CO.15/50  Vice-Chancellor's Update and Questions to the Executive

Ref: CA.3

The Vice-Chancellor gave an oral update on several matters which had been reported in the recent monthly reports from the Executive. He also reported the following points.

(i) The National Student Survey (NSS) results for 2015 had been published, and the University’s overall satisfaction rate had increased from 89% to 91%. The Vice-Chancellor particularly highlighted the outstanding work of Professors Chetwynd and Huttlly, and Dr Brown, along with the contribution of departments and academics to the student experience.

(ii) This year’s student recruitment figures were on target, with a slight increase in undergraduate numbers. This was considered to be a satisfactory outcome, given the increasing competitiveness of the Home/ EU undergraduate market.

(iii) The University had also improved its ranking in League Tables, including rising 39 places in the QS World University Ranking to 121st and to 11th in the Sunday Times University Guide. There had also been a very positive description of the University in the Sunday Times article. It was noted that there was still room for improvement in certain areas.

THE COUNCIL RESOLVED to note the update from the Vice-Chancellor.

CO.15/51  President of the Students’ Union: Report

Ref: CA.4; document: SEC/2015/2/0995

The President of the Students’ Union presented his written report as set out.

THE COUNCIL RESOLVED to note the report.
Strategy

Ref: CA.5

(A) STRATEGY IMPLEMENTATION PLAN

Document: PAS/15/060

The Deputy Vice-Chancellor provided an update on progress regarding the Strategy Implementation Plan. This document was intended to be used as part of the University’s 3 year strategic development process, and departments had been asked to focus on key priorities in their planning reviews.

THE COUNCIL RESOLVED to note the update and to request further detail on progress relating to specific areas of strength and weakness, through the regular Measures of Success reports.

(B) INTERNATIONAL ACTIVITIES: AN UPDATE

Document: SEC/2015/2/0937

The Pro-Vice-Chancellor (International) presented an update on current activities regarding international teaching and research partnerships. He reminded the Council that the current international strategy aimed to support the University’s objective to become a globally significant university, through the leverage of current partnerships for Lancaster’s benefit, and the development of new partnerships with high quality institutions.

The Council noted that there were currently more than 5,000 students studying Lancaster degrees overseas, contributing to the University’s global reputation and League Table ranking. There were lessons to be learned from current international partnerships, including those with COMSATS and Goenka. The University was working alongside the Students’ Union to enhance the internationalisation of the student experience at all Lancaster campuses.

THE COUNCIL RESOLVED to note the update and thanked Professor Bradley for the report.
(c) **REQUEST FOR APPROVAL IN PRINCIPLE TO ESTABLISH A JOINT INSTITUTE WITH BEIJING JIAOTONG UNIVERSITY**

Document: SEC/2015/2/1005 (Commercial in Confidence)

(d) **RESEARCH GRANTS**

Document: SEC/2015/2/1016; SEC/2015/2/0782 (for information only)

The Pro-Vice-Chancellor (Research) introduced a paper which had been developed in response to members’ questions at the previous meeting (ref. minute CO.15/39). The Council noted that the University had lower research grant income per researcher than similar institutions, and that this trend was more evident in some disciplines than others. The report showed that a cultural change was taking place, in that the number of grant applications and successes had improved over the past 12 months, although there was still work to be done in promoting the importance of grant applications by researchers at all levels in their career.

The Council discussed the concern that the University was dependent on relatively few sources of research income, and agreed that the statistics provided in this report should be more widely shared across the institution. The issue of research concentration was discussed, and it was agreed that the interdisciplinary research centres would help to create a critical mass of research output, which would enable Lancaster to diversify its potential research income sources.

The Council resolved to note the document, and thanked the Pro-Vice-Chancellor (Research) for the information.

(e) **RESEARCH INSTITUTES**

Document: SEC/2015/2/0996; SEC/2015/2/0784 (for information only)

The Council received and discussed an update to the paper on Research Institutes which had been considered at the Council meeting held in July 2015. The following points were noted during the course of the discussion:

(a) academics would be incentivised to engage with a Research Institute through the opportunities to become involved with larger, more high profile bids;
(b) the Director of Facilities had met with the Directors of the Research Institutes to discuss their space requirements, although the majority of staff involved in the institutes would continue to be located in their current department;

(c) Research Institutes’ advisory boards offered an opportunity for external bodies to engage with the research agenda at Lancaster, and to help to enhance the visibility of the institutes in the wider community;

(d) the Director of the Materials Science Institute would be a key appointment, as they would be likely to specialise in a particular niche within the field;

The Council resolved to approve the further development of the Institutes, but asked the Pro-Vice-Chancellor (Research) to discuss the document with Baroness Neville-Jones, following her comments at the previous meeting.
