AD 1  ADMISSIONS POLICY (UG AND PG)

The current University Admissions Policy is available [here](#).

AD 1.1 The University aims to:

(a) offer attractive and relevant degree programmes underpinned by Lancaster’s high academic reputation and institutional quality standards;
(b) recruit students with high levels of entry qualifications;
(c) attract and retain students who have the potential to succeed in their chosen programme;
(d) ensure that there is equality of opportunity for all applicants, whatever their background;
(e) treat all applicants fairly and consistently, evaluating each application on its own merits.

AD 1.2 The University seeks to achieve these aims by:

(a) providing information and materials relating to the criteria for entry and to admissions procedures that are accurate, relevant, current and accessible, and are designed to help applicants to make informed decisions;
(b) ensuring that any significant changes to an advertised programme will be communicated to all applicants who will be affected by the changes;
(c) ensuring that recruitment and admissions procedures are fair, transparent and applied consistently;
(d) assessing each application on an individual basis, judging against published selection criteria, including prior learning and experience where appropriate;
(e) ensuring that all applications are processed in a timely and effective manner;
(f) ensuring that any potential student who has additional support needs is aware of the support the University can offer;
(g) ensuring that staff who are involved in recruitment and admissions are competent, trained and informed about relevant issues, operate in a clear and consistent way, and deal with applicants in a polite and helpful manner;
(h) regularly monitoring and reviewing matters relating to admission and progression.

AD 1.3 The University’s Admissions Policy and associated procedures comply with relevant legislation and meet the expectations of the Quality Assurance Agency (QAA).

AD 2  GENERAL ADMISSIONS PROCEDURES (UG AND PG)

AD 2.1 General entrance requirements for programmes leading to different levels of award are set by the University but particular requirements might be set for specific programmes by departments and faculties with the approval of the University.
AD 2.2 The process for admitting students to the University is conducted in accordance with the University’s Admissions Policy and is overseen and co-ordinated by the University’s Admissions Office in co-operation with departments and faculties.

AD 2.3 Clear entry criteria for each programme (including explicit qualification criteria) are given in all recruitment and admissions information and materials, to ensure that selection decisions are fair, transparent and consistent. Entry criteria are reviewed annually by the University, and updated as appropriate.

AD 2.4 Applicants seeking credit for prior learning will be considered in accordance with University policy and procedures on the recognition and accreditation of prior learning.

AD 2.5 All applicants who are offered a place shall be given clear information about conditions of acceptance.

AD 2.6 All applicants who accept the offer of admission shall be given detailed information about registration and induction at the University, in a timely manner before their arrival.

AD 2.7 Any student entering part-way through an award shall be given similar information to that given to new students registering at the start of a programme.

AD 2.8 No student shall normally be allowed to register concurrently for more than the equivalent of one full-time higher or further education scheme of study. Exceptions may be made in cases where a second scheme of study is complementary to the first. Such exceptions must be approved by the body or officer with delegated authority from Senate.

AD 2.9 Feedback will be provided to unsuccessful applicants but, due to the large number of applications the University receives each year, this may only be at the specific request of the applicant to the Admissions Office. Feedback will normally only be provided to the applicant themselves, or to their formally authorised representative.

AD 2.10 The University does not allow appeals by unsuccessful applicants against admissions decisions. However, if an applicant believes that their application has not been dealt with fairly in accordance with the Admissions Policy or believes that University procedures have not been followed properly, then they can contact the Admissions Office in the first instance. Should the issues not be resolved by the Head of Admissions, a formal written complaint will be dealt with by the University’s Complaints Co-ordinator.

AD 3 ADMISSIONS TO UNDERGRADUATE PROGRAMMES
