(i) The outcome from the Higher Education Review had been positive. This item would be discussed further under agendum CO.16/16(A).

(ii) Lancaster's MBA ranking had improved significantly in 2016, and it was now 4th in the UK.

(iii) BIS had announced the allocation of UK Research Council funding to 2019/20. There were several aspects in the letter from BIS to HEFCE, such as the continuation of HEIF funding and focus on QR research funding, which would be important for Lancaster.

(iv) The University expected to receive its letter from HEFCE with details of its funding allocation on 19 April.

(v) Responsibility for the Teaching Excellence Framework (TEF) had been passed to HEFCE, who were expected to announce detail on the structure of the TEF shortly.

Regarding the COMSATS partnership, the Vice-Chancellor reported that all actions agreed by the Council at the previous meeting had been undertaken. Many students had now paid for the tuition received to date, and the courses would be taught out where students had paid in full. Senior management from COMSATS had recently visited Lancaster and were pleased to continue the staff development partnership. It was noted that the Council would receive further updates on COMSATS in due course.
It was agreed that the Council would receive a report on the University’s strategy for applications to the new Global Challenge Fund at a future meeting.

Finance: Cost of Living

Ref: CA.7; document: SEC/2016/2/0291

The President of the Students’ Union presented a report on the cost of living for students at Lancaster, which had been produced in collaboration with the Provost for Student Experience, Colleges and the Library following a discussion at the Council in the previous academic year. The Council discussed the report and noted the following points.

(i) Students would currently be unable to cover the cost of a standard student experience with the basic student loan.

(ii) The bursary scheme was welcomed by the students, and it was important to consider the best use of this limited resource. Lancaster was currently prioritising the spending of widening participation funds on bursaries over outreach work, since this was recognised as being in the interests of current students.

(iii) The University’s Employment and Recruitment Service (ERS) was vital for many students and should be commended.

(iv) Transparency regarding the cost of living at Lancaster had been improved in the past year, and a greater amount of information was now available for prospective students via the website.

(v) It would be helpful if the projected costs were course-specific, since some courses involve field trips and other mandatory expenditure.

(vi) Initiatives regarding the provision of affordable accommodation were ongoing.

The Council resolved to thank Mr Hedley for the report, and to encourage future Student Union officers to continue to monitor the living costs for students.
