. Run with partner institutions in China, India, Malaysia and Dubai, our 1+3 and 2+2 programmes offer a specially-designed curriculum that you start in your home country before joining our campus for three or two years respectively to complete your degree.

Find out more at: www.lancaster.ac.uk/study/international-students.
Funding and finances

The cost of university can seem a daunting prospect. Tuition fees are only one part of your expenses, so it’s vital that you plan and prepare as thoroughly as possible. Our Student Funding Advisers can offer information on financial support and advice on budgeting.

Support from the government
Your two main expenses will be tuition fees and living costs. For UK students, Student Finance England offers loans, which have to be paid back. Most English students won’t have to pay upfront to study, but can instead apply for a Tuition Fee Loan to cover the full cost of tuition, plus a Maintenance Loan to help with living costs.

There is also extra support available for students with a disability and for those with dependants.

If you’re from outside England, there are different arrangements and options to help you cover the costs of coming to Lancaster University. You can find out more at www.direct.gov.uk/studentfinance.

Support from the University
We aim to help every student make the most of their life and education. For many of our UK students, that includes offering bursaries and scholarships. These depend on where you're from, your financial circumstances and how well you do in your A levels (or equivalent) before starting your studies with us. In 2017, we provided nearly £4.3 million in bursaries and scholarships, helping 3,950 new and continuing students with the cost of fees and living expenses.

For students facing an unexpected shortfall or an emergency, we have discretionary hardship funds, which can provide short-term loans or emergency funding. If you’re running into difficulties, don’t wait until the last minute – get in touch with our Fees and Funding Service right away.

Budgeting your living costs
A simple way to plan for your annual costs is to start with your weekly costs, then multiply this by 40 weeks – the number of weeks in the university year (it’s less if you can go home during the April and December breaks).

As a rough guide, for most students, basic property bills are around £115 for a single student and up to £180 for a student with dependants (not including childcare costs, which are around £18 per half day at our own Pre-School Centre). You should then add costs for food, travel, books and stationery, insurance, TV and internet, phone, laundry, social and personal expenses.

You can find a range of budgeting tools and information on our website and Student Funding Advisers from the Fees and Funding Service will be happy to offer practical advice.

Typical costs...
- Loaf of bread – 75p
- 6 eggs – £1.00
- Bag of rice (1 kg) – £1.10
- Litre of milk – £1.00
- Washing up liquid – 92p
- Toothpaste – £1.20
- Pint of beer – £3.10
- Load of washing – £2.40
- Tumble drying – £1.20
- Return bus fares for the campus to the city centre – £2.70
- Return train ticket from Lancaster to Manchester (off-peak) – £22.30
- Taxi fare to Lancaster city centre – £10.00

(2019 – 2020 accommodation rates are still to be confirmed)
- Room with private shower and toilet: £122.92 – £144.97
- Room with shared shower and toilet: £88.83 – £124.32

For more information please visit www.lancaster.ac.uk

Your first year

The Lancaster approach to first year studies is unique among top-quality universities in a way that our students find appealing and valuable.

In some subjects – Medicine, Law, Physics, Engineering and some combined degrees – there is so much material that needs to be learnt (in some cases to satisfy regulatory bodies) that there is no room for options in the first year. However, in most of our degrees you will take options right from the start.

These options may be within your major degree programme or in another subject, usually one closely related to your major.

The Lancaster approach enables you either to continue with a subject that you have found interesting in school or college or to try out something new. While some first-year options have specific entry requirements, others do not and you will have a wide choice.

The chance to take options will enrich your studies by helping you to appreciate your degree in a wider context. This breadth is also appealing to many future employers of our students. You may even decide that you like your minor subject so much that you want to change your degree (for example from a single major to a combined major) and this will normally be possible with the right optional choices, subject to good grades during your first year.

While you will be encouraged to consider your choices before you arrive, and will be given plenty of information to help you do so, you will not be asked to commit yourself to any choice until just before the courses start.

Tuition fees

The annual tuition fee you need to pay for studying at Lancaster University is based on your residential status, which is decided on the information given in your UCAS application.

2019/20 fee levels will be announced in 2018. For guidance these are the fees for 2018/19. Please note that fees are likely to increase annually. Further details on current and future fees can be found on our website.

