

Lancaster University HR Excellence in Research 2019-21 Action Plan

Preface

Lancaster's Concordat Implementation Group (CIG) has formal oversight for implementation of Vitae's Concordat to Support the Career Development of Researchers (the 'Concordat'). The CIG is chaired by the Director of Human Resources & Organisational Development and membership comprises representatives from Human Resources (HR) and Organisational and Education Development (OED), Research and Enterprise Services (RES), the Careers Service, and the Research Staff Association (RSA) Steering Group.

Responsibility for reviewing, refreshing and implementing the institutional Action Plan rests with the CIG. The Group meets termly to review progress and reports to the University Research Committee. Individual members take responsibility for leading and driving actions within the Plan, with the active involvement of other stakeholders across the institution.

The Concordat Action Plan is updated continually, and provides an outline of actions undertaken and progress to date. Actions are initiated and reported against specific principles laid out in the Concordat. Lancaster's Concordat Forward Action Plan 2019-21 builds on the successes of previous Action Plans and is structured such that a response is made against each clause of the Concordat, to ensure completeness and eliminate gaps. Future actions are outlined, identifying evidence required, timescale and responsible lead. A summary of the institution's current compliance with the clauses of the Concordat is also provided. A crucial vehicle for implementing many of the actions within the Plan is the Code of Practice for the Development of Research Staff which seeks to embed the principle of the Concordat and is referenced throughout the plan.

Background to the Concordat

The UK Concordat to Support the Career Development of Researchers is based on an agreement made in 1996 (updated in 2008) between funding bodies and universities, which aimed to improve the support for research staff on fixed-term contracts in their career development.

The Concordat provides a single, unambiguous statement of the expectations and responsibilities of research funders and institutions with respect to the management of researchers. The seven principles of the Concordat are specific to the UK context and is the primary mechanism for UK institutions to participate in the [European HR Excellence in Research Award](#).

Concordat Principles

A: RECRUITMENT AND SELECTION

Principle 1: Recognition of the importance of recruiting, selecting and retaining researchers with the highest potential to achieve excellence in research.

B: RECOGNITION AND VALUE

Principle 2: Researchers are recognised and valued by their employing organisation as an essential part of their organisation's human resources and a key component of their overall strategy to develop and deliver world-class research.

C: SUPPORT AND CAREER DEVELOPMENT

Principle 3: Researchers are equipped and supported to be adaptable and flexible in an increasingly diverse, mobile, global research environment.

Principle 4: The importance of researchers' personal and career development, and lifelong learning, is clearly recognised and promoted at all stages of their career.

D: RESEARCHERS' RESPONSIBILITIES

Principle 5: Individual researchers share the responsibility for and need to pro-actively engage in their own personal and career development and lifelong learning.

E: DIVERSITY AND EQUALITY

Principle 6: Diversity and equality must be promoted in all aspects of the recruitment and career management of researchers.

F: IMPLEMENTATION AND REVIEW

Principle 7: The sector and all stakeholders will undertake regular and collective review of their progress in strengthening the attractiveness and sustainability of research careers in the UK.

