The Director of Strategic Planning and Governance introduced the paper which outlined the University’s proposed framework for responding to the UUK Guidance: Managing Risk in Internationalisation, which itself had been a response to increased government interest in how universities were engaging with foreign powers. He drew members’ attention to Section 3.2 (a-e) of the Guidance which the Executive viewed as the focus for consideration and outlined the exercise which had been undertaken to aggregate these requirements into a more manageable form to enable a gap analysis to be conducted.

Members considered the significant scope and scale of the guidance and the consequent leadership and awareness raising activity required at all levels within the Faculties to support a culture that managed the risks effectively. The meeting noted the related ongoing review of governance arrangements regarding research ethics and integrity processes and the stocktake being conducted on partnership activity.

Council noted the UUK Guidance, was supportive of the approach and the progress made to date in mapping the University’s position against the guidance and the proposal to provide Council with an annual assurance report regarding the identification and management of risks arising from the University’s internationalisation activity.