Home/EU (2018/19)
The fee for UK and EU students is £9,250.

Islands (2018/19)
For Island students (Channel Islands and Isle of Man), fees will normally range from £9,250 – £10,750 depending on your area of study.

Overseas (2018/19)
For overseas students, fees vary depending on the degree programme you study:
- Arts and Social Sciences: £15,680
- Management School: £17,475
- Health and Medicine/Science and Technology: £18,890
- Medicine: £26,310

Please note: We may revise our tuition fee policy. If you disagree with your category, please contact The Base, A-Floor, University House, Lancaster University, Lancaster, LA1 4YW.

Come and meet us

Visiting campus is an important part of your university search to help you identify the right choice for you.

There’s no substitution for exploring the campus, seeing first-hand the facilities we offer and meeting staff and current students to help you understand what it’s like to be a student here at Lancaster. Whether you spend a few hours on campus, or a whole day, we’re looking forward to your visit, so, call in for a brew and we will be happy to show you around.

Our Welcome Centre plays an important role in welcoming prospective students and their families. We offer a range of student-led tours allowing you to take in the campus buildings and facilities including, the Library, social hotspots and – on some tours – the accommodation.

We also offer extended tours, which include a chance to meet staff and students in your chosen area of study.

The campus and Welcome Centre is open to the public, so you can come and see our shops, cafes, sports facilities and outdoor areas whenever you please. You can also pop in for a brew with our student ambassadors. We’ll also be at more than 30 UCAS higher education conventions around the country throughout the spring and summer – so feel free to stop and ask us about studying here, and living in Lancaster.

Open Days

We hold four Open Days during the summer, giving you the chance to visit the campus to see the facilities, the accommodation and all the amenities. Staff across every department are on hand to answer questions and offer advice about our courses. The Students’ Union will offer their insights into the social side of life, and you can meet plenty of our current students to get their perspective on the Lancaster University experience.

Dates:
Saturday 30th June 2018
Saturday 14th July 2018
Saturday 1st September 2018
Saturday 15th September 2018

Virtual tour

Find out more about our beautiful 560-acre campus through our virtual tour. Watch videos showcasing our range of subjects, 360 degree panoramas to help you navigate the accommodation and hear what it is like studying here from real students.
Travel

Lancaster University is set among 560 acres of parkland, around three miles south of Lancaster city centre. While the natural surroundings give our campus a sense of tranquillity, we’re also well connected and easy to reach. Find out more at www.lancaster.ac.uk/travel

By car
Leave the M6 motorway at Junction 33 and take the A6 north towards Lancaster. For Lancaster University main campus – turn right at the third set of traffic lights on the A6 into the University main drive.

By rail
There are direct rail links between Lancaster and many of the UK’s major cities and city airports. There is a frequent direct bus service between Lancaster Railway Station and the University. Taxis are available at the station, which is a five-minute walk from the city centre.

By air
From Manchester International Airport take the M66 motorway at Junction 20 (north). Follow the directions ‘By car’. An hourly rail link runs between Manchester Airport and Lancaster.

Car parking
Visitors should use the Pay and Display parking zones during weekdays between 08:00 and 18:00. You can also use visitor scratch cards in Pay and Display areas – these available from the Cashiers’ desk in University House during office hours.

By taxi
Local taxi services can be contacted on the following:
01524 320900 01524 848848
Taxi Ranks are located on campus, at Lancaster Bus Station, Lancaster Railway Station and other locations in the city centre.

By bicycle
It takes around 25 minutes to cycle from the city centre to the campus on the two University signed routes. An off-road cycle route runs from Whin Fell Drive in Hala and enters the campus near Bailrigg House. A further off-road signed cycle route runs along the Lancaster Canal to the city centre.

By bus
All buses drop off and collect passengers in the Underpass situated underneath Alexandra Square. Services 2, 2A, 4 and 42 also serve south campus and south-west campus. There are also bus stops directly outside the Sports Centre on the main drive.

By air
From Manchester International Airport take the M66 motorway at Junction 20 (north). Follow the directions ‘By car’. An hourly rail link runs between Manchester Airport and Lancaster.