<p>A: RECRUITMENT AND SELECTION</p> <p>Principle 1: Recognition of the importance of recruiting, selecting and retaining researchers with the highest potential to achieve excellence in research.</p>			
<p><i>A1.1 – All members of the UK research community should understand that researchers are chosen primarily for their ability to advance research at an institution.</i></p>			
<p>Existing activity</p> <p>The University is committed to open and transparent processes for the recruitment, selection and retention for all employees, including research staff. This commitment is articulated in the University’s Our People Strategy 2020 which, in respect of researchers, states that the University will:</p> <ul style="list-style-type: none"> • “Develop a culture and environment that enables the best research globally to be undertaken by staff and students at Lancaster, including the encouragement of multi and inter-disciplinary work across the University”. • “Continue to support our research students and researchers, especially during the early stages of their careers and in support of career progression”. <p>A recently introduced service level agreement HR and Payroll Service Standards seeks to ensure that all prospective employees are treated fairly and receive a consistent, effective and efficient service from the HR Service Delivery Team.</p> <p>The University is also proactive in developing and implementing schemes that attract and then support early career researchers, such as the 50th Anniversary Lectureship scheme.</p>			
<p>New Actions</p> <p>On-line recruitment (top up) training to be launched – for all those who have already undertaken the face to face recruitment training, (to be undertaken every three years to keep up to date with legislation).</p>	<p>Associate Director of HR (Organisational Development)</p>	<p>100% interview panel chairs to have undertaken face to face training and/ or on-line top up training (as appropriate) within a three-year period. Participation to be logged through CORE and reported annually to CIG to</p>	<p>Reviewed by CIG annually (November 2019 and November 2020)</p>

		ensure compliance.	
UKVI (Visas and Immigration) online toolkit to be available September 2019	HR & Payroll Services Delivery Manager	Monitor of UKVI on-line training through COREHR. 10% increase usage over 6 month reporting period.	Termly reports completion July 2020.
Code of Practice to be refreshed following Concordat update – re-established as an active tool in supporting researchers.	Organisational Developer (Research and Academic)	<u>Code of Practice</u> – awareness by new researchers to be measured as part of induction programme feedback. 90% of all new researchers to be aware of Concordat and CoP.	To be reported at end of each induction programme (biannually – May 2020, September 2020)
<i>A1.2 – Employers should strive to attract excellence and respect diversity (see Principle 6). Recruitment and selection procedures should be informative, transparent and open to all qualified applicants regardless of background. Person and vacancy specifications must clearly identify the skills required for the post and these requirements should be relevant to the role.</i>			
<p>Existing activity</p> <ul style="list-style-type: none"> The University has developed a Code of Practice on Recruitment and Selection that applies to all aspects of recruitment for all staff groups including part time and short-term appointments. This has been communicated to senior stakeholders and includes a series of tools which recruitment managers have at their disposal. All chairs of recruitment panels are required to attend recruitment and selection training. The University employs competency-based recruitment where appropriate – the basis by which a candidate will be selected is made clear on the Person Specification. The Code of Practice for the Development of Research Staff includes reference to recruitment and selection good practice. New HR recruitment web pages and on-line toolkit encourage best practice in recruitment panels and encourage diversity in applications.

<p>New Actions: Use of on-line <u>Gender descriptor checker</u> for all adverts</p>	HR & Payroll Services Delivery Manager	10% sample checked termly	Reported termly until July 2020
Proactive encouragement of positive action for some roles to increase effectiveness of recruitment process to deliver on EDI objectives. Using <u>new manager's toolkits and guidance.</u>	HR & Payroll Services Delivery Manager	Applications to be monitored and reported to CIG termly 5% Increase in applications from specific pre-identified groups, relevant to the roles.	Reported March 2020, January 2021 and July 2021
<i>A1.3 – Research posts should only be advertised as a fixed - term post where there is a recorded and justifiable reason.</i>			
<p>New policy on casual contracts and fixed term working currently being developed with the TUs. Final draft will go to JNCC in November 2019.</p> <p>A review of all fixed term contracts will follow with focus groups with PIs and research staff. Adjustments will be made to bring existing contracts (where appropriate) in line with new policy.</p>	Deputy Director of HR	There will be comparator measures available once policy has been launched. To be reported annually through CIG. Fewer fixed term contracts to be issued – reported directly to University committees. Increase in transitions from fixed term to indefinite contracts. (10% increase annually)	Completed and reported to CIG by Aug 2020
<i>A1.4 – To assure fairness, consistency and the best assessment of the candidates' potential, recruitment and progression panels should reflect diversity as well as a range of experience and expertise. In order to promote these values, individuals who are members of recruitment and promotion panels should have received relevant recent training. Unsuccessful applicants should be given appropriate feedback if requested as this may be of assistance to the researcher in considering their further career development.</i>			
<p>Existing Activity University recruitment and progression panels are formed at departmental level and</p>

