3. PRO-CHANCELLOR: INTRODUCTION

3.1 Senate welcomed the Pro-Chancellor, the Rt. Hon. Alistair Burt.

3.2 The Pro-Chancellor thanked Senate for allowing him to attend and paid tribute to this predecessor, Lord Liddle, for his service. He also recorded his formal thanks to the whole University for the work undertaken in the extraordinary year to support students and the ongoing work of the University in the face of the Covid-19 national emergency.
3.3 The Pro-Chancellor set out his position on higher education, noting the challenges both locally and across the sector. He emphasised his support for the fundamental capacities of education and noted student welfare and the need for interconnectivity as key priorities.

3.4 Senate thanked the Pro-Chancellor for this attendance, noting that further engagement between Council and Senate was being planned.

4. QUESTIONS ON NOTICE TO THE VICE-CHANCELLOR

4.1 The following question to the Vice-Chancellor had been received from:

Sam Maesschalck, Student representative

The pandemic has shown that PGR students very much fall between the cracks, as we’re still in an area somewhere between students and staff. The new University Strategy only talks about enhancing the PGR student experience and support employability but does not include a clear link to the research and work PGR students do for the University. Given the UCU has adopted a policy to campaign to recognise PGRs as members of staff, similar to many other European counties, what is the University position on this?

4.2 The Vice-Chancellor noted that the University’s position remained that PGR students were considered students and set out the reasons for this reflecting on elements such as educational purpose, management of intellectual property and broad institutional governance structures. He further noted, however, that there were differences between PGR and other students and that the University was working to improve PGR provision.

4.3 It was noted in discussion that the Covid-19 national emergency had highlighted particular issues for PGR students and these were being considered through the Doctoral Academy and other forums.

5. MINUTES OF LAST MEETING: 21 APRIL 2021

5.1 Senate approved the minutes of the meeting held on 21 April 2021.

5.2 It was noted that both matters that had been referred to Council for approval, the contingency arrangements for conferring degrees and the revocation of the honorary degree, had been duly approved.

6. REPORT OF THE VICE-CHANCELLOR

6.1 The Vice-Chancellor provided an oral report, including the following.

(i) The University had appointed a Pro-Vice-Chancellor (Education). The name was currently embargoed but would be released shortly.
(ii) Work was proceeding on bringing the campus out of the government restrictions while recognising that the situation remained fluid and subject to change.

(iii) The recent Complete University Guide had moved Lancaster to eleventh. The data was being analysed to support decision-making around the institutional response.

(iv) Congratulations were recorded to the Pro-Vice-Chancellor (Engagement) who had recently presented her maiden speech in the House of Lords on the topic of education and the life chances it provided.

6.2 Senate noted the report.

10. JOINT FACULTY TEACHING COMMITTEE (JFTC) PAPER E

12.2 It was noted that work would continue and agreed that a substantive paper would come to the next meeting.

13. REVIEW OF EDI GOVERNANCE  

13.1 Senate received a paper setting out proposals in relation to the governance structures for equality, diversity and inclusion (EDI) work within the University. The Deputy Vice-Chancellor reported that the proposals would give both Senate and Council greater assurance in relation to EDI priorities while also providing wider opportunities for engagement though forums and task and finish groups.

13.2 It was noted that the new structures would allow for greater engagement with students around EDI concerns and this was welcomed.

- The new criteria did not remove anything from the previous criteria; it clarified the principles rather than detailing specific roles.

14.3 The role of Senate in decision-making around academic matters was noted and Senate confirmed that it was satisfied that it had sufficient information to make a decision.

14.4 It was noted that the process would be kept under review through the Promotions Committee.

14.5 Senate approved the update promotions criteria.

15. TEMPORARY GOVERNANCE MEASURES DURING THE PANDEMIC

15.1 The Deputy Chief Executive (Operations) reminded Senate that temporary governance measures, including delegations to Senate Sub-Committee chairs to recommend changes to committee memberships for approval by Chair’s action had been introduced during the Covid-19 national emergency. She reported that there had been no requirement to invoke and presented a proposal that they be removed.

15.2 While the formal measures were no longer required, it was noted that significant good practice had been identified through the period, including the efficacy of virtual committee meetings. Where good practice had been identified this would be continued.

15.3 Senate approved the removal of the delegated powers to Senate Sub-Committee chairs to recommend changes to committee memberships for approval by Chair’s action and recommended to Council the removal of temporary Ordinance clause 5.C.
