ITEMS FOR INFORMATION

CO.16/56 Vice-Chancellor’s Update and Questions to the Executive

The Vice-Chancellor provided an oral update on activities of interest to Council, including:
the University’s performance had slipped in the recent *QS World Rankings* from 121st to 129th position and in the *Times Higher Education World University Rankings* from 130th to 137th. There would be analysis of the reasons for this performance although it was noted that it was relative to the general decrease in UK universities’ performance in these rankings;

(ii) an update on policy developments including: progress of the HE Bill; the creation of the Office for Students (OfS) and implications for Royal Chartered institutions; the Teaching Excellence Framework (TEF) and associated tuition fees increases from 2017-18; and, key outcomes of the Stern review of the Research Excellence Framework (REF) and potential implications for the University;

(iii) the University had achieved 91% on the overall satisfaction score in the 2016 National Student Survey, providing an 8th place ranking. There had been a strong performance from many departments and the Library investment had contributed to significantly improved scores for learning resources. The results reflected further work was needed to improve satisfaction with assessment and feedback;

(iv) the recent recruitment round had been strong, including for Home/EU undergraduate students, although recruitment for undergraduate international numbers was challenging and below target. Postgraduate forecast numbers appeared to be increasing, but final numbers would only be known following registration;

(v) the University was placed 7th in the Mental Health Rankings published by *The Tab*;

(vi) the University had recently achieved 9th position in *The Times and The Sunday Times Good University Guide 2017*, which now placed the University in the top ten of all the UK’s major university league tables.

Council agreed that papers should be provided to a future meeting on arrangements for the next REF once the Government’s position on the Stern review was clear and on University activity to improve student satisfaction with assessment and feedback.

CO.16/57  **President of the Students’ Union: Report**

The President of the Students’ Union introduced the written report (SEC/2016/2/1120). Council noted the report.

**ITEMS FOR DISCUSSION/APPROVAL**

CO.16/58  **Strategy**

(A) **STRATEGIC PARTNERSHIP OPPORTUNITY: APPROVAL AND NEXT STEPS**

*(Restricted and Commercial in Confidence)*
**IMPLICATIONS OF THE TEACHING EXCELLENCE FRAMEWORK AND THE NEW HEFCE QUALITY ASSESSMENT MODEL.**

The Pro-Vice-Chancellor (Education) introduced the paper and the HEFCE Circular (SEC/2016/2/1121; SEC/2016/2/1133) summarising the requirements of the new HEFCE Model for Quality Assessment and the introduction of TEF, in addition to an overview of University activity to respond to these changes.

The HEFCE Model for Quality Assessment included the requirement for governing bodies to provide annual assurance to HEFCE on teaching quality. It was proposed that two Council members work with the University in order to support activity to enable Council to provide the assurance at the November meeting. It was reported that Audit Committee had discussed this new requirement at its earlier meeting and had expressed some concern over the motivation from HEFCE for the statement and about the terminology and appropriateness of the statement with regards to the expectation of competency and judgement expected from Governing Bodies about academic standards. Council concurred with this view.

Council noted the paper and the new HEFCE assurance requirements.

**EDUCATION STRATEGY: DEVELOPMENT UPDATE**

The Pro-Vice-Chancellor (Education) introduced the report (SEC/2016/2/1122) providing background to the development of the draft strategy which was intended to identify priorities to support the delivery of the University’s Strategy 2020, including the development process to date, which had identified three strategic areas, and the next phase of activities before the strategy was finalised. Council noted the paper.

Discussion included:

(i) the importance of maintaining the sense of collegiality as the University grew;
(ii) that it would be useful to draw out the current and future distinctiveness of the University.

Council agreed that a paper should be provided to a future meeting on employability activity at the University.

**INTERNATIONAL STRATEGY AND ACTIVITY UPDATE**

The Pro-Vice-Chancellor (International) introduced the report (SEC/2016/2/1108) providing a summary of the key components of the international strategy and activity including: international teaching and research partnerships; student recruitment and the student experience. These activities supported the delivery of the University Strategy 2020. Council noted the paper.
Key points from the discussion included:

(i) that the development of collaborative research depended on the complementary interests of the partner and was not limited to disciplinary areas;
(ii) whether the overseas campuses provided a potential source of postgraduate taught students for Bailrigg;
(iii) seed corn funding was provided to support the development of some research activities;