<p>seek to reflect diversity in addition to the range of experience and expertise required to fairly assess candidate's suitability for a role, or for progression within a role, as outlined in the University's Recruitment Code of Practice.</p> <p>New HR recruitment web pages and on-line toolkit encourage best practice in recruitment panels and encourage diversity in applications.</p>			
<i>No specific action identified for 2019-21</i>			
<i>A1.5 – The level of pay or grade for researchers should be determined according to the requirements of the post, consistent with the pay and grading arrangements of the research organisation.</i>			
<p>Existing Activity</p> <ul style="list-style-type: none"> University pay grades for research staff are determined according to an established HR recruitment framework that applies to all University staff. Pay grades are determined by job evaluation, and each grade has a range of normal and contribution points associated with it. Job evaluation determines grade, but not position within grade. Detailed information is available on the HR website, and specifically, the document Guidance on Starting Salaries. The University also observes national pay bargaining and any research staff based in London (such as those based at the Work Foundation) attract a London weighted allowance. 			
<i>No specific action identified for 2019-21</i>			
<p>B: RECOGNITION AND VALUE</p> <p>Principle 2: Researchers are recognised and valued by their employing organisation as an essential part of their organisation's human resources and a key component of their overall strategy to develop and deliver world-class research.</p>			
<i>B2.1 – Employers are encouraged to value and afford equal treatment to all researchers, regardless of whether they are employed on a fixed term or similar contract. In particular, employers should ensure that the development of researchers is not undermined by instability of employment contracts. This approach should be embedded throughout all departmental structures and systems.</i>			
<p>Existing Activity</p> <p>The Code of Practice for the Development of Research Staff, references mentoring,</p>

<p>access to teaching opportunities and wider professional development.</p> <p>Research staff representatives on Faculty research committees have taken on the role of Faculty Concordat Champions</p> <p>Presently the RSA Steering Group is represented on the Concordat Implementation Group (CIG). Representatives on institutional research committees and researcher groups are not necessarily members of the RSA Steering Group. However, the RSA has strengthened the links between the RSA and research staff reps through a research rep mailing list and formalising regular meetings. All relevant committees (e.g. Research committees) have research staff reps on them, with the notable exception of Senate.</p>			
<p>New Actions:</p> <p>The new revised Concordat will be taken to all the relevant research committees at Department and Faculty level. The Researcher reps on these committees will gather feedback and through a working group, to include the <u>Research Staff Association</u>, inform CIG of any changes necessary to update Lancaster’s Code of Practice (CoP) for Research Staff. The working group to ensure all <u>Concordat</u> changes are reflected in the CoP, and that it is still fit for purpose, this may involve a broader set of stakeholders. The updated CoP will then be submitted to University level committees such as the Research Committee and Senate for final agreement. Once again, the RSA will host an event specifically for researchers to discuss the Concordat updates and its implications for the CoP. (December 2019)</p>	<p>Organisational Developer (Research and Academic) / RSA Executive</p>	<p>Clear understanding and usage of the updated <u>Concordat</u> and the refreshed <u>Code of Practice</u>. Measured through Research Staff Survey feedback and feedback gathered as part of research support programmes. Explicit questions on induction check sheet to ensure information is being made available to all new research staff and researcher managers. 90% of all new researchers to be aware of Concordat and CoP.</p>	<p>May 2020</p>
<p><i>B2.2 – Commitment by everyone involved to improving the stability of employment conditions for researchers and implementing and abiding by the principles and terms laid down in the Fixed Term Employees (Prevention of Less Favourable Treatment) Regulations(2002) and Joint Negotiating Committee for Higher Education Staff (JNCHES) guidance on the use of fixed-term contracts will provide benefits for researchers, research managers, and their organisations</i></p>

