2014 IEEE Symposium on Evolving and Autonomous Learning Systems

WELCOME TO DOWNTOWN ORLANDO

IEEE SSCI 2014

December 9 to 12, 2014 Orlando, Florida, U.S.A.

The 2014 IEEE International Symposium on Evolving and Autonomous Learning Systems (EALS'14) will be held within the 2014 IEEE Symposium Series on Computational Intelligence (SSCI 2014).

The emerging area of Evolving Intelligent Systems targets non-stationary processes by developing novel on-line learning methods and computationally efficient algorithms for real-time applications. The true intelligent systems should be dynamically evolving and be able to adapt and learn.

EALS´14 continues the tradition set by the previous forums in SSCI (ESDIS'2009, EAIS'11 and EAIS'13).

December 9 to 12, 2014
Orlando, Florida, U.S.A.

International Programme Committee:
Plamen Angelov (p.angelov@lancaster.ac.uk)
Dimitar Filev (dfilev@ford.com)
Nikola Kasabov (nkasabov@aut.ac.nz)

IMPORTANT DATES:

Paper Submission Due:
June 15, 2014
Notification to authors:
September 5, 2014
Final Submission: October 5, 2014

Organized and Sponsored by:

IEEE

IEEE Computational Intelligence Society

Organized by:

Technical **C**ommittee
on **E**volving
Intelligent **S**ystems
