##### **3. QUESTIONS ON NOTICE TO THE VICE-CHANCELLOR**

3.1 The following question to the Vice-Chancellor was received from Dylan Bahia (student representative).

*Is there a concern about influence by foreign governments and organisations on taught content and research output and, if so, is the University taking measures to mitigate any current and potential future influence?*

3.2 It was noted that the University takes academic freedom seriously and has controls in place to monitor for and reject accepting resources that would contravene this. It was recognised that there was interest, via the media, in the direct or indirect influence of foreign states, but it was confirmed that nothing had been identified within the University to suggest this has been an issue.

**PROGRAMMES DELIVERED BY INTO**

10.1 The Academic Dean introduced a proposal for Senate to approve two new awards, both relating to the international pathway programmes to be delivered by the University's new partner INTO. He reported that the provision of foundation programmes was now being delivered via INTO who had identified that providing students with a University award as critical for success.

10.2 The Academic Dean outlined how these would be part of the diet of awards over which the University would maintain control of content. Two pathways were being proposed for development, a pre-undergraduate foundation path and a pre-masters path. The foundation pathway, it was reported, would be first time that Lancaster University would offer an award at level 3; the pre-masters would be level 6.

10.3 In addition to approving the new awards, the paper proposed using the existing International Partnership Joint Faculty Teaching Committee to approve specific programmes of study as this would provide a consistent and effective approach for what would be cross-faculty programmes.

- 10.4 Senate approved the establishment of a Level 3 award entitled International Foundation Certificate, approved the establishment of a Level 6 award entitled International Graduate Diploma, and approved the use of the International Partnership Joint Faculty Teaching Committee to approve these programmes for INTO.

**11. LIBRARY REPORT FOR ACADEMIC YEAR 2022/2023 PAPER E**

- 11.1 Senate received the Library's annual report for 2022/23. It noted how work had been undertaken to make visible the role of the library as partner rather than transactional service. This continued to be successful, as notable via the NSS score. The Library had worked with N8 partners and this had been positive in creating impact and influence within the national environment. Continuing to grow creative response to enhance open access online, Library physical space continued to be used effectively, including a new archive space, and it was noted that work with the community continued, including the sanctuary collection.
- 11.2 Senate concurred that the Library was an aspect of the University in which it could take significant pride, an identifiable in its impact on external metrics.