<p>Existing Activity</p> <p>Pilot projects to minimise the impact of fixed-term contracts and retain research staff are underway in Faculty of Health & Medicine. See Clause 2.4.</p> <p>New HR recruitment web pages and on-line toolkit encourage best practice in recruitment panels and encourage diversity in applications.</p> <p>See 1.3.1</p>			
<p>New Actions</p> <p>Ensure all researchers are offered career support including PDRs, access to training (included in contracted working hours), access to subject-specific career development workshops (included in contracted working hours), and access to LU's redeployment register for 6 months after the end of a contract</p> <p>New policy for 2019. See A1.3</p>	Concordat Implementation Group	90% of all eligible research staff to have had PDRs by the end of the 2021 cycle	Summer 2021
<p><i>B2.3 – Research managers should be required to participate in active performance management, including career development guidance, and supervision of those who work in their teams. Employers should ensure that research managers are made aware of, and understand their responsibilities for the management of researchers and should provide training opportunities, including equality and diversity training, to support research managers in doing this. Institutions will wish to consider how research managers' performance in these areas is develop and how effectively this supports good research management.</i></p>			

Concordat clause, existing activity and new action(s) 2019-2021	Lead	Success measure	Review date
<p>Existing Activity</p> <ul style="list-style-type: none"> Principal Investigator Development Programme, established as an essential development opportunity for anyone moving into a research management position. A refreshed PDR process and extensive PDR training for all those with line management responsibility. Group Lead roles within the Faculty of Science and Technology to support Heads of Department in the management of academic staff. Continue to develop future research leaders through raising awareness and promotion of Research Fellowships. 			
<p>New actions:</p> <p><u>Research Leadership Masterclasses</u>, for the coming cohorts new targeted signposting from this programme to specific HR policy specific training and management skills workshops.</p> <p>A new induction session is currently being designed for those new to the role of PI.</p> <p>Further focus on research leadership and the further development of a range of <u>Research leadership masterclasses</u>, linked to the updated <u>Code Of Practice</u> and the updated <u>Concordat</u>.</p>	Organisational Developer (Research and Academic)	10% increase in PI/research leader attendance at policy/management skills workshops. From 2018 - 2020 Researcher survey questions on PDR quality and management support	May 2021
<p><i>B2.4 – Organisational systems must be capable of supporting continuity of employment for researchers, such as funding between grants, other schemes for supporting time between grant funding, or systems for redeploying researchers within organisations where resources allow. Funders are expected to make it a priority to consider how their policies, guidance and funding can be enhanced to help employers to achieve this objective.</i></p>			

Concordat clause, existing activity and new action(s) 2019-2021	Lead	Success measure	Review date
<p>Existing Activity Staff at risk of redundancy are offered opportunities as part of the redundancy process, (refer to the University's Redeployment Process Chart).</p> <p>Small bridging funds are available in some departments as is seed funding to assist in the start-up and development of new research areas. Best practice is reported and developed further by the Associate Deans Research through the Research Committee and the ADR forum.</p>			
<p>New Actions: Research Committee to assess the potential costs and benefits of creating a competitive fund for career bridging finance for fixed-term research staff</p>	Deputy Director of HR and onwards to PVC Research/PVC Academic Development	Report and recommendations ready for 2021-22 cycle of business	July 2020 / July 2021/ July 2022
<p><i>B2.5 – Pay progression for researchers should be transparent and in accordance with procedures agreed between the relevant trade unions and the employers nationally and locally. In HEIs, pay progression will be in accordance with the Framework Agreement, though recognising the flexibility that institutions have in implementing the Framework</i></p>			
<p>Existing Activity See A1.5</p>			
<p>New Actions: New guidelines being developed focussing on the progression of research staff between the grades, with a focus on moving between 6 and 7. Follow up guidance for grant applications to be available through RSO – to ensure funding for promotion to be made available within the bid.</p>	Reward and Resourcing Manager Research Support Office	Increase in promotion cases for researchers by 10% Funding applications include opportunity for grade progression for research staff	Annual July Completed July 2020
<p><i>B2.6 – Researchers need to be offered opportunities to develop their own careers as well as having access to additional pay progression. Promotion opportunities should be transparent, effectively communicated and open to all staff. It is helpful if clear career frameworks for early stage researchers are outlined in organisational HR strategies.</i></p>			
<p>Existing Activity Promotion opportunities for researchers on fixed-term contracts are necessarily limited where a post is entirely dependent on the support of an external funding body. The University has a mechanism where research staff may apply for re-grading where</p>

