Philosophy, Politics and Economics (PPE)
Undergraduate Degrees
2025
Philosophy, Politics and Economics at Lancaster

Philosophy, Politics and Economics (PPE) explores the events and ideas that make up our world today.

Our personal lives, our societies and our political institutions are shaped by economic forces. Politics structures economic activity, while trade crosses international borders. Both politics and economics raise a host of deeper philosophical issues – about fairness and freedom, power and knowledge, sustainability and progress.

PPE combines key areas of economics, analysis of political structures, and philosophical argument. The degree offers lots of flexibility to focus on topics that interest you – for example, political ideas, comparative politics, or the relation between states and markets.

Your **degree**

**BA (Hons) Philosophy, Politics and Economics (PPE)**

One great advantage of studying PPE at Lancaster is that we offer a flexible, modular degree programme. This means that you can shape your degree to fit with your preferences and spend time discovering what you enjoy and exploring the areas that interest you most.

**Year 1**

In Year 1, you will gain a firm grounding in each of the three disciplines while developing your writing skills and analytic abilities.

**Introduction to Philosophy: Knowledge and Reality**

You are introduced to some key areas in philosophy, for example, epistemology, free will, and critical thinking. You will learn about other traditions of philosophy, including central ideas of Indian philosophy and "continental philosophy." You also develop the background in knowledge and critical skills necessary to study philosophical topics in more detail in your second and final years. No prior study of philosophy is required.

**Politics in the Modern World**

You'll explore key themes in the study of modern politics, and gain critical insight into the nature and use of political power in the contemporary world. You will learn about: the foundations of the modern nation-state; the behaviour of individuals and groups in political contexts; the workings of national constitutions and international organisations; the interaction of global events and domestic agendas.

**Economic Principles and Applications B**

The first part of this module provides a thorough introduction to Microeconomics (including the theory of demand, costs and pricing under various forms of market structure, and welfare economics). We also cover key mathematical tools required for a good understanding of Economics (including linear and nonlinear equations, and differentiation). The second part provides a thorough introduction to Macroeconomics (including national income analysis, monetary theory, business cycles, inflation, unemployment, and the great macroeconomic debates). Throughout this module, we will explore how key micro- and macroeconomic ideas can help us understand the world around us. You will participate in economic experiments and games, and we will discuss lessons from the Great Depression and the Great Recession, speculative attacks and currency crises, inequality, democracy and growth, government deficits and inflation, and the macroeconomic implications of Brexit and Covid-19.

**OR**

**International Relations: Theory and Practice**

Alternatively, you can take our first year module in International Relations. This gives you a firm grounding in the concepts and debates necessary to understand modern international politics. You will learn about the dominant features and power relations of the contemporary global system; the nature of sovereignty and security, their expression and limitations; and the central problems confronting the international community today.
Year 2

Over your second and final years, you will take two (25%) of your modules in each of the three subjects. For the remaining 25%, you can choose two modules from any of the three subjects.

You can find further information about modules on our website: www.lancaster.ac.uk/study

We recommend you take as one of your Philosophy modules:
+ Philosophical Questions in the Study of Politics and Economics

We recommend you take as one of your Politics modules:
+ State & Economy: Between the Market and the Demos

You will take a practice route in Economics:
+ Microeconomic Analysis
  AND
+ Macroeconomic Analysis

Select two further Philosophy, Politics or Economics modules.

### Placement Year and Study Abroad Degrees

Placement year and study abroad students spend year 3 away from campus. In your final year, you will return to Lancaster to study and will select optional modules such as those listed above.
Lancaster is a truly international university, with students and staff from over 100 different countries and partner institutions around the world. Your global experience is about living and learning with people from different cultures whether through your course, your college or your Students’ Union.

**Study abroad**

Grow in independence and confidence while immersing yourself in a new culture and way of learning. At Lancaster, we offer 4-year study abroad degrees where you spend your third year studying at one of our international partner universities. Potential destinations currently include Australia, Canada, Hong Kong, and the USA. These destinations are given as a guide only as the availability of places may vary year to year. Living in another country and studying your subjects from a different perspective offers considerable benefits both in terms of your understanding of the subject and your preparation for life after university.

**Vacation travel**

Alternatively, we run short trips in the vacation to destinations such as China, Germany, Ghana, Malaysia and Switzerland. These programmes include meeting local students and businesses as well as some academic study and cultural discovery.

You may also be able to attend a summer school at one of our many overseas partner universities.

Find out more: [www.lancaster.ac.uk/your-global-experience](http://www.lancaster.ac.uk/your-global-experience)
Develop your professional experience

Placements and internships are great ways to gain work experience, make professional contacts and help you decide your career path. Voluntary activities are another good way to build work experience and make a positive impact on the world around you.

**Placement Year**

You can apply to study PPE with a placement year. With specialist support, you will apply for a professional, paid work placement in Year 3 and return to Lancaster to complete your degree in Year 4. Previous Lancaster University students have worked with major businesses, public sector bodies, politicians, charities and NGOs.

**Faculty Internships**

Faculty internships are paid placements which are available in the summer vacation or on a part-time basis during term time. They provide work experience in small and medium sized businesses, as well as third sector and not-for-profit organisations. Roles range from marketing and comms to research and policy work. Find out more on our website: [www.lancaster.ac.uk/fass-placements](http://www.lancaster.ac.uk/fass-placements)

**Internship Programme**

The Department of Politics, Philosophy and Religion is home to the Richardson Institute, which undertakes cutting-edge research in peace and conflict. The Institute provides opportunities for students to undertake internships conducting research projects for external organisations. Research themes include sectarianism, identity and belonging, environmental issues, desectarianisation and urban politics.

Your future career

Studying Philosophy, Politics and Economics opens the door to a wide range of graduate careers. Graduate employers seek individuals with keen intellectual and critical skills, independence of mind, and clarity of communication.

Lancaster University has an excellent track record for graduate employment, and for graduates who continue to postgraduate study.

This degree will equip you for a range of careers in organisations such as:
+ Civil and Diplomatic Services
+ Politics and Government
+ International Charities and Non-Government Organisations
+ Teaching and Education
+ International Finance and Banking
+ Journalism and Media
+ Business, Management and Consultancy
