There shall be a lay majority in the membership of the Committee.

The membership of the Nominations Committee shall include individuals with experience of serving on the University Council or other governing bodies from any sector; and who have an understanding of contemporary standards of governance in universities.

The Committee shall also be able to co-opt any other person, or persons, onto the Committee for the purpose of a particular appointment, should they believe that the quality of the appointments process would be better assured as a result of so doing.

The quoracy for this committee is half the number of members plus one.

In fulfilling its responsibilities, the Committee will:

- give due consideration to the skills, knowledge and experience required to enable the Council to undertake its role in setting the strategic direction of the University and advise on which attributes should be emphasised in forthcoming appointments, including with a view to succession planning;
- in order to identify suitable candidates for appointment, consult widely, using whatever other means it determines as appropriate;
- seek to ensure that the Council has a diverse and balanced membership;
- all other things being equal, give preference to Lancaster alumni.

The Deputy Chief Executive (Operations) or nominee shall carry out due diligence on persons suggested for Council membership, and shall ensure that new members of Council are properly inducted, including briefings on internal University procedures and external governance guidance.