<p>circumstances apply, for example moving from one contract to another – or where contracts overlap.</p> <p>Guidance for research managers is accessible through nominated HR Partners and the ‘Academic Promotions’ section of the HR website.</p>			
<p>New Actions:</p> <p>Building on the current progression development review being undertaken for Grades 6-7, we will review and develop an organisational strategy for the career and pay progression of all research staff.</p>		See B2.5	
<p>C: SUPPORT AND CAREER DEVELOPMENT</p> <p>Principle 3: Researchers are equipped and supported to be adaptable and flexible in an increasingly diverse, mobile, global research environment.</p> <p>Principle 4: The importance of researchers’ personal and career development, and lifelong learning, is clearly recognised and promoted at all stages of their career.</p>			
<p><i>C3.1 – It is recognised that positions of permanent employment are limited in the UK research and academic communities and that not all researchers will be able to obtain such a position. It is, therefore, imperative that researcher positions in the UK are attractive in themselves (and not, for example, solely as potential stepping stones to permanent academic positions). This requires that they provide career development which is comparable to, and competitive with, other employment sectors.</i></p>			
<p>Existing Activity</p> <p>Research Staff are encouraged to make use of the information, advice and resources available from the University’s Careers Service. A specialist Careers Consultant is available for appointments; who is also a member of the Concordat Implementation Group.</p> <p>The Careers Service participates in the annual RSA Christmas Fayre, a showcase of University resources available to research staff and other researchers.</p>

<p>New Actions: See appendix 1 for details of Prosper project. (Looks at alternative (Industry based) career pathways and development opportunities and training for fixed-term research staff (support, guide, advice)</p>	Organisational Developer (Research and Academic)	Reported as part of Prosper project plan Satisfaction reflected in a researcher survey data and exit questionnaire destination data	Summer 2021 Summer 2020
<p><i>C3.2 – A wide variety of career paths is open to researchers, and the ability to move between different paths is key to a successful career. It is recognised that this mobility brings great benefit to the UK economy and organisations will, therefore, wish to be confident that their culture supports a broad-minded approach to researcher careers and that all career paths are valued equally.</i></p>			
<p>Existing Activity</p> <ul style="list-style-type: none"> • A refreshed Researcher Development Programme launched 2018/19 – The balanced academic and the Resilient Researcher – programmes with a coaching core, supported by a series of open workshops. Focus of sessions on information and skills needed by researchers at Lancaster, covering process, information and skills for researchers and those who manage researcher teams. • A minimum of three Research Staff Association events scheduled each year which address different aspects of career pathways. • Ongoing engagement with Faculties through Faculty Concordat Leads to identify appropriate, discipline-specific career pathways. • Lancaster University Research Staff Association was established in 2012. The Association is supported by senior management and offers a range of activities aimed establishing a research staff community; sense of personal independence; career development and networking opportunities. The Association also provides a voice for research staff, and is a key element in the implementation of the Concordat. 			
<p>New Actions: See 3.1 Active promotion of full access to Abintegro – an online career management and transition tool. Resources in Abintegro include job vacancies, sector news and updates, and recruitment and selection</p>	Head of Careers service	Reporting on specific staff groups will not be possible. These resources can be accessed 24/7 and enable Researchers to proactively manage their personal and professional development as well as their career progression. (This is a generic tool now available to all staff at Lancaster.)</p>		<p>the on-line tool will be reported. (Increased usage by all staff by 30%.)</p>	
<p><i>C3.3 – Employers, funders and researchers recognise that researchers need to develop transferable skills, delivered through embedded training, in order to stay competitive in both internal and external job markets. Therefore, as well as the necessary training and appropriate skills, competencies and understanding to carry out a funded project, researchers also need support to develop the communication and other professional skills that they will need to be both effective researchers and highly-skilled professionals in whatever field they choose to enter.</i></p>			
<p>Existing Activity The University provides a wide range of training and skills development opportunities to develop the communication and other professional skills that research staff need. These include writing, presentation, confidence-building skills.</p>			
<p>New Actions: See C3.1 (Prosper) See C3.2 (Abintegro)</p>			
<p>New Actions: OED will develop guidance for researchers on the broad range of activities that could be considered as part of their own professional development plan. This will have direct links to the Concordat and the most effective use of their 10 days allocation for professional development. E.g. to include: opportunities to job shadow in other industries or sectors; peer coaching; personal research; conference attendance; involvement in committees and focus groups; other experiential learning both on and off the job.</p>	<p>Organisational Developer (Research and Academic)</p>	<p>Satisfaction reflected in a researcher survey data</p>	<p>July 2020</p>

