

The Bipolar Recovery Questionnaire (BRQ)

The Bipolar Recovery Questionnaire has been developed in order to understand more about recovery in bipolar disorder; what recovery is and what can help or hinder recovery. The questionnaire has been developed by interviewing individuals with a diagnosis of bipolar disorder about their experiences of recovery. It is acknowledged that everybody is different and may have different experiences and views about recovery. Therefore not all of the statements on the questionnaire may apply to you.

When filling in the questionnaire, please consider how things have been for you in the last week in relation to your mental health and recovery. Please respond to the following statements by marking an "X" at the point on the line that best describes how much you agree with each statement.

	Strongly disagree	Disagree	Agree	Strongly agree
		_____	_____	
1. I struggle to make sense of the experiences I have had		_____	_____
