TRIM TRAIL

GREAT OUTDOORS, GREAT WORKOUT!

READY
Everybody likes to look and feel good and keeping fit is a major part of that. So what better way to get fit than in the fresh air and for free?

GET SET
This versatile Trim Trail combines fun and fitness for all levels of physical ability. Designed to improve your cardiovascular system it will also test your upper and lower body muscular strength, endurance, co-ordination and agility.

GO
This trail can be as mild or as intense as you require, you should always work at a pace you feel comfortable with, but if you wish to challenge yourself then aim to increase the number of repetitions or even laps!

The map outlines each exercise station on the trail and provides instructions on how to use them. Keep track of your progress by charting the repetitions completed and also your trail time on each visit. Watch yourself improve!

SAFETY
To reduce the chances of injury it’s essential that you warm up prior to starting the trail and cool down when finished. The trail covers a variety of terrains, so appropriate outdoor clothing and footwear is recommended. Extra caution should be taken in wet conditions.

Users are reminded that they must conduct themselves responsibly while on the trail. Little equipment, such as the pavement, could pose a danger to you and others.

Children under 14 are not allowed to use this equipment except in the company of a responsible adult.

If you decide to use, or allow your child to use the ‘Trim Trail’ equipment then you do so at your own risk, accepting full responsibility for any loss, damage or injury you, your child or others may incur personally or to your property and Lancaster University will not accept responsibility or liability as a result of such loss or damage.

GREAT OUTDOORS, GREAT WORKOUT!
The on campus Woodland Walk and Trim Trail provide a range of challenges for all levels of fitness and ability. Whether you fancy a quick stroll or a full workout, there is no better way to exercise than in the fresh air... and for FREE!
ADIFFERENTCHALLENGE

The Woodland Walk provides a beautiful route through 2.6 miles of woodland canopy that can be enjoyed by all levels of ability from those looking for an interesting run to those wanting a short stroll. At a moderate pace the full route can be completed in approximately 1.5 hours. However, there are lots of clearly signed points at which you can join or leave the walk to suit your day.

The trail includes varying unsurfaced terrain so suitable outdoor footwear should be worn.

THINGSTOSEE

The Bigforth Estate sporting woodland was planted in 1841 and forms the heart of the University woodlands. Later additions were planted during the 1960s to offer shelter and screening for the new emerging campus.

In the older developed woodland, beech is predominate along with some oak with self-sown sycamore and elm forming much of the sub-canopy. The understorey is of holly and rhododendron.

The later woodland is dominated by alder or poplar, with sycamore, beech and Norway maple. Ground cover is a mixture of bramble, rushes and grass.

The University has established a 10 year Management Plan 2010 - 2020 to help implement a number of measures to continue to enable the woodlands to develop.

The woodlands and surrounding parklands support and provide important habitats for a number of species including: 290 different species of plants and animals; 120 bird species; 3 species of bat and even roe deer are seen in the woodlands from time to time.

Throughout the seasons you will encounter many things of interest in the woodland, these include: snowdrops in spring; a carpet of bluebells in May; wild garlic in June; woodland ferns in the summer and a variety of interesting fungi in the autumn.

Between 1899 and 1902, Herbert Storey built Bailrigg House where he lived until his death. Bailrigg House was designed by the architects Woolfall and Eccles of Liverpool. Herbert also re-oriented the land, adding additional elements to the landscape and later hired the landscape architect Ernest Milner. This work was continued by the famous local landscape architect, Thomas Mawson.
