6.2 Council noted the report, including:

(a) the Students’ Union block grant would be considered through the normal budget-setting processes (by Finance and General Purposes Committee before recommendation to Council);
(b) there had been significant investment in student welfare and wellbeing services over recent years and enhancing the service continued to be a priority. In particular, working practices ensured that severe and urgent cases were dealt with as an immediate priority and for the remainder of cases the University was meeting its three-week waiting time benchmark. However, the University faced a significant pressure in the delivery of support services due to its location where the NHS waiting lists were higher than the national average and impacted on timely referral.
