ITEMS FOR INFORMATION

CO.16/38 Vice-Chancellor’s Update and Questions to the Executive

(A) VICE-CHANCELLOR’S UPDATE

The Vice-Chancellor provided an oral update on activities of interest to Council, including:

(i) HEFCE had confirmed that it was satisfied with the University’s arrangements to comply with Prevent requirements following an assessment of the University’s submission. There was one minor issue to address, which was in hand;
(ii) an overview of the impact of the Teaching Excellence Framework (TEF), White Paper and HE Bill, including the introduction of the Office for Students (OfS) and UK Research & Innovation (UKRI), noting that TEF outcomes would be linked to tuition fee increases, the changes provided for increased marketization, and the removal of powers previously reserved to the Privy Council to OfS. The outcome of the EU vote may impact the timetable to effect the changes;

(iii) Senate had discussed and agreed the University Priorities for 2016/17;

(iv) the University had performed well in recent league tables including the Complete University Guide (9th) and the Guardian University Guide (8th). In addition, it had performed well in the recent mock TEF conducted by the Times Higher Education (THE).

(b) EU Referendum Result – Implications and Response

The report and related risk analysis following the EU Referendum (SEC/2016/2/0851; SEC/2016/2/0874) were considered, covering implications for and response by the University.

Key points from the discussion included:

(i) the principal areas of concern were the potential impact on recruitment of EU students and staff and access to EU research funding;

(ii) although there had been confirmation about continuation of EU students’ fees and loans arrangements for the 2016 intake, clarification was awaited for future years and also regarding the future Horizon2020 and ERDF funding;

(iii) communications had been circulated to reassure current and potential staff and students. In addition, drop-in sessions had been arranged for staff;

(iv) the apparent disconnect between higher education and some communities revealed by the vote outcome and the importance of addressing this gap;

(v) the importance of continuing to proactively seek EU research funding and to collate evidence if University staff were excluded from consortia;

(vi) the importance for the University to proactively convey a pro-European and international position to the wider world.

Council agreed that the risk register should be reviewed and reported back to Council in Autumn, when government policy should be clearer.