Research Leaders will also be informed of their obligations to support a broad range of development options for all researchers during the Researcher leadership programmes.			
<i>C3.4 – All employers will wish to review how their staff can access professional, independent advice on career management in general, particularly the prospect of employment beyond their immediate discipline base, or offering training and placements to broaden awareness of other fields and sectors.</i>			
<p>Existing Activity</p> <ul style="list-style-type: none"> The University's Careers Service is promoted at RSA events, on-line and also within the Researcher Development Programmes. A representative from the Careers Service is a member of the Concordat Implementation Group. Researchers are encouraged to take up the offer of a one to one information, advice and guidance appointment from professionally trained and experienced Careers staff. These will be booked in using TARGETconnect. Careers gives Researchers the option to keep their appointment confidential as there may be sensitivity around applying for another role, and their line managers may have access to TARGETconnect. Therefore their booking may be anonymised. Researchers have full access to the Careers Service website and can use the vacancy search, employer intelligence and employability resources within the site. 			
<p>New Actions: See C3.1 (Prosper) See C3.2 (Abintegro) <i>No specific action identified for 2019-21</i></p>			
<i>C3.5 – Researchers benefit from clear systems that help them to plan their career development. Employers and funding bodies should assist researchers to make informed choices about their career progression by ensuring that their own policies and processes for promotion and reward are transparent and clearly stated and that all researchers are aware of local and national career development strategies</i>			
<p>Existing Activity</p> New HR web site is clearer and easier to use, with links and signposting to all relevant policies and process to support our researchers

