

# Norms and declarative protocols $\mapsto$ Multiagent AI

Amit K. Chopra, Lancaster University

| Interaction Orientation | Agentic AI                    |
|-------------------------|-------------------------------|
| Conceptually multiagent | Conceptually single agent     |
| Interactions            | Orchestration                 |
| Formal, declarative     | Natural language              |
| Flexible                | Ambiguous                     |
| Application specific    | Specific communication models |
| Hard guardrails         | Soft guardrails               |
| Heterogeneous agents    | LLM agents                    |