<p>New Actions: See B2.1 (CoP) See C3.2 (Abintegro) See C3.4 (Intranet) See C3.6 (Cohort Induction)</p>			
<p><i>C3.6 – Employers should provide a planned induction programme for researchers, on appointment to a research post, to ensure early effectiveness through the understanding of the organisation and its policies and procedures. They should also ensure that research managers provide effective research environments for the training and development of researchers and encourage them to maintain or start their continuous professional development.</i></p>			
<p>Existing Activity New on-line University Induction portal ensures all staff have an enhanced induction experience. Getting up to speed quickly with systems and process is essential and research staff have valued the on-line elements, particularly when joining us from overseas. Additional information and smoother process have been welcomed. A parallel system for hiring managers (PIs) has also been introduced to ensure they are also following University procedures and code of practice. Mentoring is encouraged throughout all the researcher development programmes but especially as part of new starter induction.</p>			
<p>New Actions: New cohort style induction for all new Researchers to launch Sept 2019. This is in addition to the departmental and faculty inductions currently in place. This workshop will raise the awareness of; the Concordat; the Code of Practice; the support and development available to them at Lancaster and how they access it. It will take a ‘cohort’ approach to developing the new members of staff and have a ‘coaching core’, to ensure they are fully supported in establishing themselves at Lancaster.</p>	Organisational Developer (Research and Academic) and Head of Research Quality and Policy	90% of all new researchers to have attended induction programme within 6 months of starting. <i>C3.7 – Employers and funders will wish to consider articulating the skills that should be developed at each stage of their staff development frameworks and should encourage researchers to acquire and practise those skills. For example, researchers may be given the opportunity to manage part of the budget for a project, or to act as a mentor or advisor to other researchers and students.</i>			
<p>Existing Activity</p> <p>Research staff are encouraged, through the Personal Development Review process to discuss, with their manager and/or PI, the development of skills and engagement in activities that extend beyond their present role.</p> <p>Mentoring is now embedded in all development programmes; Programme alumni are actively encouraged to mentor current programme participants.</p> <p>RSA offers opportunities for researchers to volunteer to represent researcher staff in their department on committees and also at researcher events outside the Institution.</p>			
<i>No specific action identified for 2019-21</i>			
<i>C3.8 – Employers also should provide a specific research career development strategy for researchers at all stages of their career, regardless of their contractual situation, which should include the availability of mentors involved in providing support and guidance for the personal and professional development of researchers. All researchers should be familiar with such provisions and arrangements.</i>			
<p>Existing Activity</p> <p>OED has an organisational and education strategy that includes a comprehensive provision for both research staff and research managers, integrated with other staff development initiatives. See Development for Researchers at Lancaster University.</p>			
<p>New Actions:</p> <p>Researchers to be encouraged to access the new Lancaster internal coaching bank for additional personal and career development support.</p>	Organisational Developer (Professional Services)	Applications for and access to the central coaching bank is reported annually. Funding bodies acknowledge that the training of researchers is a significant contribution to research output and they encourage employers and mentors to adopt these practices.</i>			
<p>Existing Activity</p> <p>Research staff are encouraged, through the activities of the Research Staff Association, Library 'Research Bites', and other initiatives, to develop further skills and other developmental activity that not only provide a personal benefit but also make a direct contribution to research output e.g. through publications, papers, conference presentations and wider dissemination activities.</p> <p>Results from the latest staff survey are positive, showing an increase in satisfaction from the Researchers that PDR is more effective and engagement by line managers (PI) are having a positive impact on individual CPD.</p> <p>The new on-line PDR recording tool holds completed PDR (Performance Development Review) data centrally – allowing for easier recording of PDR outcomes and development objectives. The scheme encourages the use of PDR as a 'living' document to be updated at regular catch ups.</p>			
<i>No specific action identified for 2019-21</i>			
<i>C3.10 – Researchers should be empowered by having realistic understanding of, and information about, their own career development and career direction options as well as taking personal responsibility for their choices at the appropriate times. Employers should introduce appraisal systems for all researchers for assessing their professional performance on a regular basis and in a transparent manner. It is important that researchers have access to honest and transparent advice on their prospects for success in their preferred career.</i>			
<p>Existing Activity</p> <p>Full implementation of the PDR policy is now in place as part of the on-line CORE HR management system.</p>

<i>C3.11 – Employers will wish to ensure that development activities open to researchers include preparation for academic practice. Employers should take measures to ensure broad recognition of CPD schemes from other employing organisations as far as possible, so that researchers are not duly disadvantaged when moving from one employer to another</i>			
<p>Existing Activity</p> <p>The University offers CPD processes and opportunities that are consistent and compatible with other HEIs. The University recognises CPD as an essential part of staff development and as such, ensures that its competency-based recruitment and selection processes recognise as far as possible the CPD schemes from other employing organisations.</p>
